Subject: NEIC correlation study samples - shipped

ERG shipped the NEIC correlation study samples to you today. The FedEx tracking number is 797869914924. It is not yet in the FedEx system because the package will be picked up a bit later this afternoon. I believe the package should arrive Wednesday or Thursday.

Each vial is individually wrapped in protective wrapping and marked with the last five digits of the VIN. The custody forms are all together in a folder, per the SOP. Please let me know if you have any questions when you receive the shipment.

SAMPLE ORIGIN AND RECORD LOG (Removed Parts)

I, Sam King of ERG hereby certify I removed the following item: Washcoat, from the vehicle or engine marked:

Entry No.: ES2-0212021-9 Date & Time Removed: 2/5/14 15:00

VIN: L9NTEACVDE1050041

From a: 2014 TroTro Magis 50
Year Make Model

With USEPA Engine Family: ETA0C.049MC2
Engine Family

I further certify on 2/5/14 I secured the described item and have sole access.

OFFICE OF CRIMINAL ENFORCEMENT, FORENSICS AND TRAINING
NATIONAL ENFORCEMENT INVESTIGATIONS CENTER
P.O. BOX 25227, DENVER FEDERAL CENTER
DENVER, COLORADO 80225

July 24th, 2014

MEMORANDUM

SUBJECT: PANalytical Epsilon 5 Analytical Results for 26 Loose Powder Samples
Catalytic Converters Correlation Study
NEIC Project Number: SP0320

FROM: Benjamin Burns *Ben Burns*
Chemist, NEIC

THRU: K. Eric Nottingham *K. Eric Nottingham*
Special Program Coordinator, NEIC

TO: Amelie Isin
EPA/OECA/Air Enforcement Division (AED)

The EPA National Enforcement Investigations Center (NEIC) has performed X-ray fluorescence (XRF) analysis on 26 loose powder washcoat samples using a PANalytical Epsilon 5 energy dispersive X-ray fluorescence (EDXRF) spectrometer. NEIC analyzed all of these samples using multiple calibration curves generated using values from the original wavelength-dispersive (WDXRF) pressed pellet analysis, three certified standard reference materials (SRM), and averaged values using both EDXRF and WDXRF pressed pellet analysis.

The results of the loose powder analysis from the calibration using the averaged values of the energy-dispersive and wavelength-dispersive pressed pellets analysis are reported in this memo, in **Table 1**. The other two calibrations, using values from the wavelength-dispersive pressed pellets and the SRM loose powder values, are included in the associated data package for SP0320.

Batch quality control was performed during this analysis, including replicate preparation and replicate analysis. The loose powder samples were prepared as similarly as possible to the preparation used by Eastern Research Group, Inc. (ERG), for example: using the same loose powder cups, plastic film, and depth of material. The associated uncertainty for each reported element was calculated from replicate sample preparations and replicate instrument analysis and is reported as +/-15% of the recovered values for platinum, palladium, and rhodium. Laboratory measurements described in this memo are within the scope of NEIC's ISO/IEC 17025 accreditation issued by ANSI-ASQ National Accreditation Board FQS (Certificate # AT-1646).

Re: Notice of Violation – AED/MSEB #8065

Dear Matao Cao and Yuejin Cao:

The United States Environmental Protection Agency (EPA) has been investigating Taotao USA, Inc., Jinyun County Xiangyuan Industry Co., Ltd., and Taotao Group Co., Ltd. (collectively Taotao), for compliance with Title II of the Clean Air Act (Act) and the highway motorcycle and recreational vehicle regulations promulgated at 40 C.F.R. Parts 86, 1051, and 1068.

Summary

EPA has determined that approximately 64,377 vehicles were imported or caused to be imported by Taotao in violation of the Act after review of importation documents and inspection results.

Under § 205(a) of the Act, 42 U.S.C. § 7524(a), each vehicle or engine imported, offered for sale, distributed in commerce, or sold in violation of § 203(a)(1) of the Act, 42 U.S.C. § 7522(a)(1), is a separate violation of the Act. *See also* 40 C.F.R. Part 86, Subpart E (highway motorcycles), 40 C.F.R. § 1068.101(a)(1) (recreational vehicles). Taotao is liable for these violations under § 203(a)(1) of the Act, 42 U.S.C. § 7522(a)(1), and is subject to a penalty of up to \$37,500 per violation for each day of violation.

Certification Violations

Section 203(a)(1) prohibits manufacturers and importers of new motor vehicles from selling, offering for sale, or introducing or delivering for introduction into commerce (or causing any of the foregoing) any new motor vehicle or new motor vehicle engine unless the vehicle or engine is covered by a “certificate of conformity” (COC) issued by EPA under regulations prescribed by the Act governing engine and vehicle emission standards. Section 203(a)(1) also prohibits the importation into the United States of any new motor vehicle or new motor vehicle engine after the effective date of regulations applicable to such vehicles or engines, unless the vehicle or engine is covered by a COC issued by EPA. *See, e.g.* 40 C.F.R. § 86.407-78. Section 213(d) of the Act, 42 U.S.C. § 7547(d) and the recreational vehicle regulations at 40 C.F.R. Parts 1051 and 1068 extend the prohibition in § 203(a)(1) to the sale or importation of any nonroad vehicle or engine, such as the recreational vehicles at issue here, unless the engine or vehicle is covered by a COC. 40 C.F.R. § 1068.101(a)(1), (b)(5).

The requirement for a COC became applicable to new recreational vehicles beginning with the 2006 model year, 40 C.F.R. § 1051.1(c), new highway motorcycles (HMCs) with engines larger than 50 cubic centimeters (“cc”) beginning with the 1978 model year, 40 C.F.R. § 86.401-97, and new highway motorcycles, regardless of engine size, beginning with the 2006 model year. 40 C.F.R. § 86.401-2006. For these vehicles and engines, EPA’s issuance of a COC permits the production and introduction into commerce of engines built in accordance with the manufacturer’s application after the effective date of the certificate and before December 31st of the covered model year. 40 C.F.R. §§ 86.437-78(a)(2)(ii) (highway motorcycles), 1051.201(a), 1068.103(a)-(c) (recreational vehicles).

The COC applies only to engines and vehicle models which conform in all material respects to the specifications in the certificate application. 40 C.F.R. §§ 85.2305(a)(1), 86.407-78(a) (highway motorcycles), 1068.101(a)(1)(i), 1068.103(a) (recreational vehicles). The application must include, among other things, an identification of the engine family, a description of the vehicles and their emission control system, and test results from a prototype emissions data vehicle. 40 C.F.R. §§ 86.416-80(a)(2) (highway motorcycles), 1051.205 (recreational vehicles).

