Title V Facility Permit, Revision No. 6

Dear Mr. Jones,

Enclosed please find the revised Title page, Table of Contents, Section D of your Title V Facility Permit. The revised sections reflect the approval of a Minor Permit Revision of the Title V permit. The South Coast Air Quality Management District (AQMD) issued a draft permit for Environmental Protection Agency (EPA) review on November 9, 2012, and no comments were received from the EPA. No Public Notice was required for the Revision.

The revision to Section D includes the revised permits as shown below:

SECTION D, PERMIT TO OPERATE

Appl. No.	Equipment	Description
529142	ICE (>500 HP) Emergency Elec. Generator Natural Gas	Modification to the permit of an existing emergency natural gas fired engine to allow operation under a demand response program (DRP).

Please review the attached pages and then insert the enclosed sections in you Title V Facility Permit, and discard the earlier versions. If you have any questions concerning changes to your permit, or if you determine any administrative error, please contact Angela Shibata (909) 396-2737, within 30 days of the receipt of your permit.

Sincerely,

Jay Chen, P.E.
