Re: In the Matter of Order for Compliance  
Docket No. CWA-08-2007-007

Dear Ms. Mease:

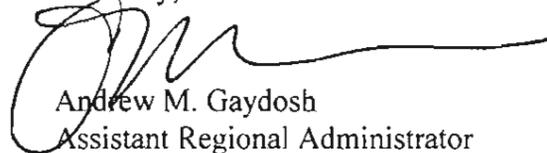

On December 5, 2006, the U.S. Environmental Protection Agency (EPA) issued an Order for Compliance (Docket Number CWA-08-2007-0008) to Monument Powder Coating, Inc. This Order required Monument Powder Coating to comply with all provisions of 40 C.F.R. § 403.12. Specifically, the Order required Monument Powder Coating to submit a baseline monitoring report and a 90-day compliance report, and to submit periodic compliance reports twice a year to EPA.

On June 24, 2008, the Colorado Department of Public Health and the Environment (CDPHE) sent Monument Powder Coating a letter designating the facility as a Non-Significant Categorical Industrial User. As part of this designation, Monument Powder Coating is no longer required to be covered by a CDPHE pretreatment discharge permit. However, Monument Powder Coating is still required to submit an annual Certification Statement and flow records for the year demonstrating that the facility did not have a discharge in excess of 100 gallons per day.

Based on Monument Powder Coating's full compliance with the requirements of the Order and the fact that the facility has demonstrated that it does not discharge in excess of 100 gallons per day, EPA has also decided to designate Monument Powder Coating as a Non-Significant Categorical Industrial User. Therefore, the Order issued to Monument Powder Coating, for administrative purposes, will be closed. However, Monument Powder Coating is still required to submit to CDPHE and EPA an annual Certification Statement and flow records.

If you have any questions, the most knowledgeable person on my staff regarding this letter is Aaron Urdiales, Environmental Scientist, who can be reached at (303) 312-6844.

Sincerely,

A handwritten signature in black ink, appearing to read 'AMG', with a long horizontal flourish extending to the right.

Andrew M. Gaydosh
