RE: ROAD SANDING AGREEMENT

Dear Ms. Gibbs:

In compliance with the goals to reduce particulate matter, the Idaho Transportation Department will agree to use straight salt and liquid salt brine prior to and during winter maintenance throughout Franklin County. However, there may be occasional extenuating circumstances that will warrant discretionary changes based upon climate where anti-skid material may be used.

I trust this will satisfy your needs.

Sincerely,

A handwritten signature in black ink, appearing to read 'Steve Gertonson', written over a horizontal line.

Steve Gertonson, P.E.
District Five Operations Engineer
