

Question: What should be done if an owner/operator has both sudden and non-sudden liability coverage by July 15, 1982?

Resolution: If the Part 264.151(g) financial test is used for sudden and non-sudden coverage, the owner/operator may wish to add a separate letter noting that the coverage is for both. Then the Region will not expect a later notification of non-sudden coverage.
