

Appendix F

Pressure Response in Injection and Operational Monitoring Wells During Emplacement

This appendix contains plots showing the pressure buildup in the injection wells and at a radial distance of 15 feet during each injection operation along the barrier alignment.

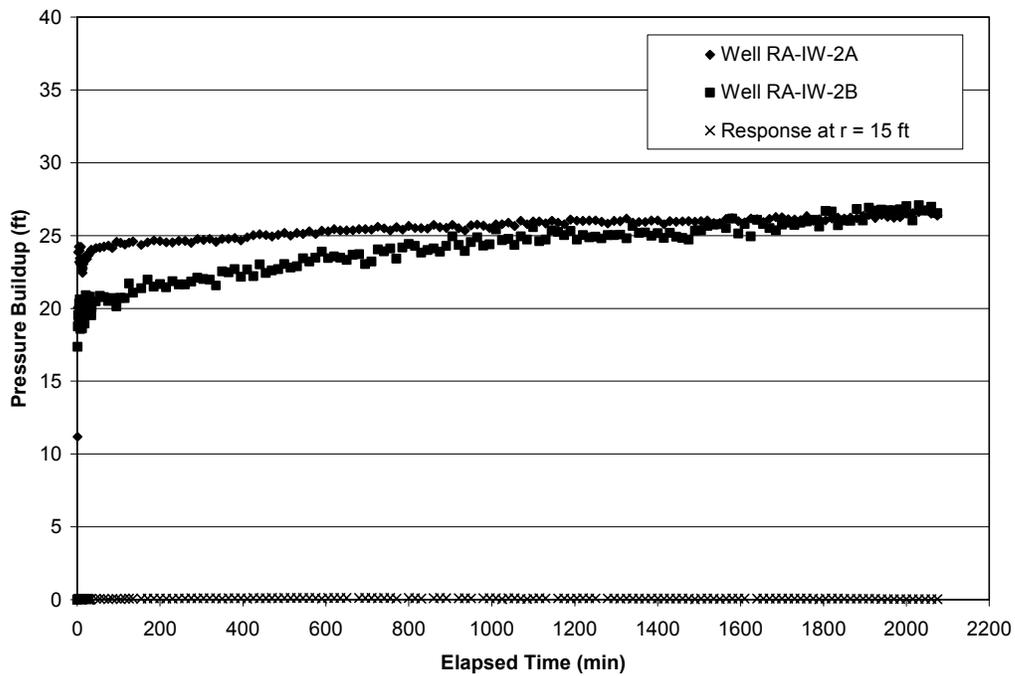

Figure F.1. Pressure Buildup During Injection Phase at Wells RA-IW-2a/2b

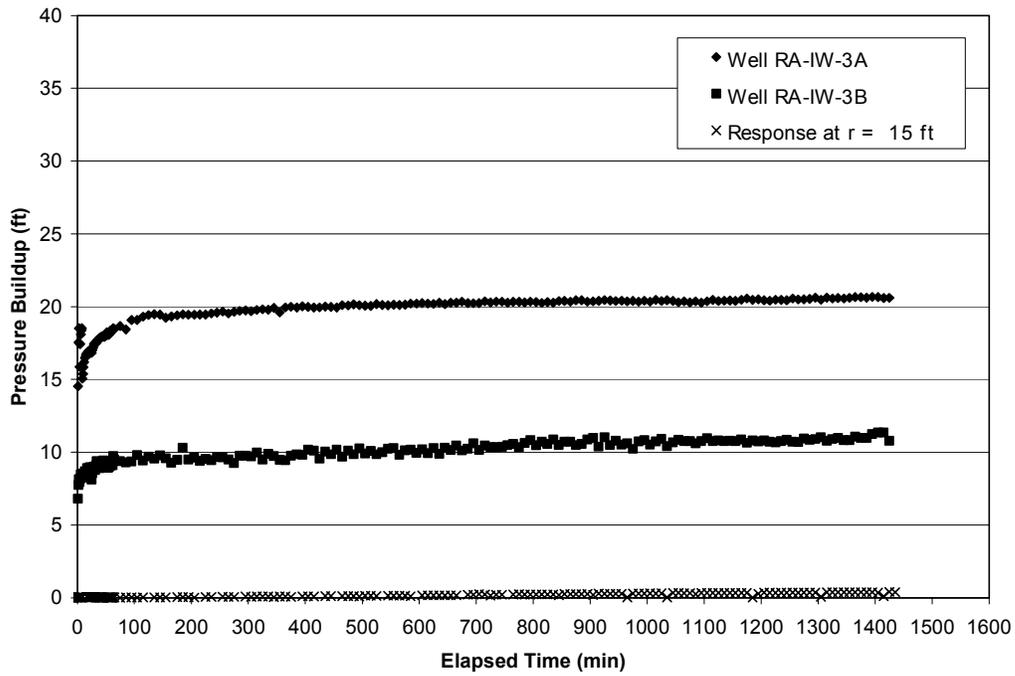

Figure F.2. Pressure Buildup During Injection Phase at Wells RA-IW-3a/3b