EPA has conducted multiple inspections of highway motorcycles and recreational vehicles manufactured by Taotao Group Co., Ltd. or Jinyun County Xiangyuan Industry Co., Ltd. and imported by Taotao USA, Inc. These included inspections at the Los Angeles/Long Beach Seaport in March 2012 and June 2013. In addition, EPA inspected Taotao’s Dallas warehouse in November 2013. Based on these inspections, and based on the importation information submitted in Taotao’s second and third annual progress reports and subsequent inventory information provided in November 2013, EPA has determined that Taotao USA, Inc., is liable

for violations of Section 203(a) of the Act, 42 U.S.C. § 7522(a), related to the importation of approximately 64,377 uncertified vehicles, and Taotao Group Co., Ltd. and Jinyun County Xiangyuan Industry Co., Ltd., as the manufacturers of these vehicles, are liable for causing the foregoing.

As set forth in Table A, approximately 64,377 vehicles do not conform in all material respects to the specifications in the COC application and are uncertified because the required catalyst active material is either missing or not present in the quantity or concentration described in the relevant COC application. Because the catalytic converter system does not conform to the design specifications described in the relevant application for the COC, and because the vehicles, while in different entries, are presumed to have been manufactured in the same way because they are claimed to be in the same engine family, EPA concludes that all of them are uncertified. 40 C.F.R. §§ 85.2305(a)(1), 86.407-78(a) (highway motorcycles), 1068.101(a)(1)(i), 1068.103(a) (recreational vehicles). Because Taotao imported or caused the importation of these uncertified vehicles, it is liable for these violations under § 203(a)(1) and the regulations at 40 C.F.R. § 1068.101(a)(1), (b)(5).

Enforcement

EPA's June 18 and August 1, 2013 letters to Taotao most recently described our continuing concerns with Taotao's ability to honor its obligations under the Vehicle and Engine Compliance Plan (VECP), Attachment C to the Administrative Settlement Agreement (ASA) between the EPA and Taotao, effective June 28, 2010. We consider the violations described in this letter even more egregious because Taotao should have identified these nonconformities through implementation of the VECP.

Please be advised that we reserve the right to file an administrative complaint or to refer this matter to the United States Department of Justice with a recommendation that a civil complaint be filed in federal district court.

Please contact the EPA attorney identified below within 10 business days of the date of the letter regarding this Notice of Violation.

Subject: Re: Taotao - Notice of Violation

Dear Amelie, Chris and Philip,

Happy holidays.

I am currently in China right now but will try get back to the States asap.

We found the catalyst material ratio problem last year and admitted it when we had a face-to-face meeting in DC with Amelie and Chris. We never ever try to hide the problem. Since there is no EPA-certified lab in China can do the catalyst inspection, we spent \$8000 to have a professional Canadian lab to inspect our mufflers last year. The results is a mixture of different ratios. EPA has the final inspection report.

What we could confidently say is the emission result of each unit of our products is 100% compliance with EPA standard. We have our own emission inspection in the factory and also have lab in US to fulfill annual inspection on our units.

Since running change on the catalyst material ratio is not accepted by EPA, so we started re-do our EPA certs last year to make it accurate. For example, the new EPA cert for engine family DTAOC.049MC2 (23638 units involved) and

ETAOC.049MC2 (108 units involved) shows the catalyst material ratio is 1:7:0, not the outdated ratio 5:5:1 any more.

Also, may I know what time will be convenient for us to have a meeting together?

Thank you for your time.

Jackie Wang

Request for Information under Section 208(a) of the Clean Air Act, 42 U.S.C. § 7542(a)

The United States Environmental Protection Agency (EPA) hereby requires Taotao USA, Inc., Jinyun County Xiangyuan Industry Co., Ltd., and Taotao Group Co., Ltd., and its affiliates (as defined in Appendix D) (collectively, Taotao or you) to submit certain information as part of an EPA investigation to determine Taotao's compliance with sections 203 and 213 of the Clean Air Act (Act), 42 U.S.C. §§ 7522 and 7547, and the regulations at 40 C.F.R. Parts 86, 1051, and 1068. Appendix B specifies the information that you must submit, Appendix C provides instructions for your response to this Request for Information, and Appendix D provides definitions.

EPA issues this Request for Information under section 208(a) of the Act, 42 U.S.C. § 7542(a). Under Section 208(a), EPA may require any person who is subject to the motor vehicle emission and fuel requirements of the Act, 42 U.S.C. §§ 7521 - 7554, to perform tests and provide information necessary to determine whether the person has acted in compliance with these requirements and the regulations promulgated thereunder. Unless otherwise provided herein, you must send two copies of your response to this Request for Information within 30 calendar days of the date of receipt of this letter.

Failure to provide the required information may result in the initiation of a civil action under section 205(b) of the Act, 42 U.S.C. § 7524(b). Failure to respond or provide a complete response to this Request for Information may subject you to a civil penalty of up to \$37,500 per day. Taotao must submit all requested information under an authorized signature with the following certification:

I certify under penalty of law that I have examined and am familiar with the information in the enclosed documents, including all attachments. Based on my inquiry of those individuals with primary responsibility for obtaining the information, I certify that the statements and information are, to the best of my knowledge and belief, true and complete. I am aware that there are significant penalties for knowingly submitting false or incomplete statements and information, including the possibility of fines or imprisonment pursuant to section 113(c)(2) of the Act, 42 U.S.C. § 7413(c)(2), and 18 U.S.C. §§ 1001 and 1341.

EPA may use any information submitted in response to this Request for Information in an administrative, civil, or criminal action.

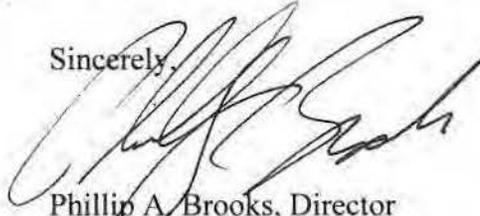

You are entitled to assert a business confidentiality claim covering all or part of the information you submit in response to this Request for Information, in accordance with the procedures described in the Confidentiality of Business Information (CBI) regulations, 40 C.F.R. Part 2, Subpart B. No such CBI claim, however, may be made with respect to emissions data as defined at 40 C.F.R. § 2.301(a)(2). EPA may, without further notice, provide the public with any information not subject to a CBI claim. You must specify the page, paragraph, and sentence when identifying the information subject to your claim. Appendix A specifies the assertion and substantiation requirements for business confidentiality claims.

Submit all requested information via overnight mail or courier service to the following address:

Amelie Isin
Air Enforcement Division
EPA Office of Civil Enforcement
William Jefferson Clinton South Building - Room 1117B
1200 Pennsylvania Ave., NW
Washington, DC 20460

Any questions concerning this Request for Information should be directed to Amelie Isin at (202) 564-0842 or isin.amelie@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Phillip A. Brooks". The signature is fluid and cursive, with a large initial "P" and "B".

