Dear Mr. Wilson:

Section 13(a) of the Federal Insecticide, Fungicide, and Rodenticide Act, 7 U.S.C. § 136k(a), authorizes the U.S. Environmental Protection Agency to issue an order prohibiting the sale, use or removal of any pesticide by a person who owns, controls, or has custody of such pesticide whenever there is reason to believe on the basis of inspection or tests that the pesticide is in violation of any provision of FIFRA or has been or is intended to be distributed or sold in violation of FIFRA.

Enclosed is a **STOP SALE, USE OR REMOVAL ORDER** (Order or SSURO) issued pursuant to Section 13(a) of FIFRA, and directed to Timothy Wilson, doing business as Wilson's Pest Control (Wilson's Pest Control), EPA Docket No.: FIFRA-07-2022-0090, concerning the following pesticides: Contrac Pellet Rodenticide, Green Block Rodenticide, FINAL Pellet Rodenticide, Red Block Rodenticide, Talon G Pellet Rodenticide, Blue Block Rodenticide, Brown Block Rodenticide, Professional Growth Regulator, Pest Control Concentrate, and Termite & Ant Control, and any other unregistered, illegally repackaged, and/or misbranded pesticides that are within the ownership, control, or custody of Wilson's Pest Control and any agent, contractor, employee, consultant, firm successor and/or other persons or entities acting on behalf of Wilson's Pest Control.

Wilson Pest Control's repackaging of these pesticides and offering them for sale without obtaining registration nor meeting all the repackaging conditions of 40 C.F.R. § 165.70(b) are violations of Section 12(a)(1)(A) of FIFRA, 7 U.S.C. § 136j(a)(1)(A). Part 156, are misbranded under Section 2(q) of FIFRA, 7 U.S.C. § 136(q), and in violation of Section 12(a)(1)(E) of FIFRA, 7 U.S.C. § 136j(a)(1)(E).

The Order directs you and Wilson's Pest Control to immediately cease the distribution, sale, offering for sale, holding for sale, delivering for shipment, receiving, or having so received, delivering, offering for delivery, moving or removal from any present location, or use of any of these repackaged pesticides, ***and is effective immediately upon receipt.*** The Order was issued because of the EPA inspection conducted on June 15, 2022, at the Wilson's Pest Control store located at 2400 N. Grand Boulevard in

St. Louis, Missouri. Paragraphs 1 through 69 of the Order further inform you of why this action is being taken.

Please read the Order carefully, as it contains specific requirements and deadlines. Violation of the terms or provisions of the Order may subject Respondent to civil or criminal penalties pursuant to Section 14 of FIFRA, 7 U.S.C. § 136*l*.

You may seek judicial review of this Order pursuant to Section 16 of FIFRA, 7 U.S.C. § 136*n*.

The EPA's investigation into Wilson Pest Control's compliance with FIFRA and its implementing regulations is continuing and there may be additional violations not included in this Order. The issuance of this Order shall not in any case affect the right of the EPA or the United States to pursue appropriate injunctive or other equitable relief or criminal sanctions for any violations of law, including the assessment of civil penalties pursuant to Section 14 of FIFRA, 7 U.S.C. § 136*l*. This Order does not waive, extinguish, or otherwise affect Respondent's obligation to comply with all applicable provisions of FIFRA and regulations promulgated thereunder.

8. Section 2(u) of FIFRA, 7 U.S.C. § 136(u), defines the term “pesticide” as, *inter alia*, any substance or mixture of substances intended for preventing, destroying, repelling, or mitigating any pest and any substance or mixture of substances intended for use as a plant regulator, defoliant, or desiccant.
9. The regulations at 40 C.F.R. §§ 152.15(a)(1) and (b) further define the term “pesticide” as any substance intended for a pesticidal purpose, and thus requiring registration, if the person who distributes or sells the substance claims, states, or implies (by labeling or otherwise) that the substance can or should be used a pesticide; or the substance consists of or contains one or more active ingredients and has no significant commercially valuable use as distributed or sold other than use for pesticidal purpose.
10. Section 2(t) of FIFRA, 7 U.S.C. § 136(t), defines the term “pest” to mean (1) any insect, rodent, nematode, fungus, weed, or (2) any other form of terrestrial or aquatic plant or animal life or virus, bacteria, or other micro-organism (except viruses, bacteria, or other micro-organism on or in living man or other living animals) which the Administrator of the EPA declares to be a pest under Section 25(c)(1) of FIFRA, 7 U.S.C. § 136w(c)(1).

13. The regulation at 40 C.F.R. § 165.3 defines the term “producer” as any person, as defined by FIFRA, who produces any pesticide, active ingredient, or device (including packaging, repackaging, labeling and relabeling).
14. The regulation 40 C.F.R. § 165.3 defines the term “repackage” as to transfer a pesticide formulation from one container to another without a change in the composition of the formulation, the labeling content, or the product’s EPA registration number, for sale or distribution.
15. The regulation at 40 C.F.R. § 165.70(c) states that repackaging a pesticide product without either obtaining a registration or meeting all of the conditions in 40 C.F.R. § 165.70(b) is a violation of Section 12 of FIFRA.

16. The regulation at 40 C.F.R. § 165.70(b) provides the conditions under which a registrant may allow a person to repack the registrant's pesticide product into refillable containers and to distribute or sell such repackaged product under the registrant's existing registration.