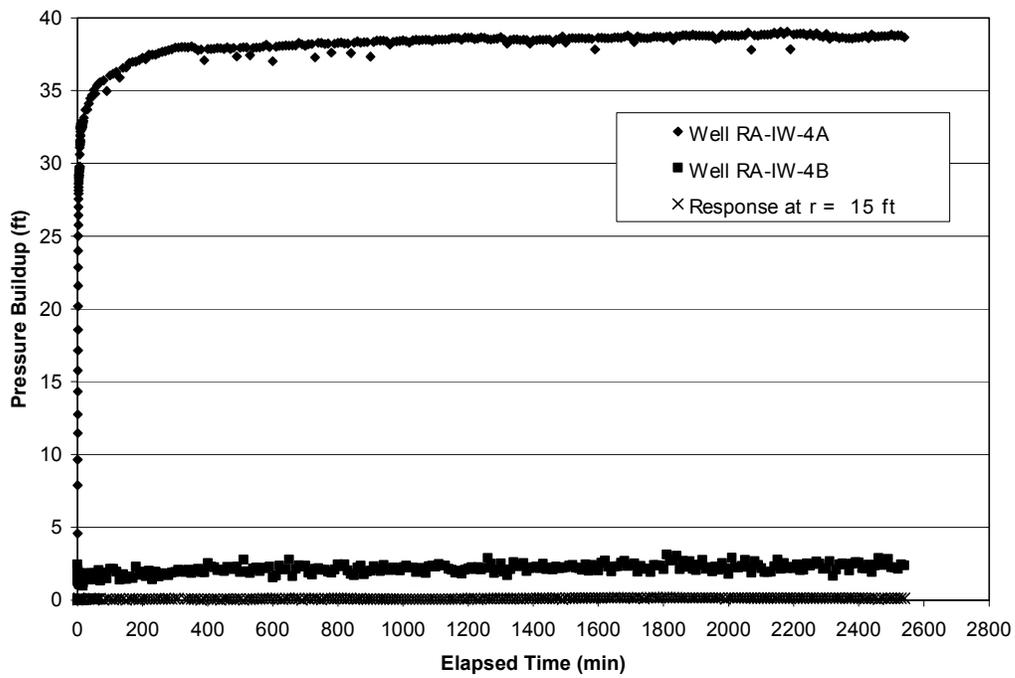

Figure F.3. Pressure Buildup During Injection Phase at Wells RA-IW-4a/4b

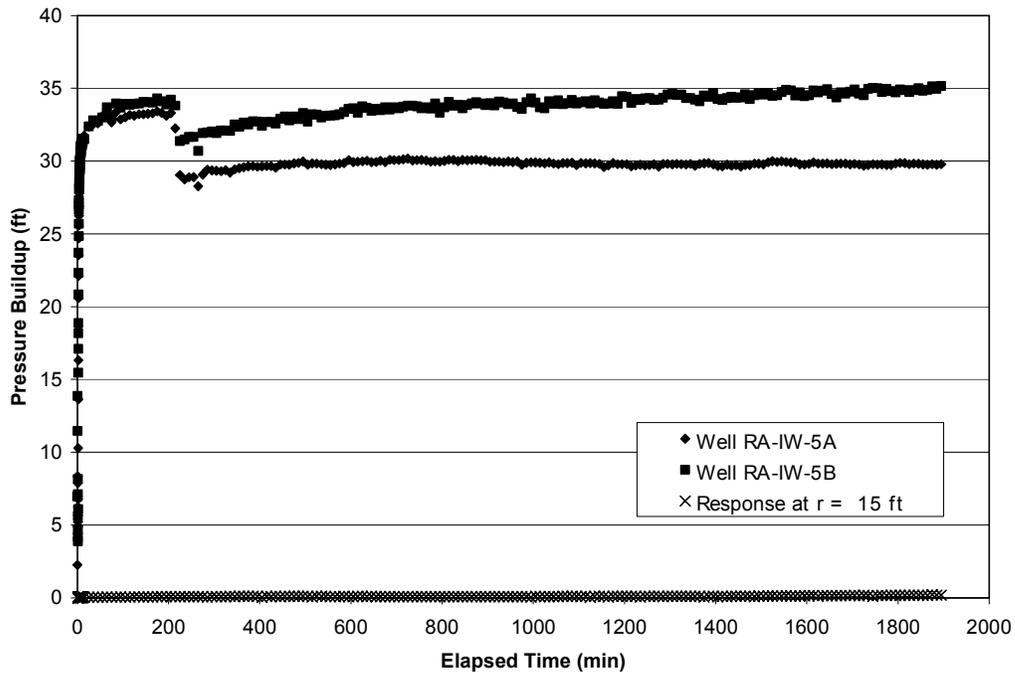

Figure F.4. Pressure Buildup During Injection Phase at Wells RA-IW-5a/5b

