ORDER ON MOTION FOR EXTENSION OF TIME

Accordingly, given that Respondent is appearing *pro se* and that the parties are settling this matter, a default order will not be issued at this time. Instead, Respondent will be granted an extension of time to file a prehearing exchange. Good cause exists for allowing an extension in that it is in the interest of the parties and judicial economy for the parties to settle this matter on mutually agreeable terms rather than litigate the matter to conclusion. In that a hearing in this case has not been scheduled, no prejudice will result from a brief delay. Accordingly, Respondent shall file its prehearing exchange on or before **September 12, 2008** if a fully executed Consent Agreement and Consent Order (CAFO) is not filed beforehand.
