E-Mail: tedgar@sftp.com

Section D - Application Type

6. The Facility Is: ( ) Not In RECLAIM or Title V ( ) In RECLAIM (•) In Title V ( ) In RECLAIM & Title V Programs

7. Reason for Submitting Application (Select only ONE):

7a. New Equipment or Process Application:
- ( ) New Construction (Permit to Construct)
- ( ) Equipment On-Site But Not Constructed or Operational
- ( ) Equipment Operating Without A Permit *
- ( ) Compliance Plan
- ( ) Registration/Certification
- ( ) Streamlined Standard Permit

7b. Facility Permits:
- (•) Title V Application or Amendment (Also submit Form 500-A1)
- ( ) RECLAIM Facility Permit Amendment

7c. Equipment or Process with an Existing/Previous Application or Permit:
- ( ) Administrative Change
- ( ) Alteration/Modification
- ( ) Alteration/Modification without Prior Approval *
- ( ) Change of Condition
- ( ) Change of Condition without Prior Approval *
- ( ) Change of Location
- ( ) Change of Location without Prior Approval *
- ( ) Equipment Operating with an Expired/Inactive Permit *

Existing or Previous Permit/Application
If you checked any of the items in 7c., you MUST provide an existing Permit or Application Number: _____

* A Higher Permit Processing Fee and additional Annual Operating Fees (up to 3 full years) may apply (Rule 301(c)(1)(D)(i)).

8a. Estimated Start Date of Construction (mm/dd/yyyy): 07/26/2011
8b. Estimated End Date of Construction (mm/dd/yyyy): 07/26/2001
8c. Estimated Start Date of Operation (mm/dd/yyyy): 07/26/2011

9. Description of Equipment or Reason for Compliance Plan (list applicable rule): Title V Permit Renewal. Rule 3003

10. For identical equipment, how many additional applications are being submitted with this application? (Form 400-A required for each equipment / process): 0

11. Are you a Small Business as per AQMD's Rule 102 definition? (10 employees or less and total gross receipts are $500,000 or less OR a not-for-profit training center) (•) No ( ) Yes

12. Has a Notice of Violation (NOV) or a Notice to Comply (NC) been issued for this equipment? ( ) No (•) Yes
If Yes, provide NOV/NC#: #D 29043

Section E - Facility Business Information

13. What type of business is being conducted at this equipment location? Theme Park

14. What is your business primary NAICS Code? (North American Industrial Classification System) 713110

15. Are there other facilities in the SCAQMD jurisdiction operated by the same operator? (•) No ( ) Yes

16. Are there any schools (K-12) within 1000 feet of the facility property line? (•) No ( ) Yes

Section F - Authorization/Signature

I hereby certify that all information contained herein and information submitted with this application are true and correct.

17. Signature of Responsible Official: [signature]

18. Title of Responsible Official: Director of Maintenance

19. I wish to review the permit prior to issuance. (This may cause a delay in the application process.) ( ) No (•) Yes

20. Print Name: Timothy Burkhart

21. Date: 11/15/2011

22. Do you claim confidentiality of data? (If Yes, see instructions.) (•) No ( ) Yes

23. Check List: [X] Authorized Signature/Date [X] Form 400-CEQA [ ] Supplemental Form(s) (ie., Form 400-E-xx) [X] Fees Enclosed

Diamond Bar, California 91765-4178

Subject: Comments on Draft Title V Permit
Magic Mountain LLC
Facility ID # 025513

Dear Mr. Mandilawi:

Magic Mountain, LLC, formerly known as Six Flags Themes Parks Inc., has reviewed the draft Title V permit submitted to us on 18 August 2011. Attached is a list of suggested changes to the permit. In addition, as requested, we have attached a new Form 500-A2 and 500-C1. Form 500-C2 is not applicable.

If you have any questions, please contact me or our consultant, Raymond E. Ouellette with Kennedy/Jenks Consultants at (949) 261-1577.