20. Section 2(q)(1)(E) of FIFRA, 7 U.S.C. § 136(q)(1)(E) states that a pesticide is misbranded if any word, statement, or other information required by or under authority of this subchapter to appear on the label or labeling is not prominently placed thereon with such conspicuousness (as compared with other words, statements, designs, or graphic matter in the labeling) and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

21. Section 2(q)(1)(F) of FIFRA, 7 U.S.C. § 136(q)(1)(F) states that a pesticide is misbranded the labeling accompanying it does not contain directions for use which are necessary for effecting the purpose for which the product is intended and if complied with, together with any requirements imposed under section 136a(d) of this title, are adequate to protect health and the environment.

22. Sections 2(q)(2)(A)-(C) of FIFRA, 7 U.S.C. §§ 136(q)(2)(A)-(C) state in part that a pesticide is misbranded if the label does not contain: an ingredient statement; statement of use classification; the name and address of the producer, registrant, or person for whom produced; the name, brand, or trademark under which the pesticide is sold; and the net weight or measurement of the content.

23. 40 C.F.R. Part 156 provides additional labeling requirements for pesticides.

### **Background and Basis for Order**

24. Respondent is Timothy Wilson, doing business as Wilson's Pest Control, an entity registered to do business in Missouri, and is therefore a "person" within the meaning of Section 2(s) of FIFRA, 7 U.S.C. § 136(s).

25. On June 15, 2022, pursuant to Section 9 of FIFRA, 7 U.S.C. § 136g, the EPA conducted an inspection of Respondent's facility located at 2400 N. Grand Boulevard, St. Louis,

Missouri 63106 (Facility) to determine compliance with FIFRA and its implementing regulations.

26. During the inspection, EPA observed that the following substances were being distributed, sold, offered for sale, held for distribution, and/or held for sale at the Facility:

- a. Conrac Ready-To-Use Place Pacs Meal repackaged by Respondent into 1.5 oz net weight containers and placed into clear resealable bags (Conrac Pellet Rodenticide);
- b. Green colored rodenticide blocks, which Respondent's representative, Tim Wilson, told EPA inspectors were the same product as Conrac Pellet Rodenticide, but in block form, repackaged by Respondent into unlabeled clear resealable bags (Green Block Rodenticide);
- c. FINAL Ready-To-Use Place Pack Pellets repackaged by Respondent into 0.88 oz net weight containers and placed into clear resealable bags (FINAL Pellet Rodenticide);
- d. Red colored rodenticide blocks, which Mr. Wilson told EPA inspectors were the same product as FINAL Pellet Rodenticide, but in block form, repackaged by Respondent into unlabeled clear resealable bags, (Red Block Rodenticide);
- e. Talon G Bait Pack Mini-Pellets repackaged by Respondent into 0.88 oz net weight bags containers and placed into clear resealable bags (Talon G Pellet Rodenticide);
- f. Blue colored rodenticide blocks, which Mr. Wilson told EPA inspectors were the same product as Talon G Pellet Rodenticide, but in block form, repackaged by Respondent into unlabeled clear resealable bags (Blue Block Rodenticide);
- g. Brown colored rodenticide blocks, which Mr. Wilson told EPA inspectors were "Maki Mini Blocks" repackaged by Respondent into unlabeled clear resealable bags (Brown Block Rodenticide);
- h. Wilson's Pest Control Professional Growth Regulator, which Mr. Wilson told EPA inspectors was "Tekko Pro Insect Growth Regulator Concentrate" repackaged by Respondent into small white bottles (Professional Growth Regulator);
- i. Professional Pest Control Concentrate repackaged by Respondent into 16 oz and 32 oz bottles (Pest Control Concentrate). According to the registration number on the bottles, Pest Control Concentrate is a repackage of a product called "Tengard HG Termiticide/Insecticide"; and

- j. Wilson's Termite & Carpenter Ant Control repackaged by Respondent into 16 oz bottles (Termite & Ant Control). According to the registration number on the bottles, Termite & Ant Control is a repackage of a product called "Monterey Termite and Carpenter Ant Control."

27. All substances identified in Paragraph 26 above are intended for preventing, destroying, repelling, or mitigating pests and therefore each meets the definition of "pesticide" under Section 2(u) of FIFRA, 7 U.S.C. § 136(u).

28. All substances identified in Paragraph 26 above are intended for a pesticidal purpose and Respondent and its representatives claim, state, or imply that each substance can or should be used as a pesticide. Therefore, each substance meets the definition of "pesticide" under 40 C.F.R. § 152.15(a)(1).

29. By repackaging each pesticide identified in Paragraph 26 above into smaller quantities and different containers, Respondent "produced" these pesticides as that term is defined in 40 C.F.R. § 165.3.

30. By repackaging each pesticide identified in Paragraph 26 above into smaller quantities and different containers, Respondent is also a "producer" of these pesticides as that term is defined in 40 C.F.R. § 165.3.

31. Respondent has not obtained a registration for any of the pesticides identified in Paragraph 26 above.

32. During the inspection, Mr. Wilson admitted that Respondent did not have a written contract with any of the registrants to repackage, distribute, or sell of any of the pesticides identified in Paragraph 26 above.

33. Respondent has failed to meet all of the conditions in 40 C.F.R. § 165.70(b) for each pesticide identified in Paragraph 26 above, including but not limited to the following:

- a. Respondent has not entered into a written contract with the registrant for any pesticide identified in Paragraph 26 above to repackage the product and to use the registrant's label, as required by 40 C.F.R. § 165.70(b)(3); and
- b. Respondent failed to label each pesticide identified in Paragraph 26 above with the product's label with no changes.

47. At the time of the inspection, the label for the repackaged Talon G Pellet Rodenticide stated "INDIVIDUAL SALE PROHIBITED BY LAW" and was incomplete and missing elements required under Section 2(q) of FIFRA, 7 U.S.C. § 136(q) and 40 C.F.R.
