Docket No. SDWA-05-2024-0002

The U.S. Environmental Protection Agency, Region 5, is providing notice of its intent to issue a Consent Agreement and Final Order (CAFO) that assesses a civil penalty of \$22,457.36 to Sappington Crude Oil Company (Respondent) under the authority of Section 1423(c)(2) of the Safe Drinking Water Act (SDWA), 42 U.S.C. § 300h-2(c).

The CAFO will resolve Respondent's liability for the civil penalty for only EPA's allegations contained therein that Respondent failed to comply with the SDWA, 42 U.S.C. § 300h-2, requirements of its Underground Injection Control (UIC) Permit No. MI-011-2D-0002 (Permit), and the UIC regulations at Title 40 of the Code of Federal Regulations Part 144 at its Class II injection well in Arenac County, Michigan. Specifically, EPA alleges in the CAFO that Respondent exceeded the permitted maximum injection pressure.

In addition to payment of the civil penalty, the CAFO requires that Respondent implement compliance measures at the Well. Pursuant to the compliance plan, Respondent must submit to EPA an application for a permit modification to increase maximum injection pressure at the Well.