Very truly yours,

Magic Mountain, LLC

Thomas F. Edgar
Director of Administration

Enclosures: Forms 500-A2, 500-C1 and comments

cc: Raymond E. Ouellette, Kennedy/Jenks Consultants 2355 Main Street, Suite 140, Irvine, CA 92614-4290

Comments on Draft Title V Permit for Magic Mountain LLC
Facility ID 25513

The legal name of the facility has been changed from Six Flags Themes Parks Inc, Six Flags Magic Mountain to Magic Mountain LLC. As such, all references in the new permit should be changed to reflect the current legal name of the owner/operator.

Title V Permit Summary Page

- The company name should reflect Magic Mountain LLC as stated above
- The equipment location zip code should be 91355-1095

The Statement of Basis Page

- The company name should reflect Magic Mountain LLC as stated above
- The equipment location zip code should be 91355-1095
- Last paragraph of Section 1, the equipment location zip code should be 91355-1095

Title Page

- The company name should reflect Magic Mountain LLC as stated above

Section A, Page 1

- The Title of the Contact person is: Director of Administration
- The Title V permit issued date should be replaced with the final issue date
- The Title V permit expiration date should be replaced with the final expiration date

Section D, Page 3

- Condition 2 and 3 appear to be contradictory. It is our understanding that only condition 2 will be enforced.

Appendix B, Page 5

- VOC Limits Table appears to be duplicate of the VOC Limits Table shown on Appendix B, Page 4. The VOC Limits Table on Page 5 should be deleted.

Section I - Operator Information

1. **Facility Name** (Business Name of Operator That Appears On Permit): Magic Mountain LLC

2. **Valid AQMD Facility ID** (Available On Permit Or Invoice Issued By AQMD): 025513

3. **This Certification is submitted with a** (Check one):
   - a. ○ Title V Application (Initial, Revision or Renewal)
   - b. ◉ Supplement/Correction to a Title V Application
   - c. ○ MACT Part 1

4. **Is Form 500-C2 included with this Certification?** ○ Yes ○ No

Section II - Responsible Official Certification Statement

*Read each statement carefully and check each that applies – **You must check 3a or 3b.***

1. **For Initial, Permit Renewal, and Administrative Application Certifications:**
   - a. ○ The facility, including equipment that are exempt from written permit per Rule 219, is currently operating and will continue to operate in compliance with all applicable requirement(s) identified in Section II and Section III of Form 500-C1,
     - i. ☐ except for those requirements that do not specifically pertain to such devices or equipment and that have been identified as "Remove" on Section III of Form 500-C1.
     - ii. ☐ except for those devices or equipment that have been identified on the completed and attached Form 500-C2 that will not be operating in compliance with the specified applicable requirement(s).
   - b. ○ The facility, including equipment that are exempt from written permit per Rule 219, will meet in a timely manner, all applicable requirements with future effective dates.
2. **For Permit Revision Application Certifications:**
   - a. ☐ The equipment or devices to which this permit revision applies, will in a timely manner comply with all applicable requirements identified in Section II and Section III of Form 500-C1.
3. **For MACT Hammer Certifications:**
   - a. ○ The facility is subject to Section 112(j) of the Clean Air Act (Subpart B of 40 CFR part 63), also known as the MACT "hammer." The following information is submitted with a Title V application to comply with the Part 1 requirements of Section 112(j).
   - b. ○ The facility is not subject to Section 112(j) of the Clean Air Act (Subpart B of 40 CFR part 63).

Section III - Authorization/Signature

I certify under penalty of law that I am the responsible official for this facility as defined in AQMD Regulation XXX and that based on information and belief formed after reasonable inquiry, the statement and information in this document and in all attached application forms and other materials are true, accurate, and complete.

1. Signature of Responsible Official:	2. Title of Responsible Official: Park President
3. Print Name: Bonnie Rabjohn	4. Date: 09/07/2011
5. Phone #: (661) 255-4512	6. Fax #: (661) 255-4891

7. **Address of Responsible Official:**

Street #	City	State	Zip
26101 Magic Mountain Parkway	Valencia	CA	91355-1095

Acid Rain Facilities Only: Please Complete Section IV

© South Coast Air Quality Management District. Form 500-A2 (2009.04)

Acid Rain facilities must certify their compliance status of the devices subject to applicable requirements under Title IV by an individual who meets the definition of Designated (or Alternate) Representative in 40 CFR Part 72.