Phillip A. Brooks, Director
Air Enforcement Division

Enclosures

Appendix A
Confidential Business Information

You may assert a business confidentiality claim covering all or part of the information you provide in response to this Request for Information for any business information entitled to confidential treatment under section 208(c) of the Act, 42 U.S.C. § 7542, and 40 C.F.R. Part 2, Subpart B. Under § 208(c), you are entitled to confidential treatment of information that would divulge methods or processes entitled to protection as trade secrets. Under 40 C.F.R. Part 2, Subpart B, business confidentiality means “the concept of trade secrecy and other related legal concepts which give (or may give) a business the right to preserve the confidentiality of business information and to limit its use or disclosure by others in order that the business may obtain or retain business advantages it derives from its rights in the information.” 40 C.F.R. § 2.201(e).

Information covered by a claim of business confidentiality will be disclosed by EPA only to the extent, and by means of the procedures, set forth in § 208(c) and 40 C.F.R. Part 2, Subpart B. EPA will construe your failure to furnish a business confidentiality claim with your response to this Request for Information as a waiver of that claim, and the information may be made available to the public without further notice to you.

To assert a business confidentiality claim, you must place on (or attach to) all information you desire to assert as business confidential either a cover sheet, stamped or typed legend, or other suitable form of notice employing language such as “trade secret,” “proprietary,” or “company confidential” at the time you submit your response to this Request for Information. Allegedly confidential portions of otherwise non-confidential documents should be clearly identified, and may be submitted separately to facilitate identification and handling by EPA. You should indicate if you desire confidential treatment only until a certain date or until the occurrence of a certain event.

The criteria EPA will use in determining whether material you claim as business confidential is entitled to confidential treatment is set forth at 40 C.F.R. §§ 2.208 and 2.301. These regulations provide, among other things, that you must satisfactorily show that: (1) the information is within the scope of business confidentiality as defined at 40 C.F.R. § 2.201(e); (2) you have taken reasonable measures to protect the confidentiality of the information and that you intend to continue to do so; (3) the information is not and has not been reasonably obtainable by legitimate means without your consent; and (4) the disclosure of the information is likely to cause substantial harm to your business’ competitive edge. 40 C.F.R. § 2.208 (a)-(d). Emission data, as defined at 40 C.F.R. § 2.301(a)(2), is expressly not entitled to confidential treatment under 40 C.F.R. Part 2, Subpart B. 42 U.S.C. § 7542(c); 40 C.F.R. § 2.301(e).

If you assert a claim of business confidentiality in connection with information and documents forwarded in response to this Request for Information, in accordance with 40 C.F.R. § 2.204(e)(4), EPA requests that you answer the following questions with respect to any information or document for which you assert a claim of business confidentiality:

1. What specific portions of the information are alleged to be entitled to confidential treatment? Specify by page, paragraph, and sentence when identifying the information

subject to your claim.

2. For what period of time do you request that the information be maintained as confidential, e.g., until a certain date, until the occurrence of a specified event or permanently? If the occurrence of a specific event will eliminate the need for confidentiality, specify that event. Additionally, explain why the information should be protected for the time period you specified.
3. What measures have you taken to protect the information claimed as confidential from undesired disclosure? Have you disclosed the information to anyone other than a governmental body or someone who is bound by an agreement not to disclose the information further? If so, why should the information still be considered confidential?
4. Is the information contained in any publicly available material such as the Internet, publicly available databases, promotional publications, annual reports, or articles? Are there means by which a member of the public could obtain access to the information? Is the information of a kind that you would customarily not release to the public?
5. Has any governmental body made a determination as to the confidentiality of the information? If so, attach a copy of the determination.
6. For each category of information claimed as confidential, explain with specificity whether disclosure of the information is likely to result in substantial harm to your competitive position. Explain the specific nature of those harmful effects, why they should be viewed as substantial, and the causal relationship between disclosure and such harmful effect. How could your competitors make use of this information to your detriment?
7. Is there any other explanation you deem relevant to EPA's determination of your business confidentiality claim that is not covered in the preceding questions? If so, you may provide such additional explanation.

You must furnish responses to the above questions concurrent with your response to this Request for Information if you have claimed any information as business confidential. *See* 40 C.F.R. § 2.204(e)(2). Under 40 C.F.R. § 2.205(b)(2), you may request an extension of this deadline. EPA will construe your failure to furnish timely responses as a waiver of your confidentiality claim, consistent with 40 C.F.R. § 2.204(e)(1). Submit your responses to:

Amelie Isin
Air Enforcement Division
EPA Office of Civil Enforcement
William Jefferson Clinton South Building - Room 1117B
1200 Pennsylvania Ave., NW
Washington, DC 20460

Under 40 C.F.R. § 2.205(c), you are hereby advised that information you submit as part of your responses may be regarded by EPA as entitled to confidential treatment if, when it is received by EPA, it is marked in accordance with 40 C.F.R. § 2.203(b). As required by 40 C.F.R. § 2.204(e)(6), you may assert a business confidentiality claim covering all or part of your response to these questions, as provided in 40 C.F.R. § 2.203(b). Information covered by such a claim will be disclosed by EPA only to the extent and by means of the procedures set forth in Section 208(c), 42 U.S.C. § 7542(c), and 40 C.F.R. Part 2. EPA will construe the failure to furnish a confidentiality claim with your comments as a waiver of that claim, and the information may be made available to the public without further notice to you.

Appendix B
Request for Information

1. For each entry containing vehicles manufactured, imported, or sold in the United States by Taotao since January 1, 2012, provide, organized by engine family and entry number:
 - a. The EPA Forms 3520-1 and 3520-21 for each importation;
 - b. The Customs entry form 3461 for each importation;
 - c. The invoice and shipping documents for each importation;
 - d. The name and address of the company that manufactured the vehicle;
 - e. The name and address of any Customs broker used for importation;
 - f. The name, address and/or contact information of the Importer of Record; and
 - g. The VIN list for each importation.
2. If the on-road and off-road vehicle identified in request number 1 were exported, provide supporting documentation to that effect.
3. Taotao must submit to EPA a detailed written test plan for the testing and inspection of three representative and randomly selected vehicles from each of the following engine families: ETAOC.049MC2, ETAOX0.12A1T, DTAOC.150MC2, DTAOX0.15G2T, DTAOX.124AAA, DTAOC.049MC2, DTAOX0.12A1T, and CTAOC.049MC1. This Plan, at a minimum, must:
 - a. Identify one or more independent laboratories located in the United States that Taotao has contacted and that has agreed to conduct the testing on the schedule defined below.
 - b. Certify that each of the test vehicles have not been modified in any way since its importation or, if any modification or adjustment has been made, specify the nature of such modification or adjustment.
 - c. Specify that each test vehicle shall be subject to emissions testing in conformity with the specifications set forth in 40 C.F.R. Part 1051 (in the case of recreational vehicles) or 40 C.F.R. Part 86, Subparts E and F (in the case of highway motorcycles) to determine the levels of regulated exhaust emissions. The test plan shall include, at a minimum, a detailed description of: the equipment that will be used to conduct the emissions test and collect emissions test data; the procedures that will be used to prepare vehicles for testing, including the procedure to determine when emissions are stabilized; and the procedures that will be used to record and report the conduct of the emissions

testing and the emissions test results.

