Re: Administrative Order Addendum Dave Johnston Power Plant Docket No. SDWA-08-2011-0042

PWS ID #WY5600291

To whom it may concern:

Action

Pursuant to paragraph 9 of the Administrative Order (Order) issued May 16, 2011, to PacifiCorp Energy (Respondent), this Addendum to the Order incorporates the plan and schedule for completing system modifications as outlined in the August 17, 2011, letter to EPA from Respondent. This letter constitutes the written approval by EPA of Respondent's schedule shown below.

Assess the filter's carbon media end-of-life via total organic carbon testing and determine if the testing will provide adequate GAC filter maintenance information without system modifications.	November 30, 2011
Conduct chlorine residual testing throughout the distribution system to determine residence time. Institute flushing program if needed.	December 31, 2011
Continue timely filter media replacements. Determine if the frequency is effective. If ineffective, continue with compliance schedule.	May 30, 2012
Conduct jar testing of various flocculants and coagulants to determine the need for additional or different treatment. Determine the most effective flocculants/coagulants for the treatment.	May 30, 2012
If above actions are unsuccessful, submit proposed treatment system upgrades to EPA and DEQ for approval.	March 30, 2013
Submit quarterly progress reports to EPA.	10 days after each quarter

Please note that EPA expects this approved schedule to be met. While not creating any right to an extension, EPA in its discretion may consider granting an extension to compliance order deadlines under limited circumstances. If unexpected events occur that are beyond Respondent's control and that may require Respondent to request an extension of these deadlines, Respondent is responsible for notifying EPA well in advance of the deadline dates. EPA will not consider extending these deadlines without a clear justification for their need. Respondent must provide the following information in writing for any request for extensions: 1) a description of the work that has been completed and the additional work that may not be completed by the deadline dates; 2) the unexpected events that have occurred or may occur and how Respondent has attempted to foresee and use its best efforts to overcome these obstacles; and 3) proposed new deadline dates with justification for the length of the proposed new deadlines.

Please be advised that Respondent is required to comply with all provisions of the Order. Penalties for failing to comply are set forth in the Order. Please contact Kathelene Brainich at (800) 227-8917, extension 6481, or (303) 312-6481 if Respondent has any questions concerning this Addendum. If Respondent is represented by an attorney who has any questions, please ask the attorney to call Jean Belille at the above 800 number, extension 6556, or at (303) 312-6556.

Sincerely.
