Mr. Gerardo Rios
Chief – Permits Office
U. S. EPA, Region IX
75 Hawthorne Street, Air 3
San Francisco, CA 94105

Dear Mr. Rios:

Arlon Graphics, LLC (ID 167066), has proposed to revise their Title V permit to correct the equipment description of the oven for recently installed coating line (C4). The oven burner details were incorrect in the permit description. Arlon plans to relocate the equipment and associated emission caps from this facility to a property in Placentia (ID 174406). The company also requested to share the facility VOC emission limit with their new facility until the relocation has been completed. This is a paper and film adhesive coating facility (SIC 2672) located at 2811 South Harbor Blvd., Santa Ana, CA 92704. This proposed permit revision under Application No. 524698 is considered as a “de minimis significant permit revision” to their Title V permit. Attached for your review are the permit evaluation and draft permit for the proposed permit revision. With your receipt of the proposed Title V permit revision today, we will note that the EPA 45-day review period will begin on January 24th.

If you have any questions or need additional information regarding the proposed permit revision, please call Ed Muehlbacher at (909) 396-2703.

Very truly yours,

Amir Dejbakhsh
Senior Engineering Manager
Coating, Printing, Plating, Military &
Entertainment Operations