- c. Specify that each test vehicle will be inspected by the independent laboratory for the presence of each of the emission control devices listed on the emissions label.
 - d. Specify that each test vehicle will be subject to catalytic converter testing and inspection to determine the type and amount of precious metals present (in grams/liter), as well as the cell density (in cells per square inch), and overall dimensions of the catalyst substrate. The test plan must include, at a minimum, a detailed description of: the test instrument and method to be used to conduct the catalytic converter testing, the test instrument operating parameters, and the procedures that will be used to record and report the conduct of the testing and the test results. A copy of the test method identified for measuring catalytic converter precious metal loading must be submitted to, and approved by, EPA prior to conducting any catalytic converter precious metal testing.
 - e. Specify that information establishing the identification of each vehicle that is the subject of testing and inspection will be collected and reported to EPA. This information must include, at a minimum: the vehicle identification number, pictures of the vehicle and/or catalyst, and pictures of any emission control label present on the vehicle.
 - f. Specify that EPA will be given written notice at least seven business days before any testing is conducted under the test plan, and provided with the location and general description and schedule of the preparation and testing, and given access to observe any testing and inspect the vehicles.
 - g. Specify that Taotao and the testing laboratory will document all transfers of custody sufficient to maintain an unbroken chain of custody for each test vehicle and catalyst sample.
4. Following receipt of Taotao's written test plan, EPA will either approve the plan as submitted, or conditionally approve the plan, requiring specified changes thereto. Upon EPA's approval of the submitted test plan, Taotao shall contract with the identified and approved testing laboratory to perform the specified testing and inspections and transport the test vehicles to the laboratory.
 5. No later than 60 days after EPA's approval of Taotao's written test plan, Taotao must ensure that the independent laboratory submits to EPA a report that describes the conduct of the testing and inspections and contains the results of all tests and inspections. The test vehicles and catalyst samples must be retained by the independent laboratory until EPA agrees they may be released, at which time they may be returned to Taotao for disposition in a manner approved by EPA.
 6. Provide a narrative description and any documents describing any inspections, compliance assurance processes or procedures you use to ensure that any vehicles or engines introduced into U.S. commerce comply with the Act.

7. Provide the name, address, and any other relevant contact information for each manufacturer, service provider, retailer, importer, and distributor of any vehicle identified in response to request number 1. Also provide a copy of each vendor agreement, warranty agreement, service contract, indemnification agreement, and contract between Taotao and each such company.
8. Provide a copy of Taotao's, and any affiliated organization's, certificate of good standing, articles of incorporation, by-laws, and partnership or membership agreements, as applicable. Provide a list of Taotao's officers, directors, and shareholders.
9. Describe the business relationships with and between Taotao USA, Inc., Jinyun County Xiangyuan Industry Co., Ltd., and Taotao Group Co., Ltd., and any affiliated organization. Provide copies of all agreements among these entities and any other affiliated organization. Include a description of both formal and informal agreements, financial inter-relationships, overlap of officers and directors, and any business practices that exist among Taotao affiliated entities.
10. Identify each person responsible for responding to this Request for Information, including their title, and the request(s) to which they responded.

Appendix C
Instructions for Responses

1. This Request for Information is a continuing request. Taotao must promptly supplement its response in the event that it learns that it possesses responsive documents, information or equipment not yet produced, or gains possession, custody or control of responsive documents, information, or equipment after initially responding to these requests.
2. Under section 208(a) of the Act, 42 U.S.C. § 7542(a), Taotao is required to provide full and complete answers to each of the specific questions set forth in the Request for Information, and to indicate which documents are responsive to each specific Request for Information. If a particular question is inapplicable, Taotao must state this in its response and provide a narrative explanation as to why it believes the question does not apply. If Taotao does not have documents responsive to any specific Request for Information, Taotao must so indicate in its response. Taotao must also certify that the responses are true and complete using the specific language set forth in the Request for Information.
3. Provide any narrative responses to all requests, above, in English, in written document form. Submit any data or information in written form, and in electronic form, using Microsoft Excel or equivalent spreadsheet software.
4. For each answer and document produced, provide the number of the question to which it responds and identify each person who provided information that was used to prepare that answer.
5. Where documents or information necessary for a response is not in your possession, custody, or control, indicate in your response why such documents or information is not available or in your possession, custody, or control, and identify any source that either possesses or is likely to possess such information.
6. All submitted documents should be copies and not original documents.
7. Where Taotao has previously submitted to EPA information requested herein, identify the material that was previously provided, the date on which it was provided, and the person at EPA to whom it was submitted.

Appendix D Definitions

All terms used in this Request for Information have their ordinary meaning unless otherwise defined herein, in the Act, 42 U.S.C. § 7401 – 7671q, or in the regulations promulgated thereunder.

1. “Affiliate” or “affiliated” means any entity that, directly or indirectly or through one or more intermediaries, owns or controls, is owned or controlled by, or is under common ownership or control with the entity named in the sentence where “affiliate” or “affiliated” is used (other than entities serving solely as customs brokers). For the purposes of this Request for Information, this definition includes any person that is related to or a relative of, by blood or marriage, any officer, member, partner, or employee of Taotao who is involved in the importation of any vehicle or engine into the U.S. or who is involved in the manufacturing of vehicles and engines in the People’s Republic of China. For example, if a spouse of an officer, member, partner or employee of Taotao is involved in the importation of any vehicle or engine into the U.S., provide the name and contact information of that person and the entity that person is associated with.
2. The term “certificate of conformity” refers to the certificate issued by EPA under section 206 of the Act, 42 U.S.C. § 7525.
3. “Document” or “document” means any object that records, stores, or presents information, and includes writings, memoranda, records, emails, text messages or information of any kind, formal or informal, whether wholly or partially handwritten or typed, draft or final, whether in computer format, memory, or storage device, or in hardcopy, including any form or format of these. If stored in electronic form, each document must be provided in translation to a form useable and readable by EPA, with all necessary documentation and support. All documents in hard copy also must include any attachments to or enclosures with any document.
4. “Taotao,” “you,” and “your” includes Taotao USA, Inc., Jinyun County Xiangyuan Industry Co., Ltd., and Taotao Group Co., Ltd., and any affiliates, predecessors, successors, and assigns. This definition includes any business entity employing, or formed or managed by Matao Cao and Yuejin Cao, for the purpose of importing, marketing or distributing any vehicle or engine.
5. The term “person” or “entity” means any human, corporation, partnership, limited liability company, sole proprietorship, joint venture, or any formal or informal entity, organization, or association.
6. The term “Importer of Record” refers to the company name on the U.S. Department of Homeland Security’s Bureau of Customs and Border Protection Entry Form (Customs Form 3461).

