Subject: Perris Valley Regional Water Reclamation Plant
Title V Facility Permit, ID NO.7417, Section H – Revision No. 1

Dear Mr. Pack:

Enclosed please find the revised Title page, Table of Contents, and Section H, of your Title V Facility Permit. The revised Sections reflect the approval of a Significant Permit Revision of the Title V permit. The South Coast Air Quality Management District (AQMD) issued a draft permit for Environmental Protection Agency (EPA) review on November 5, 2009, and no comments were received from the EPA. A Public Notice was published on November 10, 2009, and no comments were received. In addition, earlier this year, your staff informed AQMD of an item of concern in a Permit to Construct (A/N 471708) for a biofilter. The AQMD concurs with EWMD that a typographical error was made. A correction to this permit is included as an administrative revision. The revisions to Section H are shown below:

SECTION H PERMIT TO CONSTRUCT

Appl. No.	Description
496805	Internal Combustion Engine, Emergency Electric Generator, Natural Gas Fired, >500 bhp
471708	Biofilter - Correction to condition No. 8.

Please review the attached pages and then insert the enclosed sections in your Title V Facility Permit, and discard the earlier versions. If you have any questions concerning changes to your permit, or if you determine any administrative error, please contact Ken Matsuda at (909) 396-2656, within 30 days of the receipt of your permit.

Sincerely,