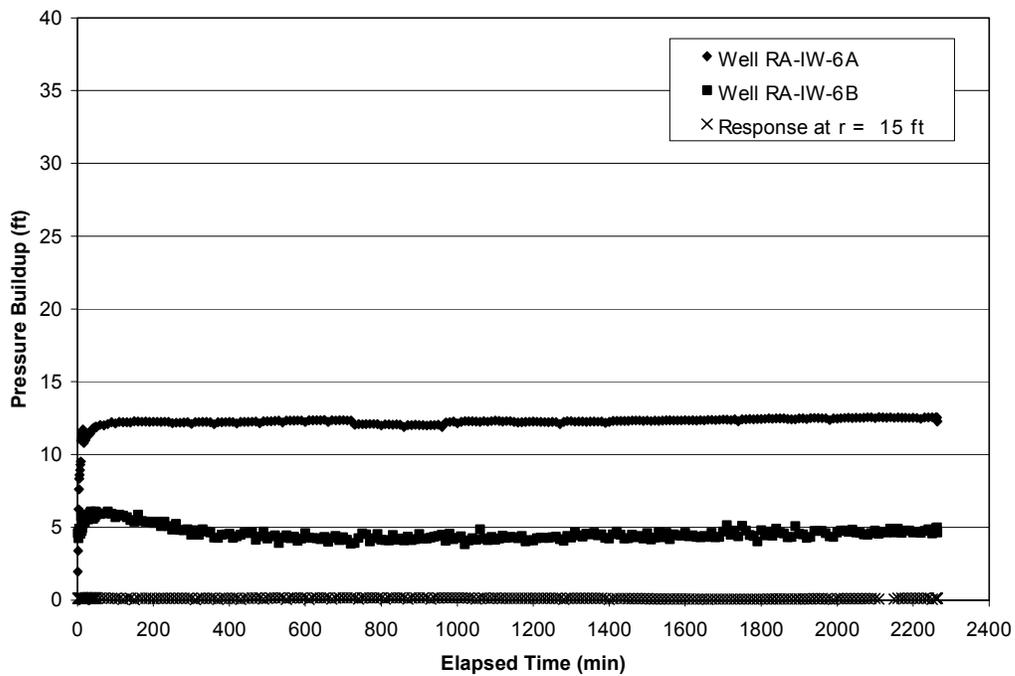

Figure F.5. Pressure Buildup During Injection Phase at Wells RA-IW-6a/6b

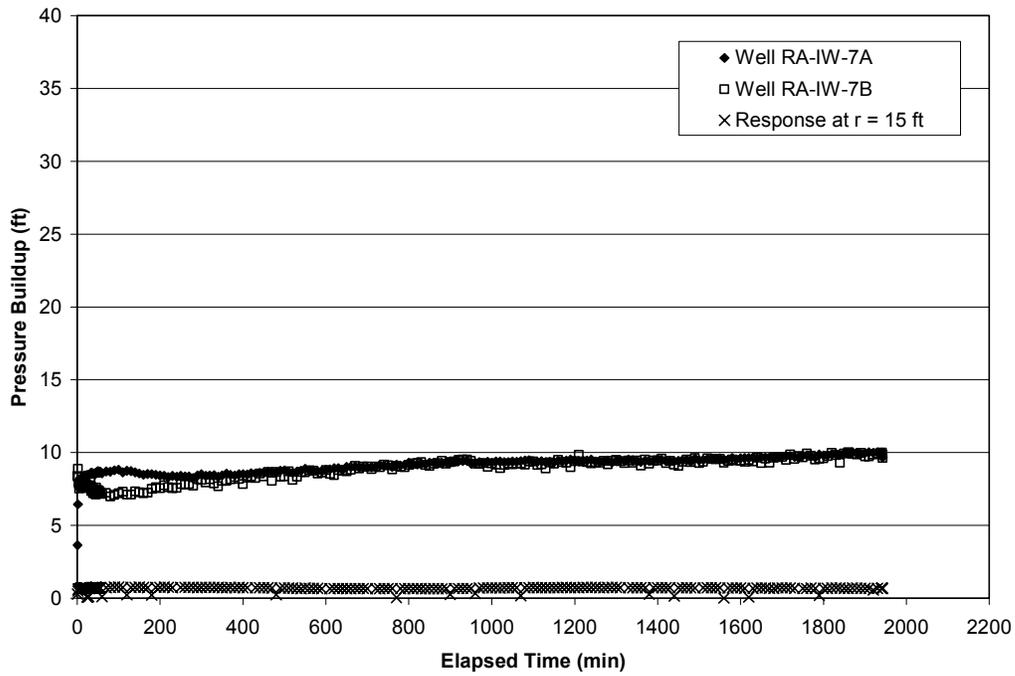

Figure F.6. Pressure Buildup During Injection Phase at Wells RA-IW-7a/7b

