Subject: Proposed De Minimis Significant Revision to Title V Facility Permit for BP West Coast Products LLC

Dear Gerardo:

Enclosed for your 45-day review is the proposed revision to the Title V facility permit for BP West Coast Products LLC (BP) located at 2350 E. 223<sup>rd</sup> Street, Carson, California. BP's initial Title V permit was issued September 1, 2009. The proposed revision is a De Minimis Significant Revision and a public notice is not required.

The South Coast Air Quality Management District (AQMD) has received applications for Permits to Construct and Operate from BP for the equipment described in table below. The AQMD has evaluated the applications and made a preliminary determination that the equipment will operate in compliance with all of the applicable requirements of our Rules and Regulations. The revised portions of the permit and our evaluation reports are attached for your review.

Application No.	Equipment	Application for
511728	Light Ends Depropanizer Unit	Modification to an existing light ends depropanizer unit by upgrading the atmospheric pressure relief valve on the light ends depropanizer flash drum with a new pressure relief valve which will also be connected to the hydrocracker flare
511727	Hydrocracker Flare System	Modification to an existing flare to allow a new tie-in from the depropanizer unit
512089	Superfractionation Unit	Modification to an existing superfractionation unit by upgrading three atmospheric pressure relief valves on two feed surge drums and an overhead accumulator with pressure relief valves which will also be connected to the South Area flare
512088	South Area Flare System	Modification to an existing flare to allow new ties-in from the superfractionation unit
