Re: Well Closure Time Extension
Docket No. 08-2010-0077

Dear Mr. Larson:

On October 19, 2010, Environmental Protection Agency (EPA) received a letter from The Road Guy Construction Company, Inc., describing the well closure plan associated with the complaint filed under the docket number listed above and requesting a 30 day extension for the well closure due to the seasonal workload of the company.

EPA approves the addition of a holding tank as the only inflow point for fluids entering the floor drain in the garage. EPA also approves the 30 day work extension. The well must be permanently close by December 14, 2010. Complete proof of the well closure must be submitted to EPA by January 14, 2010. Proof of well closure should include photographs of the closure process and emplacement of holding tank as well as information about the licensed waste hauler that will be used to dispose of liquid from the holding tank as needed.

Sincerely,

A handwritten signature in black ink, appearing to read "Sarah Roberts".
