Dear Mr. *Rios*,

Owens Corning Roofing and Asphalt, LLC (I.D. 35302) has proposed to revise their Title V permit by changing their RECLAIM SOx emission factor to a SOx emission rate, determined by source testing, for an afterburner (application 456918). This facility produces asphalt roofing products and is located at 1501 N Tamarind Ave., Compton, CA 90222. This proposed permit revision as requested under application 546330 is considered as a “minor permit revision” to their Title V permit. Enclosed for your review is the permit evaluation and draft permit for the proposed permit revision. With your receipt of the proposed Title V permit revision today, we will note that the EPA 45-day review period will begin on March 8, 2013.

If you have any questions or need additional information regarding the proposed permit revision, please call Merrill Hickman at (909) 396-2676.

Very truly yours,