Section IV - Designated Representative Certification Statement	
For Acid Rain Facilities Only: I am authorized to make this submission on behalf of the owners and operators of the affected source or affected units for which the submission is made. I certify under penalty of law that I have personally examined, and am familiar with, the statements and information submitted in this document and all its attachments. Based on my inquiry of those individuals with primary responsibility for obtaining the information, I certify that the statements and information are to the best of my knowledge and belief true, accurate, and complete. I am aware that there are significant penalties for submitting false statements and information or omitting required statements and information, including the possibility of fine or imprisonment.	
1. Signature of Designated Representative or Alternate:	2. Title of Designated Representative or Alternate:
3. Print Name of Designated Representative or Alternate:	4. Date:
5. Phone #:	6. Fax #:
7. Address of Designated Representative or Alternate:	

Street #	City	State	Zip
		CA

South Coast Air Quality Management District

Form 500-C1

Title V Compliance Status Report

To provide the compliance status of your facility with applicable federally enforceable requirements and identify other local-only requirements, complete this form and attach it to a completed compliance certification Form 500-A2. As appropriate, all submittals of Form 500-C2 as appropriate should also be attached to this form.

Mail To:
SCAQMD
P.O. Box 4944
Diamond Bar, CA 91765-0944

Tel: (909) 396-3385
www.aqmd.gov

Section I - Operator Information

1. Facility Name (Business Name of Operator That Appears On Permit):
Six Flags Magic Mountain & Hurricane Harbor

2. Valid AQMD Facility ID (Available On Permit Or Invoice Issued By AQMD): 025513

PROCEDURES FOR DETERMINING COMPLIANCE STATUS

1. **Equipment verification:** Review the list of pending applications, and either the preliminary Title V facility permit or the list of current permits to operate that the AQMD provided you, to determine if they completely and accurately describe all equipment operating at the facility. Attach a statement to describe any discrepancies.
2. **Identify applicable requirements*:** Use the checklist in Section II to identify all applicable and federally-enforceable local, state, and federal rules and regulations, test methods, and monitoring, recordkeeping and reporting (MRR) requirements that apply to any equipment or process (including equipment exempt from a permit by Rule 219) at your facility.
   The potential applicable requirements, test methods and MRR requirements are identified and listed adjacent to each given equipment/process description. Check off each box adjacent to the corresponding requirement as it applies to your particular equipment/process.
   Note: Even if there is only one piece of equipment that is subject to a particular requirement, the appropriate box should be checked.
3. **Identify additional applicable requirements*:** Use Section III to identify any additional requirements not found in Section II. Section II is not a complete list of all applicable requirements. It does not include recently adopted NESHAP regulations by EPA or recent amendments to AQMD rules. Do not add rules listed in Section V here.
4. **Identify any requirements that do not apply to a specific piece of equipment or process:** Also use Section III to identify any requirements that are listed in Section II but that do not apply to a specific piece of equipment or process. Fill out Section III of this form and attach a separate sheet to explain the reason(s) why the identified rules do not apply. Note: Listing any requirement that does not apply to a specific piece of equipment will not provide the facility with a permit shield unless one is specifically requested by completing Form 500-D and is approved by AQMD.
5. **Identify SIP-approved rules that are not current AQMD rules:** Use Section IV to identify older versions of current AQMD rules that are the EPA-approved versions in the State Implementation Plan (SIP), and that are still applicable requirements as defined by EPA. The facility is not required to certify compliance with the items checked in Section IV provided that the non-SIP approved rule in Section II is at least as stringent as the older SIP-approved version in Section IV. **
6. **Identify Local-Only Enforceable Regulatory Requirements:** Use Section V to identify AQMD rules that are not SIP-approved and are not federally enforceable.
7. **Determine compliance:** Determine if all equipment and processes are complying with all requirements identified in Sections II and III. If each piece of equipment complies with all applicable requirements, complete and attach Form 500-A2 to certify the compliance status of the facility. If any piece of equipment is not in compliance with any of the applicable requirements, complete and attach Form 500-C2 in addition to Form 500-A2.

