Mr. Paul D. Jones II
General Manager
Eastern Municipal Water District
PO Box 8300
Perris, CA 92572-8300

Subject: Temecula Valley Regional Water Reclamation Plant (Facility ID 001703)
Title V Facility Permit, Revision No. 7

Dear Mr. Jones,

Enclosed please find the revised Title page, Table of Contents, Section A and Section H of your Title V Facility Permit. The revised sections reflect the approval of a Significant Permit Revision of the Title V permit. The South Coast Air Quality Management District (AQMD) issued a draft permit for Environmental Protection Agency (EPA) review on September 30, 2011, and no comments were received from the EPA. A Public Notice was required for the Revision and one telephone was received and addressed from a member of the public. The revision to Section H includes the revised permit as shown below:

SECTION H, PERMIT TO CONSTRUCT

Appl. No.	Equipment	Description
522637	ICE (>500 HP) EMERGENCY ELEC. GENERATOR, DIESEL	Installation of an emergency diesel fired ICE for electrical generation.

Applications 503585 has been removed and replaced with the above application from Section H under Administrative Permit Revision. Also, Section A was modified to reflect the new Responsible Official under Administrative Permit Revision.

Please review the attached pages and then insert the enclosed sections in you Title V Facility Permit, and discard the earlier versions. If you have any questions concerning changes to your permit, or if you determine any administrative error, please contact Angela Shibata (909) 396-2737, within 30 days of the receipt of your permit.

Sincerely,

Jay Chen, P.E.
