Re: Administrative Order Addendum, Town of Edgerton, PWS ID #5600017,
Docket No. SDWA-08-2014-0011

Dear Mayor King:

This letter is an addendum to the Administrative Order (Order) issued on March 27, 2014, to the Town of Edgerton (Town). The purpose of this letter is to approve the December 18, 2014, schedule submitted by you, on behalf of the Town, for coming into consistent compliance with the total coliform maximum contaminant level (MCL). The schedule is hereby incorporated into the Order per paragraph 8 (page 2) of the Order.

Table with 2 columns: Action and Date. Rows include construction of water and sewer extension, water truck load-outs, pipeline inspections, flow adjustments, flushing trailer use, and sampling schedules.

Action

Date

During October-April, maintain less storage in the 1.5 million gallon storage tank or utilize the smaller 225,000 gallon tank when it is available.

On-going

Sampling/flushing schedule for the months of July through September will increase with weekly total coliform, HPC and nitrate sampling and a heavy flushing event will occur in June to increase the chlorine residual level.

On-going

Pursuant to paragraph 11 of the Order, the System shall achieve compliance with the total coliform MCL by the final compliance deadline in this approved schedule, April 30, 2015. The EPA is authorized to seek penalties if these deadlines are not met. If the Town has a reasonable basis to believe it may be unable to meet any deadline in the schedule, it shall notify the EPA well in advance of the scheduled deadline to request an extension. The EPA may, in its discretion, consider granting an extension.

Please contact Kathelene Brainich, Environmental Protection Specialist, at (303) 312-6481 or via email at brainch.kathelene@epa.gov if you have any questions concerning this Addendum.

Sincerely,

Arturo Palomares, Director
Water Technical Enforcement Program