* The following AQMD rules and regulations are not required to be included in Section II and do not have to be added to Section III: Regulation I, List and Criteria in Regulation II, Rule 201, Rule 201.1, Rule 202, Rule 203, Rule 205, Rule 206, Rule 207, Rule 208, Rule 209, Rule 210, Rule 212, Rule 214, Rule 215, Rule 216, Rule 217, Rule 219, Rule 220, Rule 221, Regulation III, Regulation V, Regulation VIII, Regulation XII, Regulation XV, Regulation XVI, Regulation XIX, Regulation XXI, Regulation XXII, and Regulation XXX.

** Emission units adversely affected by the gap between current and SIP-approved versions of rules may initially be placed in a non-Title V portion of the permit

Section III - Supplemental Identification of Specific Requirements

Complete this section only if there is a specific requirement (i.e., rule reference, test method, or MRR requirement) that is:

1. Listed for a specific type of equipment or process in Section II of this form & **DOES NOT** pertain to a specific device at your facility*; OR,
2. Is **NOT** Listed for a specific type of equipment or process in Section II of this form but it **IS** applicable to a specific device at your facility.

NOTES:

1. For any specific requirement, test method, or MRR requirement that is identified as "Remove," attach additional sheets to explain the reasons why the specific requirement does not pertain to the device listed.
2. All boxes that are checked in Section II and any additional requirements identified in this section as "Add" will be used to determine the facility's compliance status. This information will be used to verify the certification statements made on Form 500-A2.
3. Do not use this section to identify equipment that is exempt from specific rule requirements. Your equipment is automatically considered to be in compliance with the rule that specifically exempts the equipment from those requirements.
4. Listing any requirement that does not apply to a specific piece of equipment in this section will not provide the facility with a permit shield unless one is specifically requested by completing Form 500-D and approved by the AQMD.

* If this section is completed as part of the initial Title V application & there is no device number assigned, refer to the existing permit or application number in this column.

South Coast Air Quality Management District

Form 400-CEQA
California Environmental Quality Act (CEQA) Applicability

Mail To:
SCAQMD
P.O. Box 4944
Diamond Bar, CA 91765-0944

Tel: (909) 396-3385
www.aqmd.gov

The SCAQMD is required by state law, the California Environmental Quality Act (CEQA), to review discretionary permit project applications for potential air quality and other environmental impacts. This form is a screening tool to assist the SCAQMD in clarifying whether or not the project[1] has the potential to generate significant adverse environmental impacts that might require preparation of a CEQA document [CEQA Guidelines §15060(a)].[2] Refer to the attached instructions for guidance in completing this form.[3] For each Form 400-A application, also complete and submit one Form 400-CEQA. If submitting multiple Form 400-A applications for the same project at the same time, only one 400-CEQA form is necessary for the entire project. If you need assistance completing this form, contact Permit Services at (909) 396-3385 or (909) 396-2668

Section A - Facility Information

1. Facility Name (Business Name of Operator To Appear On The Permit): Six Flags Magic Mountain & Hurricane Harbor

2. Valid AQMD Facility ID (Available On Permit Or Invoice Issued By AQMD): 025513

3. Project Description: Renewal of Title V Permit

Section B - Review For Exemption From Further CEQA Action

Check "Yes" or "No" as applicable

	Yes	No	Is this application for:
1.	○	◉	**A CEQA and/or NEPA document previously or currently prepared that specifically evaluates this project?** If yes, attach a copy of the signed Notice of Determination to this form.
2.	○	◉	**A request for a change of permittee only (without equipment modifications)?**
3.	○	◉	**A functionally identical permit unit replacement with no increase in rating or emissions?**
4.	○	◉	**A change of daily VOC permit limit to a monthly VOC permit limit?**
5.	○	◉	**Equipment damaged as a result of a disaster during state of emergency?**
6.	◉	○	**A Title V** (i.e., Regulation XXX) **permit renewal (without equipment modifications)?**
7.	○	◉	**A Title V administrative permit revision?**
8.	○	◉	**The conversion of an existing permit into an initial Title V permit?**

If "Yes" is checked for any question in Section B, your application does not require additional evaluation for CEQA applicability. Skip to Section D - Signatures on page 2 and sign and date this form.

