Subject: Closure of Administrative Order – Hoy Mobile Home Park PWS WY5600141, Docket No. SDWA-08-0012, Campbell County, WY
Attachments: WY5600141 Sanitary Survey 2023.pdf SDWA-08-2025-0012

The EPA has decided to close the Administrative Order (Order) regarding the public water system specified in the subject line. The EPA has determined that there are no remaining requirements of the Order related to the 2020 Sanitary Survey and the associated significant deficiencies cited in the order, following documentation from the EPA's Water Division closing all four of the 2020 Significant Deficiencies.

Please be aware, however, that since the order was issued and the significant deficiencies addressed, the EPA's Water Division emailed you a 2023 Sanitary Survey Report (attached) outlining Significant Deficiencies that need to be addressed. Of these significant deficiencies, one of them (SD1) has since been closed through documentation previously submitted. The three remaining significant deficiencies are unaddressed and require you to work with the Water Division on your plan for addressing the deficiencies. Please send acknowledgement of the 2023 Sanitary Survey to JD Droddy (Droddy.jd@epa.gov) and Michael Copeland (copeland.michael@epa.gov).

If you have any questions regarding the new deficiencies that were issued to your water system, contact Matt Langenfeld (Langenfeld.matthew@epa.gov). If you have questions regarding the Administrative Order we are closing, reach out to me. We appreciate your attention to this matter.

Please be aware that you are still required to comply with the National Primary Drinking Water Regulations (drinking water regulations), 40 C.F.R. part 141. Violation of the drinking water regulations may result in a court-imposed injunction and/or penalties.

Thanks,
Jessica Moore, P.G.
