SUBJECT: Title V Facility Permit Revision (Facility ID: 001379)

Dear Ms. Graham:

Please find attached the revised Title Page, Table of Contents, and Section D of your Title V Facility Permit. The revised sections reflect the approval of the permit revision requested in your Application No. 498414. The proposed permit revision was submitted to EPA for 45-day review on February 1, 2011. This permit revision includes the addition of three lithographic printing presses, replacement of two existing lithographic printing presses, and addition of a natural gas-fired emergency internal combustion engine as listed on Attachment 1. This revision also includes the administrative permit revision to convert Permits to Construct, previously issued for a regenerative thermal oxidizer and a lithographic printing press, to final Permits to Operate, and the removal of four lithographic printing presses from Section D (three were replaced).

Please review the attached sections carefully. Insert the attached sections into your Title V Facility Permit and discard the earlier versions. Questions concerning changes to your permit should be directed to Ms. Jeanne Pandes Villacorte at (909) 396-2621.

Sincerely,

A handwritten signature in black ink, which appears to read "Fred Lettice".