Section C - Review of Impacts Which May Trigger CEQA

Complete Parts I-VI by checking "Yes" or "No" as applicable. To avoid delays in processing your application(s), explain all "Yes" responses on a separate sheet and attach it to this form.

	Yes	No	Part I - General
1.	○	○	**Has this project generated any known public controversy regarding potential adverse impacts that may be generated by the project?** Controversy may be construed as concerns raised by local groups at public meetings; adverse media attention such as negative articles in newspapers or other periodical publications, local news programs, environmental justice issues, etc.
2.	○	○	**Is this project part of a larger project?** If yes, attach a separate sheet to briefly describe the larger project.
			Part II - Air Quality
3.	○	○	**Will there be any demolition, excavating, and/or grading construction activities that encompass an area exceeding 20,000 square feet?**
4.	○	○	**Does this project include the open outdoor storage of dry bulk solid materials that could generate dust?** If Yes, include a plot plan with the application package.

[1] A "project" means the whole of an action which has a potential for resulting in physical change to the environment, including construction activities, clearing or grading of land, improvements to existing structures, and activities or equipment involving the issuance of a permit. For example, a project might include installation of a new, or modification of an existing internal combustion engine, dry-cleaning facility, boiler, gas turbine, spray coating booth, solvent cleaning tank, etc.

[2] To download the CEQA guidelines, visit http://ceres.ca.gov/env_law/state.html.

[3] To download this form and the instructions, visit http://www.aqmd.gov/ceqa or http://www.aqmd.gov/permit

© South Coast Air Quality Management District, Form 400-CEQA (2009.04)

Section C - Review of Impacts Which May Trigger CEQA (cont.)			
	Yes	No	Part II - Air Quality (cont.)
5.	☐	☐	**Would this project result in noticeable off-site odors from activities that may not be subject to SCAQMD permit requirements?** For example, compost materials or other types of greenwaste (i.e., lawn clippings, tree trimmings, etc.) have the potential to generate odor complaints subject to Rule 402 – Nuisance
6.	☐	☐	**Does this project cause an increase of emissions from marine vessels, trains and/or airplanes?**
7.	☐	☐	**Will the proposed project increase the QUANTITY of hazardous materials stored aboveground onsite or transported by mobile vehicle to or from the site by greater than or equal to the amounts associated with each compound on the attached Table 1?[4]**
			Part III – Water Resources
8.	☐	☐	**Will the project increase demand for water at the facility by more than 5,000,000 gallons per day?** The following examples identify some, but not all, types of projects that may result in a "yes" answer to this question: 1) projects that generate steam. 2) projects that use water as part of the air pollution control equipment; 3) projects that require water as part of the production process; 4) projects that require new or expansion of existing sewage treatment facilities; 5) projects where water demand exceeds the capacity of the local water purveyor to supply sufficient water for the project; and 6) projects that require new or expansion of existing water supply facilities.
9.	☐	☐	**Will the project require construction of new water conveyance infrastructure?** Examples of such projects are when water demands exceed the capacity of the local water purveyor to supply sufficient water for the project, or require new or modified sewage treatment facilities such that the project requires new water lines, sewage lines, sewage hook-ups, etc
			Part IV – Transportation/Circulation
10.			**Will the project result in** (Check all that apply):
	☐	☐	**a. the need for more than 350 new employees?**
	☐	☐	**b. an increase in heavy-duty transport truck traffic to and/or from the facility by more than 350 truck round-trips per day?**
	☐	☐	**c. increase customer traffic by more than 700 visits per day?**
			Part V – Noise
11.	☐	☐	**Will the project include equipment that will generate noise GREATER THAN 90 decibels (dB) at the property line?**
			Part VI – Public Services
12.			**Will the project create a permanent need for new or additional public services in any of the following areas** (Check all that apply):
	☐	☐	**a. Solid waste disposal?** Check "No" if the projected potential amount of wastes generated by the project is less than five tons per day.
	☐	☐	**b. Hazardous waste disposal?** Check "No" if the projected potential amount of hazardous wastes generated by the project is less than 42 cubic yards per day (or equivalent in pounds).