Reply to Appendix B Page 2 Section 6

We at TaoTao do a random check of new containers that come from China. The inspections include compliance verification program , vehicle inspection checklist, verification of all documentation such as owner's manual, vehicle PDI checklist. All warning labels are verified to match the correct vehicle and all emissions plats are cheeked too . All emissions components are visually cheeked for matching EPA and CARB certification .Vehicle is photographed and kept for record. We will assemble and run vehicle periodically. When we assemble and run vehicles we cheek for manufacture defects ,component quality , quality of assembly at the manufacture and emissions with gas analyzer at our warehouse. All this Inspections are reported to china and kept for internal quality control.

DEALER AGREEMENT

1. **Parties to Agreement**
This agreement is made by and between Taotao USA Inc., Dallas, Texas, hereinafter called "DISTRIBUTOR" and Graham Towing + Rental hereinafter called "DEALER".
2. **Duration of Agreement**
This agreement shall be in effect from the date of execution by DISTRIBUTOR and extend to twelve (12) months from the date of execution. No act by either party to this agreement shall be construed as an extension or renewal of this agreement, except renewals or extensions in writing and signed by both parties.
3. **Date of Execution of Agreement**
The date of execution of this agreement shall be the date upon which the DEALER cumulatively orders up to _____ of the DISTRIBUTOR'S product line within a period of 30 days from the date this agreement is signed. Failure to cumulatively order the preceding amount within the period stated above will result in annulment of this agreement.
4. **Granting of Dealer**
DISTRIBUTOR hereby grant to the DEALER during the continuance of this agreement conditioned in term three (3) above the exclusive privilege of purchasing units for DEALER'S own account only for resale to customers either at DEALER'S sole primary area and at DEALER'S own responsibility (see term five {5} below). No obligations exist on the part of the DISTRIBUTOR to sell any other product, motorcycles and/or any other brand products, to DEALER.
5. **Product and Area of Primary Responsibility**
DISTRIBUTOR and DEALER agree that the DEALER'S area of primary responsibility for the sale and service of DISTRIBUTOR'S products shall be _____ miles radius of DEALER'S business location. The products provided by the DISTRIBUTOR are _____

6. Dealer's Business Facilities

DEALER agrees to provide qualified staff and equipment as well as to maintain a salesroom that will provide a first-class display for the product and a full service facility for the insurance of adequate service to retail customers. The physical address where the line of products will be sold is:

420 EAST Liberty ST
Sumter SC 29156

7. Minimum Purchase Agreement

DEALER agrees to diligently market DISTRIBUTOR's products. Total monthly purchases of DISTRIBUTOR's products shall not be less than _____ at wholesale price.

8. Service & Parts

DEALER agrees to organize and maintain a complete parts department, including a qualified parts manager. DEALER also agrees to keep an accurate inventory as well as an assortment of parts.

9. Compliance with Safety and Regulatory Requirements

DEALER agrees to comply with and operate consistently with all applicable provisions of the National Traffic and Motor Vehicle Safety Act of 1996 and the Federal Clean Air Act, as amended as well as The ATV Safety Act of 2008 and all provisions of said act. This includes applicable rules and regulations issued from time to time thereunder, and all other applicable federal, state, and local product safety, regulatory, and emission control requirements.

10. Dealer Safety Obligations

DEALER agrees to place and display safety notices, warnings and proper user information labels on the product. DISTRIBUTOR retains the right through written notification to amend the "Dealer Safety Obligations" specified in this paragraph and to add other distributor/dealer's safety obligations as may be necessary or advisable.

DEALER AGREEMENT

1. **Parties to Agreement**

This agreement is made by and between TaoTao USA Inc., Dallas, Texas, hereinafter called "DISTRIBUTOR" and NISURA SPORTS AND CYCLE Hereinafter called "DEALER".

2. **Duration of Agreement**

This agreement shall be in effect from the date of execution by DISTRIBUTOR and extend to twelve (12) months from the date of execution. No act by either party to this agreement shall be construed as an extension or renewal of this agreement, except renewals or extensions in writing and signed by both parties.

3. **Date of Execution of Agreement**

The date of execution of this agreement shall be the date upon which the DEALER cumulatively orders up to N/A of the DISTRIBUTOR'S product line within a period of 30 days from the date this agreement is signed. Failure to cumulatively order the preceding amount within the period stated above will result in annulment of this agreement.

4. **Granting of Dealer**

DISTRIBUTOR hereby grant to the DEALER during the continuance of this agreement conditioned in term three (3) above the exclusive privilege of purchasing units for DEALER'S own account only for resale to customers either at DEALER'S sole primary area and at DEALER'S own responsibility (see term five (5) below). No obligations exist on the part of the DISTRIBUTOR to sell any other product, motorcycles and/or any other brand products, to DEALER.

5. **Product and Area of Primary Responsibility**

DISTRIBUTOR and DEALER agree that the DEALER'S area of primary responsibility for the sale and service of DISTRIBUTOR'S products shall be 50 miles radius of DEALER'S business location. The products provided by the DISTRIBUTOR are

ALL PRODUCTS OFFERED BY DISTRIBUTOR

6. Dealer's Business Facilities

DEALER agrees to provide qualified staff and equipment as well as to maintain a salesroom that will provide a first-class display for the product and a full service facility for the insurance of adequate service to retail customers. The physical address where the line of products will be sold is:

NASHUA SPORTS AND CYCLE
107 DANIEL WEBSTER HIGHWAY
NASHUA, NH 03060

7. Minimum Purchase Agreement

DEALER agrees to diligently market DISTRIBUTOR's products. Total monthly purchases of DISTRIBUTOR's products shall not be less than 15,000 at wholesale price.

8. Service & Parts

DEALER agrees to organize and maintain a complete parts department, including a qualified parts manager. DEALER also agrees to keep an accurate inventory as well as an assortment of parts.

9. Compliance with Safety and Regulatory Requirements

DEALER agrees to comply with and operate consistently with all applicable provisions of the National Traffic and Motor Vehicle Safety Act of 1996 and the Federal Clean Air Act, as amended as well as the ATV Safety Act of 2008 and all provisions of said act. This includes applicable rules and regulations issued from time to time there under, and all other applicable federal, state, and local product safety, regulatory, and emission control requirements.