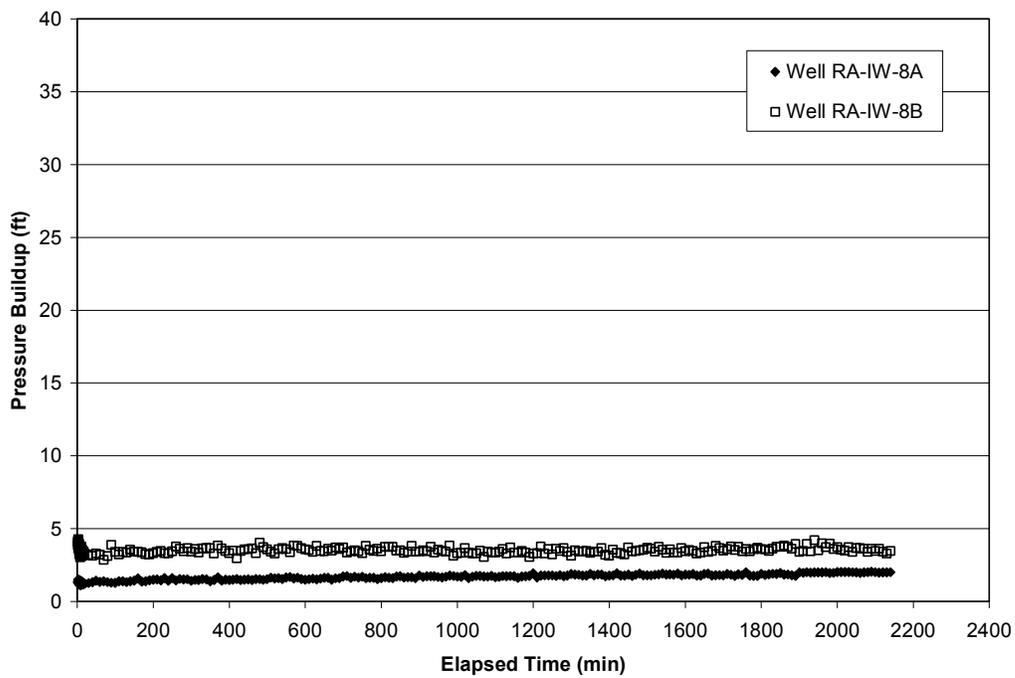

Figure F.7. Pressure Buildup During Injection Phase at Wells RA-IW-8a/-8b

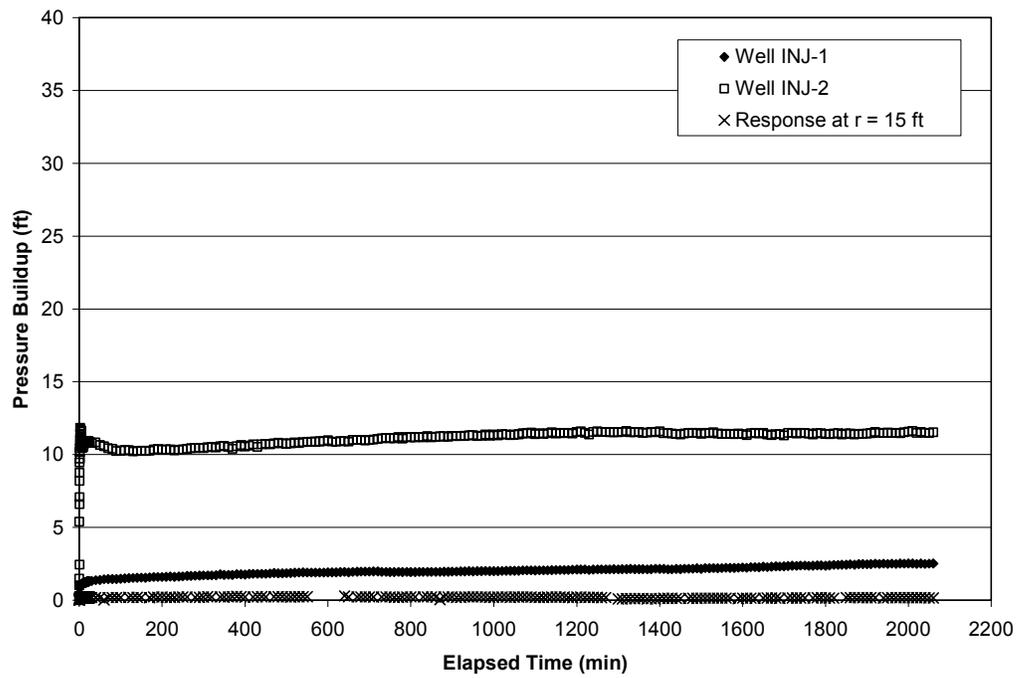

Figure F.8. Pressure Buildup During Injection Phase at Wells INJ1/INJ2
