------------------------	---	---

Background:

This application 547635 was submitted for Title V permit revision on 02/22/2013. The Title V Permit was renewed 10/06/2011.

This proposed revision includes the following equipment and its' evaluation is included in folder.

PERMIT TO CONSTRUCT/OPERATE: Section D (Rev 04 Draft)

<u>Application No.</u>	<u>Description</u>
547634	Modifications to Landfill Condensate/Leachate/Groundwater storage and collection system F96618 by the addition of a new condensate storage tank with a passive GAC adsorber.

This revision is considered a de minimis significant Permit Revision as the proposed modifications result in a small amount of VOC emissions (0.24 lbs/day) complying with all applicable rules. Public notice is not required; however, proposed permit is subject to EPA 45-day review and comment period.

Rules Evaluation:

Compliance with applicable rules and Reg. XXX -Title V permits is expected.

Conclusion & Recommendation:

Issue the revised Title V permit upon completion of 45-day EPA review and commenting period.
