Mr. Corey Vodvarka  
Exide Technologies  
2700 South Indiana Street  
Vernon, CA 90058

**SUBJECT:** RECLAIM/Title V Facility Permit, Facility ID: 124838

EQUIPMENT LOCATED AT 2700 SOUTH INDIANA STREET, VERNON, CA 90058

Dear Mr. Vodvarka:

Please find attached the revised Title Page, Table of Contents, and Section H of your Facility Permit. The revised Facility Permit reflects the inclusion of the following application (s) approved for Permit to Construct that are being listed in Section H.

SECTION H (Permit to Construct) Revision # 6

Appl. No.	Description	Device(s)	Process	System
520575	Add HEPA filter dust collector to outlet of North Torit cartridge-type dust collector.	C38, C186, S187	1	6
520577	Add HEPA filter dust collector to outlet of South Torit cartridge-type dust collector.	C39, C188, S189	1	6

This Title V permit revision is covered under Application No. 522622. The proposed permit revision is considered to be a "minor" permit revision to the Title V permit. A draft of this permit was submitted to EPA for review on June 3, 2011. The EPA concluded their review early on June 16, 2011, prior to the end of their 45-day review period. No comments were received. Please note that the device enumeration for the above referenced devices has changed in the conversion from draft Permit to Construct to final Permit to Construct.

Questions regarding the Exide TV final permit may be directed to Marco A. Polo of my staff at (909) 396-2633.

Sincerely,

Jay Chen, P.E.
