Mr. Gerardo Rios  
Chief – Permits Office  
U. S. EPA, Region IX  
75 Hawthorne Street, Air 3  
San Francisco, CA 94105

Dear Mr. Rios:

Owens Corning Roofing and Asphalt, LLC (I.D. 35302) has proposed to revise their Title V permit by modifying a heater by replacing the burner with a lower rated burner (application 424381) and by adding two laminated adhesive applicators that were previously Rule 219 exempt (application 456922). This is an asphalt roofing manufacturing facility, located at 1501 N. Tamarind Ave., Compton, CA 90222. This proposed permit revision as requested under application 456914 is considered as a “de minimis significant permit revision” to their Title V permit. Enclosed for your review are the permit evaluations and draft permit for the proposed permit revision. With your receipt of the proposed Title V permit revision today, we will note that the EPA 45-day review period will begin on August 22<sup>nd</sup>.

If you have any questions or need additional information regarding the proposed permit revision, please call Merrill Hickman at (909) 396-2676.

Very truly yours,

A handwritten signature in black ink that reads "William C. Thompson" followed by "Per WCT" in a cursive style.

William C. Thompson, P.E.  
Senior Manager/Web Deputy  
Engineering and Compliance
