

3. Under §261.6 of RCRA, a manifest does not have to accompany shipments of some wastes (“P” list , “U” list, “I,C,R,T” wastes) in route to recycling and reclamation centers. A release of any of these wastes requires notification under CERCLA, however. Since no manifest form accompanies these waste shipments, the shipper may not know he has to notify the NRC if he spills (releases) the waste.