10. Dealer Safety Obligations

DEALER agrees to place and display safety notices, warnings and proper user information labels on the product. DISTRIBUTOR retains the right through written notification to amend the "Dealer Safety Obligations" specified in this paragraph and to add other distributor/dealer's safety obligations as may be necessary or advisable.

二、质量要求、技术标准、对质量负责的条件和期限：1、该零部件与整车装配后，应符合美国 EPA 排放要求。

1、发动机的性能、尺寸与供方提供样品保持一致。

正常行驶 3000KM 以上。按需方图纸、《零部件检查基准书》或技术协议、质量协议要求，

质量“三包”；乙方对甲方所提供的图纸、设计方案、质量要求、产品价格及其需求产品的数量和本合同的相关内容有保密义务，不得向第三方提供和泄露，并签约《质量协议》，此协议随本合同一起生效；

三、交（提）货地点、方式：乙方在收到甲方定单后，应按甲方要求的质量、数量、品种进行生产，并在甲方要求的期限内将产品送达甲方；

四、运输方式及到达站港和费用负担：乙方所供产品，由乙方负责运输送达甲方仓库，费用由乙方负担；

五、合理损耗及计算方法：需要时，另立协议；

六、包装标准、包装物的供应与回收和费用负担：除另有协议外；采用纸箱包装，费用由供货方负担，包装物不回收；

七、验收标准、方法及提出异议期限：入库检验按涛涛集团有限公司《零部件检查基准书》有关程序办理；甲方应及时完成进货检验，质量问题应与七日内反馈给乙方；

八、结算方式及期限：验收合格入库，按实际用量结算；

九、如需提供担保，另立合同担保书，作为本合同附件；

十、违约责任：违约方承担责任；

十一、解决合同纠纷的方式：双方协商，协商未果，由需方所在地人民法院经济庭仲裁；

十二、其他约定事项：产品具体送货时间、数量以涛涛集团有限公司《采购订单》为准；

十三、本合同签字盖章后生效，履行期内双方均不得随意变更或解除合同，合同未尽事宜，须双方共同协商，做出补充规定。本合同一式两份，双方各执一份。

十四、有效期限：本协议有效期限止于重新签订采购合同或双方配套关系终止时。

Subject: RE: About catalyst testing

Jackie,

Please see my responses IN RED CAPS to your message below. Also, we are awaiting a response to Robert Klepp's March 11 message to find out who will represent Taotao Group Co., Ltd. and Jinyun County Xiangyuan Industry Co., Ltd. We need a response on this question before we can confirm our availability for the in-person meeting. Please let us know as soon as possible.

Regarding the test plan you submitted on 3/9/14, we need much more detail on the catalyst testing. Please have SGS submit a test plan to EPA on your behalf to comply with Request #3(d) of Appendix B of EPA's 2/6/14 letter. In addition, we need you to address Request #3(b) of Appendix B of EPA's 2/6/14 letter in your test plan. Lastly, your test plan should reference emission testing in conformance with the procedures specified in 40 CFR 1051.501(b) for recreational vehicles and 40 CFR 86.427-78 for highway motorcycles. Please have CEE and Olsen review your test plan to ensure its accuracy before you re-submit it to EPA for approval.

Thanks,
Amelie

Jackie,

A couple quick questions based on my preliminary review of your test plan:

confused – your test plan (Section 2) says that the lab will randomly select the samples for testing. Do you still
me to look at these VIN lists?

Sorry for the confusion. Because at the beginning we were planning to have the labs to randomly pick the samples. And then last week (2/27) you said in email if we provide some random VINs then you could pick the samples, so we randomly took a lot of photos of our units showing the VINs and shared a link for those files including all the photos. We also sent you a CD that contains all the VINs for you to choose from since Robert has problem to download those files. Did you receive the CD today?

I RECEIVED THE CD, AND HERE ARE THE SAMPLES:

ETAOC.049MC2: L9NTEACT7E1000882, L9NTEACT9E1000849, L9NTEACT2E1003902

ETAOX0.12A1T: L5NAAHTJ3E1037815, L5NAAHTJ8E1037762, L5NAAFTBXE1041955

DTAOC.150MC2: L9NTELKA1D1050106, L9NTELKE3D1250004, L9NTELKEXD1250050

DTAOX.124XXX (please confirm you mean DTAOX.124AAA): L5NAAJT19D1000726, L5NAAJT19D1000936, L5NAAJT16D1000912

DTAOC.049MC2: L5NTEACX1D1101627, L5NTEACX9D1150770, L5NTEACX6D1101302

DTAOX0.12A1T: L5NAAHTJ3D1019751, L5NAAHTJXD1024218, L5NAAHTJ4D1019516

2) The test plan you provided does not address catalyst testing. Will you be providing that information in a separate document?

Our EPA consultant will address catalyst testing in the updated testing plan. Our concern is EPA request the catalyst testing should be done after the whole vehicle testing, then the catalyst will deteriorate and the results will be totally different from what we've done last time with Canada SGS which we sent in samples which were removed from brand new units.

THE PRECIOUS METAL CONTENT OF CATALYSTS THAT HAVE UNDERGONE EMISSIONS TESTING SHOULD BE UNAFFECTED BY THE EMISSIONS TESTING. IF YOU HAVE FURTHER QUESTIONS ABOUT THIS, WE CAN DISCUSS THIS AT OUR IN-PERSON MEETING.

3) It is not clear which lab (CEE or Olsen) will be testing which vehicles.

we were waiting for EPA's reply on the process of testing (like which testing should be done first) from 2/27, that's why we can't tell the labs our estimated testing date. Now we have an answer from Robert on 3/4. We are checking back with the labs, to see what's their schedules.

4) Why is the quantity of vehicles listed as N/A or blank for three engine families?

Actually there are only two engine families show N/A, DTAOX0.15G2T and CTAOC.049MC1. We imported small quantity of DTAOX0.15G2T over the years and sold out long time ago. And for CTAOC.049MC1, we don't have them in stock since it's 2012 year model. But we do have all the left 6 engine families in stock.

YOUR TEST PLAN ONLY MENTIONS YOUR LA WAREHOUSE. CAN YOU CONFIRM THAT YOU DO NOT HAVE ANY SAMPLES FROM DTAOX.15G2T AND CTAOC.049MC1 IN YOUR DALLAS WAREHOUSE?

Thank you very much for your time.

P.S. I will be getting married next Thursday in China, but you can always reach me by email or by my cell 909-816-1937.

Please address these questions in a revised test plan and submit it to EPA by Monday.

