CONSENT AGREEMENT AND FINAL ORDER

PRELIMINARY STATEMENT

The U.S. Environmental Protection Agency (EPA), Region 7 and New Life Properties, LLC, a limited liability company, have agreed to a settlement of this action before filing of a Complaint, and thus this action is simultaneously commenced and concluded pursuant to Rules 22.13(b) and 22.18(b)(2) of the Consolidated Rules of Practice Governing the Administrative Assessment of Civil Penalties, Issuance of Compliance or Corrective Action Orders, and the Renovation, Termination or Suspension of Permits (Consolidated Rules), 40 C.F.R. §§ 22.13(b) and 22.18(b)(2).

Section I

Jurisdiction

1. This proceeding is an administrative action for the assessment of civil penalties instituted pursuant to Section 16(a) of the Toxic Substances Control Act (TSCA), 15 U.S.C. § 2615(a).
2. This Consent Agreement and Final Order (CAFO) serves as notice that EPA has

reason to believe that New Life Properties, LLC, has violated Section 409 of TSCA, 15 U.S.C. § 2689, by failing to comply with the regulatory requirements of 40 C.F.R. Part 745, Subpart F, *Disclosure of Known Lead-Based Paint and/or Lead-Based Paint Hazards Upon Sale or Lease of Residential Property*, promulgated pursuant to Section 1018 of the Residential Lead-Based Paint Hazard Reduction Act of 1992, 42 U.S.C. § 4852d.

## Section II

### Parties

3. The Complainant, by delegation from the Administrator of EPA and the Regional Administrator, EPA, Region 7, is the Chief, Toxics and Pesticides Branch, EPA, Region 7.
4. The Respondent is New Life Properties, LLC, a limited liability company.

## Section III

### Statutory and Regulatory Background

5. Congress passed the Residential Lead-Based Paint Hazard Reduction Act of 1992 (the Act), 42 U.S.C. §§ 4851 to 4856, to address the need to control exposure to lead-based paint hazards. The Act amended TSCA by adding Sections 401 to 412, 15 U.S.C. §§ 2681 to 2692. Section 1018 of the Act required EPA and the Department of Housing and Urban Development (HUD) to jointly issue regulations requiring the disclosure of known lead-based paint and/or lead-based paint hazards by persons selling or leasing housing constructed before the phaseout of residential lead-based paint use in 1978. The regulations, issued March 6, 1996, and codified at 40 C.F.R. Part 745 Subpart F, require that sellers and lessors of most residential housing built before 1978: a) disclose the presence of known lead-based paint and/or lead-based paint hazards

in the target housing; b) provide purchasers and lessees with any available records or reports pertaining to the presence of lead-based paint and/or lead-based paint hazards; c) provide purchasers and lessees with a federally approved lead hazard information pamphlet; d) provide purchasers with a 10-day opportunity to conduct a risk assessment or inspection for the presence of lead-based paint and/or lead-based paint hazards before the purchaser is obligated under any purchase contract; and e) include certain disclosure and acknowledgment language in the sales or leasing contract. The failure or refusal to comply with the regulations is a violation of Section 1018 of the Act and Section 409 of TSCA.

8. In settlement of this matter, Respondent agrees to complete the following Supplemental Environmental Project (SEP), which the parties agree is intended to secure significant environmental and/or public health benefits: Respondent will perform a window replacement SEP, per EPA's Renovation, Repair, and Painting (RRP) Rule, to address potential lead-based paint hazards at Respondent's rental property. The window replacement SEP will reduce potential lead-based paint hazards in said property by replacing the property's original windows. The window replacement work will be performed at 215 N. 16<sup>th</sup> Street, Kansas City, Kansas, to include removal and replacement of 16 lead-based painted windows with lead free windows.
9. Within thirty (30) days of the effective date of the Final Order, Respondent will provide EPA with a copy of the letter sent to the Kansas Department of Health and Environment informing the state of Respondent's intent to perform a SEP and requesting procedural

information pertaining to performance of the SEP.

10. The total expenditure for the SEP shall be not less than \$4,473 and the SEP shall be completed no later than 120 days from the effective date of the final order. All work required to complete the SEP shall be performed in compliance with all federal, state, and local laws and regulations.

