General Comment

Permit Applicant/Facility Information
Marquis Carbon Injection, L.L.C., UIC Class VI Injection well
Putnam County, Illinois (IL-155-6A-0001)

Thank you for the opportunity to comment on the above referenced permit application. Specific comments are as follows.

Draft permit

4. Please sample quarterly instead of semi-annually.

6. Please conduct a seismic survey annually instead of every 5 years.

Emergency and Remedial Response Plan

How is danger to an underground source of drinking water (USDW) determined? What triggers action?

Financial responsibility

How was \$7M insurance for emergency response determined?

How was 12 years for post-injection site care (PISC) prior to well abandonment determined? Monitoring after well abandonment and insurance for emergency response should continue for at least 50 years after well abandonment and accommodate the potential for bankruptcy or other business approaches that may shield the company from financial responsibility.

Regards,
Sharon Waller, PhD PE
