Surface and Subsurface Sediment Sampling Locations Between RM 5.0 and RM 6.0

EXPLANATION:

Stations

▲ Surface and subsurface sediments sampling location
Surface sediment sampling location

-C Indicates core sample could not be co-located with surface sediment sampling location due to subsurface obstruction and/or insufficient recovery.

Note: SD-054 was not collected due to insufficient recovery.

N

500 0 500 1000 Feet
