Subject: Title V Facility Permit Revision, LA County Sanitation Districts (LACSD),
Palos Verdes Landfill, Facility ID 24520

Dear Mr. Boehmke:

Enclosed please find the revised Title page, Table of Contents and Section D of your Title V Facility Permit. The revised sections reflect the approval of the permit revisions requested in your Title V application No. 533440. On November 20, 2013, the draft copy of this revised permit was submitted to EPA Region IX for a 45-day review period and no comments were received.

Section D includes revised permit condition for landfill gas flare (A/N 526209) that clarifies the flare operating temperature requirement excluding flare start up and shutdown period; not to exceed 30 minutes. Previous permit to operate, G24651, is removed from Section D. Please review the attached sections carefully. Insert the enclosed sections in your Title V Facility Permit and discard the earlier versions. Questions concerning changes to your permit should be directed to Mr. Gaurang Rawal at (909) 396-2543.

The operation of your facility is bound by the conditions and/or requirements stated in your Facility Permit to Operate. If you determine any administrative errors in your Facility Permit, please contact Mr. Rawal at above number within 30 days of the receipt of your permit.

Sincerely,

Charles Tyson, for
