

~~Municipal Solid Waste Landfill Gases (measured as non-methane organic compounds): 45 megagrams per year (50 tons per year)~~

~~II.A.42.b. Significant means, in reference to a net emissions increase or the potential of a source to emit a regulated NSR pollutant that this definition does not list, any emissions rate, except that this definition shall not apply to hazardous air pollutants listed in or pursuant to Section 112 of the Federal Act.~~

~~II.A.42.c. Notwithstanding the significant emission rates above, significant means any emissions rate or any net emissions increase associated with a major stationary source or major modification, that would construct within ten kilometers of a Class I area, and have an impact on such area equal to or greater than one microgram/cubic meter ((g/m<sup>3</sup>) (twenty-four hour average).~~

II.A.43. *Significant Emissions Increase*

*For a regulated NSR pollutant, an increase in emissions that is significant (as defined in Section II.A.42. of this Part D) for that pollutant.*

II.A.44. *Significant Emissions Unit*

*An emissions unit that emits or has the potential to emit a PAL pollutant in an amount that is equal to or greater than the significant level (as defined in Section II.A.42. of this Part D or in the Federal Act, whichever is lower) for that PAL pollutant, but less than the amount that would qualify the unit as a major emissions unit (as defined in Section II.A.21. of this part).*

II.A.45. *Small Emissions Unit*

*An emissions unit that emits or has the potential to emit the PAL pollutant in an amount less than the significant level for that PAL pollutant (as defined in Section II.A.32. of this Part D or in the Federal Act, whichever is lower).*

II.A.46. *Temporary Clean Coal Technology Demonstration Project*

*A clean coal technology demonstration project that is operated for a period of five years or less, and that complies with the state implementation plan and other requirements necessary to attain and maintain the National Ambient Air Quality Standards during the project and after it is terminated.*

**III. Permit Review Procedures**

III.A. Major stationary sources subject to the requirements of this Part D must apply for and obtain a Construction Permit in accordance with the procedures and requirements in Part B or an Operating permit in accordance with the procedures and requirements in Part C.

III.B. The Division shall complete the processing of applications (including any requested public hearing) for sources subject Section VI. of this Part D within twelve months of receipt of a complete application.

**IV. Public Comment Requirements**

IV.A. When public comment is required, or when the Division determines that an application warrants public comment in accordance with Section III.C.3. of Part B of this regulation, the Division shall, within fifteen calendar days after the preparation of the preliminary analysis, cause public notice of the application to be published in a newspaper of general distribution in the