11. Respondent agrees that the window replacement work on the SEP project will be performed by entities licensed and/or certified by the State of Kansas to perform window replacement activities under the RRP Rule. Respondent is responsible for ensuring that the entity or entities performing the SEP project described in Paragraph 8 above receive a copy of this CAFO and all attachments pertaining to the SEP project including the EPA approved SEP Work Plan, if applicable. - (i) A copy of the RRP certification certificate for the renovator who performed the window replacement SEP;

I certify under penalty of law that I have examined and am familiar with the information submitted in this document and all attachments and that, based on my inquiry of those individuals immediately responsible for obtaining the information, the information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment.

The report shall be directed to the following:

As to EPA:

Cassandra Mance, Case Review Officer  
WWPD/TOPE  
U.S. Environmental Protection Agency  
Region 7  
901 North 5<sup>th</sup> Street  
Kansas City, Kansas 66101.

As to the State:

Thomas Langer  
Kansas Department of Health and Environment  
1000 SW Jackson Suite 330  
Topeka, KS 66612-1274

13. If the SEP referenced in Paragraph 8 above is not timely completed to the satisfaction of EPA in accordance with the terms of this Final Order, Respondent shall pay a stipulated penalty in the amount of 100% of the projected costs of the SEP minus any

documented expenditures determined by EPA to be acceptable for the SEP. This stipulated penalty is consistent with the EPA SEP Policy, effective May 1, 1998. For the SEP, the following instances constitute a failure to complete the project in accordance with the terms of this Final Order:

(i) Failure to expend the funds in a manner acceptable to EPA or otherwise to complete the project pursuant to the terms of this consent agreement.

(ii) Failure to ensure, through good faith and timely efforts, that the SEP project is completed by the anticipated completion date of within 120 days of the effective date of the Final Order. In the event of circumstances beyond its control rendering the anticipated completion date unfeasible, Respondent may demonstrate good faith by promptly notifying EPA Region 7 contact identified in Paragraph 12 above of the change in circumstances and proposing a new completion date acceptable to EPA for the SEP.

(iii) Any stipulated penalties for which Respondent is liable under this agreement shall be due and payable within ten (10) days of Respondent's receipt of a written demand from Complainant.

14. Respondent certifies that it is not required to perform or develop the SEP by any federal, state or local law or regulation; nor is Respondent required to perform or develop the SEP by agreement, grant or as injunctive relief in this or any other case or to comply with state or local requirements. Respondent further certifies that Respondent has not received, and is not presently negotiating to receive, credit in any other enforcement action for the SEP.

15. Respondent certifies that it is not a party to any open federal financial assistance transaction that is funding or could be used to fund the same activity as the SEP. Respondent further certifies that, to the best of its knowledge and belief after reasonable inquiry, there is no such open federal financial transaction that is funding or could be used to fund the same activity as the SEP, nor has the same activity been described in an unsuccessful federal financial assistance transaction proposal submitted to EPA within two years of the date of this CAFO (unless the project was barred from funding as statutorily ineligible). For the purposes of this certification, the term "open federal financial assistance transaction" refers to a grant, cooperative agreement, loan, federally-guaranteed loan guarantee or other mechanism for providing federal financial assistance whose performance period has not yet expired.

16. For federal income tax purposes, Respondent agrees that it will neither capitalize into inventory or basis nor deduct any costs or expenditures incurred in performing the SEP.

17. Any public statement, oral or written, in print, film or other media, made by Respondent making reference to the SEP shall include the following language: "This project was undertaken in connection with the settlement of an enforcement action taken by the United States Environmental Protection Agency."

18. Respondent understands that its failure to timely pay any portion of the civil penalty described in Paragraph 1 of the Final Order below or any portion of a stipulated penalty as stated in Paragraph 13 above may result in the commencement of a civil action in Federal District Court to recover the full remaining balance, along with penalties and accumulated interest. In such case, interest shall accrue thereon at the applicable statutory rate on the unpaid

balance until such civil or stipulated penalty and any accrued interest are paid in full. A late payment handling charge of \$15 will be imposed after thirty (30) days and an additional \$15 will be charge for each subsequent thirty (30) day period. Additionally, as provided by 31 U.S.C. § 3717(e)(2), a six percent (6%) per annum penalty (late charge) may be assessed on any amount not paid within ninety (90) days of the due date.