Thanks,

Amelie

Subject: Re: About catalyst testing

Mr Robert,

Sorry I had to upload the 7 PDF files to Cloud storage service and shared the link with you because the files are too large (over 120 MB). It contains random VINs for the 6 engines families that we currently have in stock (Details in our testing report). We took pictures of those VINs to make it easier for Amelie to choose from. I also sent Amelie a CD yesterday which has all these PDF files in it (FEDEX TRACKING 798123588004). It is delivered 90 minutes ago.

And we'll be at the meeting on time.

Thank you for your time.

ue, Mar 4, 2014 at 1:18 PM, Klepp, Robert <Klepp.Robert@epa.gov> wrote:

Dear Mr. Wang,

Your test plan is being reviewed at this time. There are additional reports on the Google Drive link you sent that we could not open. Please re-send these documents as PDF files in e-mail attachments. There are 8 families in the Test Order, so let me know if there any engine families for which you do not have samples to test. From what I could see on Google Drive, it looks like you are missing 4 of the engine families identified in EPA's Test Order.

Also, regarding your second point about Taotao's ability to afford the testing, it is hard to imagine that Taotao cannot afford to do the required testing, since it is responsible for nearly \$40,000,000 in imports in 2013. There is a formal process for demonstration of inability to pay requiring submission of specific documentation including tax returns and bank statements.

Finally, in response to your last question, because the catalyst samples will come from the vehicles that are being emissions-tested, the catalyst testing should take place after the vehicles are emissions-tested. Hopefully this clarifies your question on the testing process.

Please let me know if you and Matao Cao and you are able to meet on March 17, 2014, in the afternoon, at EPA Headquarters for the purpose the Notice of Violation and the Test Order. Although we understand that there are language barriers that make it difficult for Yuejin Cao to participate in the meeting, we need someone representing the manufacturer to attend the meeting, as recipients of the Notice of Violation and Test Order. This can be covered if Taotao Group Co., Ltd. and Jinyun County Xiangyuan Industry Co., Ltd. can confirm in a letter to EPA that they have authorized Matao Cao to speak on their behalf and represent their interests in matters related to the Notice of Violation and Test Order.

Sincerely,

Robert G. Klepp, Acting Chief

Subject: Re: About catalyst testing

Hi Amelie,

Thank you very much for your prompt reply.

I am sending you our Testing Plan and 7 pdf files including the VINs (Here is the [LINK](#)) for you to randomly choose from.

Since we start to get price quotes from different labs, it seems the whole cost will be over \$200,000.00, and plus the cost for all the units (we have to keep all the testing units in our warehouse for at least 7 years). I am afraid we can't afford such a high cost for the testings. Is it possible that EPA could test our units in Lotus?

And also there is another problem. If we remove the catalyst from the selected samples and send to Canada SGS for testing, then we won't be able to get the catalyst back for the vehicle testing here in the States. Or we do the vehicle testing first in the States, and then remove the catalyst from the finished testing units to send to

Canada SGS, but we know the catalyst testing results will be totally different.

Please help us with this.

Thank you very much.

P.S. Terry and me will be attending March meeting. Since Terry's father doesn't speak English, he won't attend our meeting.

Jackie,

While we can't come to your warehouse, if you send me a list of available VINs for each engine family at issue, I would be glad to randomly select some VINs for you.

Were you able to locate samples from all engine families? Let me know if there any engine families for which you do not have samples to test.

Also, as requested in Bob Klepp's Feb. 11 message, please let us know when in March Mr. Cao and Mr. Cao are available for an in-person meeting in Washington, DC.

Thanks,

Amelie

Subject: About catalyst testing

Hi Amelie,

Quick question, is it possible for EPA to come to any of our warehouses to randomly select catalyst samples for the engine families that listed in EPA's Feb 6th 2014 letter and tested in EPA's lab?

It will help us speed up the whole process.

Thanks.

Jackie Wang

ATTENTION: Matao Cao and Yuejin Cao

Response to Test Plan Submitted on March 31, 2014

By letter dated February 6, 2014, the United States Environmental Protection Agency (EPA) required Taotao USA, Inc., Jinyun County Xiangyuan Industry Co., Ltd., and Taotao Group Co., Ltd., and its affiliates (collectively, Taotao) to submit certain information as part of an EPA investigation to determine Taotao's compliance with sections 203 and 213 of the Clean Air Act (Act), 42 U.S.C. §§ 7522 and 7547, and the regulations at 40 C.F.R. Parts 86, 1051, and 1068.

The information request included a requirement that Taotao must submit to EPA a detailed written test plan for the testing and inspection of three representative and randomly selected vehicles from each of the following engine families: ETAOC.049MC2, ETAOX0.12AIT, DTAOC.150MC2, DTAOX0.15G2T, DTAOX.124AAA, DTAOC.049MC2, DTAOX0.12AIT, and CTAOC.049MC1. The initial deadline for Taotao to submit a test plan proposal was March 5, 2014, and later this deadline was extended to March 31, 2014, based on Taotao's need for additional time to address EPA's comments and questions. In the interim, on March 18, 2014, EPA and Taotao met in person at EPA's office in Washington, DC to discuss the test plan and the underlying violations. Following the meeting, EPA received Taotao's test plan re-submission on March 31, 2014.

Upon review of the submitted test plan, EPA found significant deficiencies where the plan falls short of EPA's requirements. For reasons discussed in detail below, EPA is not approving the test plan at this time. The deficiencies with the submitted test plan are as follows:

- Certification is not included that each of the test vehicles will not have not been modified in any way since its importation or, if any modification or adjustment has been made, specify the nature of such modification or adjustment.
- SGS documents entitled, "Catalyst preparation and sub-sampling," and "Precious Metals Analysis," are provided as a standalone documents with the submission. Please confirm whether the methods and procedures outlined in these documents are what the laboratories will follow in this matter. Unless Taotao does so, EPA cannot assume what Taotao intended when these documents were included on your response.
- One of the pages of the submission has as its header, "Tao Tao Test Plan Check Sheet." The check list needs to include the following details:
 - Specify that each test vehicle will be inspected by the laboratory for the presence of each of the emission control devices listed on the emissions label.
 - State that the report to EPA on emission and catalyst test results will be submitted within 60 days of approval by EPA of the test plan;
 - State that the report to EPA will include a detailed description of the conduct of the testing, and contain the results of the testing;
 - State that each of the labs will retain the test vehicles and catalysts, and testing bench sheets until EPA agrees that they may be released.
- The "Tao Tao Test Plan Check Sheet", "Motorcycle/ATV check-in procedure", and "Motorcycle Pre-Test Data Sheet" apply only to proposed testing by California Environmental Engineering. Taotao needs to provide corresponding checklists from Olson-Ecologic.
- Include a narrative description of the emission test procedures that each laboratory will use.
- The entire narrative needs a review for English grammar and formatting. For example, the test lab information on page 1 is written in past tense. Also, on page 1, section 2, based on the formatting, it is unclear whether there 200 vehicles available for engine family DTAOC.49MC2.

Correct the deficiencies and submit a revised test plan no later than April 28, 2014.

Sincerely,

for

Robert G. Klepp, Acting Chief
Mobile Source Enforcement Branch

TAOTAO USA INC./TAOTAO GROUP CO., LTD/JINYUN COUNTY XIANGYUAN
INDUSTRY CO., LTD TEST PLAN

We hereby submit the revised test plan for the following engine families:

ETAOC.049MC2,
ETAOXO.12A1T,DTAOC.150MC2,DTAOXO.15G2T,DTAOX.124AAA,DTAOC.049
MC2,DTAOXO.12A1T and CTAOC.049MC1.

Certification: Each of the test vehicles will not have not been modified in any way since its importation.

1. Test Laboratory information:

We have contracted with California Environmental Engineering (CEE) who has agreed to conduct the confirmatory testing for us. Below is a brief description of the test laboratory.

California Environmental Engineering is an EPA and ARB recognized emission testing facility located in Santa Ana, California. CEE has been in business since 1984. CEE has participated in motorcycle cross check programs with the EPA and ARB. CEE has conducted in use testing programs for the ARB including motorcycle manufacture in use audits.

CEE uses a Horiba Analytical train for emission analyzation, a Horiba CVS and a Mustang Dynamometer with Real Time controls. The computer program that runs the tests is an ALS computer program. The ALS program generates the driving trace as well as running the analytical train.

2. Vehicle Selection

Below are the testing vehicle VINs previously selected by Amelie Isin

Engine Family	Models	Quantity
ETAOC.049MC2	SPEED 50/CY50-A	550
	L9NTEACT7E1000882, L9NTEACT9E1000849, L9NTEACT2E1003902	
ETAOXO.12A1T	ATA110-B/ATA125-DATA-125F	700
	L5NAAHTJ3E1037815, L5NAAHTJ8E1037762, L5NAAFTBXE1041955	
DTAOC.150MC2	LANCER 150/PALADIN 150	300
	L9NTELKA1D1050106, L9NTELKE3D1250004, L9NTELKEXD1250050	
DTAOXO.15G2T	ATK150-A/ATK 150-C	3
	L5NAELTN0D1000133, L5NAELTN5D1000113, L5NAELTNXD1000107	

TAOTAO USA INC. Test Plan Check Sheet

BY CEE

- 1 Receive all vehicles for testing.
- 2 Inspect each vehicle damage and presence of emission control devices listed on the emissions label.
Perform Check In which entails recording all information contained on the Check In Sheet
- 3 Take pictures of each vehicle as follows.

Left Side to record damage
Right Side to record damage
Front Side to record damage
Rear Side to record damage
Engine and engine number
Carburetor to record manufacturer and seals present
Emission Label to verify engine family
Vin. Plate to verify vin# recorded
- 4 Determine if Carburetor is sealed or not and take pictures of the seal.
- 5 If sealed inform TAO TAO and EPA
- 6 Run vehicle to degreen cats, seat valves, rings, etc. on durability dyno per Tao Tao test plan.
- 7 Conduct Emission Test CVS75FTP per Title 40 Part 86
- 8 Audit and QC data to ensure compliance with regulations Title 40 Part 86.
- 9 Write Final Report including emission equipment, dynamometer specifications & pictures and all durability logs as well as all emission tests conducted.
- 10 CEE will retain the test vehicles and testing bench sheets until EPA agrees that they may be released.

California Environmental Engineering will submit the testing report to EPA within 60 days of approval by EPA of the test plan.

If you have any questions please call Larry Swiencki at 714-545-9822 ext.51.

THE REMOVAL AND TRANSPORTING OF CATALYST:

After the emission testing finished, CEE will remove the muffler system from the testing units and cut the muffler to get the catalyst out. TAOTAO will have no contact with the mufflers or catalysts after testing. CEE will use FedEx to send the catalysts directly to Canada SGS.

PRECIOUS METALS ANALYSIS
FOR
TAOTAO USA INC.

APRIL 2014

Agreed Test Plan for TAOTAO USA INC.:

The testing laboratory will collect information establishing the identification of each vehicle that is the source of reported to EPA. This information must include, at a minimum, the vehicle identification number, pictures of the vehicle and catalyst, and pictures of any emission control label present on the vehicle.

The testing laboratory will document transfers of custody sufficient to maintain an unbroken chain of custody for the vehicle and catalyst sample. SGS must measure the dimensions of the catalyst: length, diameter, and cell density.

Take photos of the samples at each step below and include in lab report.

1. Weigh entire sample at start (the intact casing, honeycomb mesh interior, and washcoat amount inside); measure the diameter of the mesh and cell density
2. Do the coring & collect core samples and washcoat (as discussed on our recent call, include a method for preventing excess washcoat from falling out of other parts of the honeycomb during the drilling process)
3. Weigh the core samples and washcoat; set aside for now
4. Weigh the remaining casing, washcoat, and mesh (now missing X number of cores) this is not required, but could be useful in observing loss
5. Remove the casing from the remaining mesh; separate these pieces; measure the length of the honeycomb mesh
6. Clean the casing: scrape any washcoat powder or small mesh pieces out; put those with the remaining mesh
7. Weigh the clean casing
8. Weigh the mesh and washcoat remaining after removing the casing
9. Return to the core samples of mesh and washcoat collected in coring; tear apart the core samples and remove all washcoat in cores
10. Use a magnet to separate the mesh core pieces from the collected washcoat; weigh the washcoat
11. Choose a needed portion of the washcoat to analyze; determine the ppm or mg/kg of the platinum group element(s) in the washcoat
12. Add the weight from #3 to #8, this is the total weight of honeycomb mesh and washcoat in the sample
13. Back estimate the total amount of washcoat in the catalytic converter: multiply the weight from #12 by the weight from #10 and divide that by the weight from #3, this

will yield an estimated amount of washcoat in the honeycomb mesh for the entire sample

14. Determine the weight of platinum group element in the catalytic converter by multiplying the concentration from #11 to the estimated amount of washcoat from #13 (include weight conversions mg, g, kg)

15. Use the measurements from #1 and #5 to calculate the volume of the honeycomb mesh ($\pi \times R^2 \times H$); use for loading calculations (g/L)

SGS CANADA WILL RETAIN THE TEST CATALYSTS AND TESTING BENCH SHEETS UNTIL EPA AGREES THAT THEY MAY BE RELEASED. SGS WILL SUBMIT THE TEST REPORT TO EPA WITHIN 60 DAYS OF APPROVAL OF THIS TEST PLAN.