***REMINDER**: For each "Yes" response in Section C, attach all pertinent information including but not limited to estimated quantities, volumes, weights, etc.**

Section D - Signatures

I HEREBY CERTIFY THAT ALL INFORMATION CONTAINED HEREIN AND INFORMATION SUBMITTED WITH THIS APPLICATION IS TRUE AND CORRECT TO THE BEST OF MY KNOWLEDGE. I UNDERSTAND THAT THIS FORM IS A SCREENING TOOL AND THAT THE SCAQMD RESERVES THE RIGHT TO CONSIDER OTHER PERTINENT INFORMATION IN DETERMINING CEQA APPLICABILITY.

Form 500-A2
Title V Application Certification

Mail To:
SCAQMD
P.O. Box 4944
Diamond Bar, CA 91765-0944

Tel: (909) 396-3385
www.aqmd.gov

Section I - Operator Information

1. Facility Name (Business Name of Operator That Appears On Permit): Six Flags Magic Mountain & Hurricane Harbor

2. Valid AQMD Facility ID (Available On Permit Or Invoice Issued By AQMD): 025513

3. This Certification is submitted with a (Check one)
- a. (●) Title V Application (Initial, Revision or Renewal)
- b. ( ) Supplement/Correction to a Title V Application
- c. ( ) MACT Part 1

4. Is Form 500-C2 included with this Certification? ( ) Yes (●) No

Section II - Responsible Official Certification Statement

*Read each statement carefully and check each that applies – **You must check 3a or 3b.***

1. For Initial, Permit Renewal, and Administrative Application Certifications:

a. ( ) The facility, including equipment that are exempt from written permit per Rule 219, is currently operating and will continue to operate in compliance with all applicable requirement(s) identified in Section II and Section III of Form 500-C1,

i. [ ] except for those requirements that do not specifically pertain to such devices or equipment and that have been identified as "Remove" on Section III of Form 500-C1.

ii. [ ] except for those devices or equipment that have been identified on the completed and attached Form 500-C2 that will not be operating in compliance with the specified applicable requirement(s).

b. (●) The facility, including equipment that are exempt from written permit per Rule 219, will meet in a timely manner, all applicable requirements with future effective dates.

2. For Permit Revision Application Certifications:

a. [ ] The equipment or devices to which this permit revision applies, will in a timely manner comply with all applicable requirements identified in Section II and Section III of Form 500-C1.

3. For MACT Hammer Certifications:

a. ( ) The facility is subject to Section 112(j) of the Clean Air Act (Subpart B of 40 CFR part 63), also known as the MACT "hammer." The following information is submitted with a Title V application to comply with the Part 1 requirements of Section 112(j).

b. (●) The facility is not subject to Section 112(j) of the Clean Air Act (Subpart B of 40 CFR part 63).

Section III - Authorization/Signature

I certify under penalty of law that I am the responsible official for this facility as defined in AQMD Regulation XXX and that based on information and belief formed after reasonable inquiry, the statement and information in this document and in all attached application forms and other materials are true, accurate, and complete.

1. Signature of Responsible Official:	2. Title of Responsible Official:
Timothy Burkhart	Director of Maintenance
3. Print Name:	**4. Date:**
Timothy Burkhart	11/15/2011
5. Phone #:	**6. Fax #:**
(661) 255-4710	(661) 255-4895

7. Address of Responsible Official:

Street #	City	State	Zip
26101 Magic Mountain Parkway	Valencia	CA	91355

Acid Rain Facilities Only: Please Complete Section IV

© South Coast Air Quality Management District, Form 500-A2 (2009.04)

Acid Rain facilities must certify their compliance status of the devices subject to applicable requirements under Title IV by an individual who meets the definition of Designated (or Alternate) Representative in 40 CFR Part 72.

Section IV - Designated Representative Certification Statement	
For Acid Rain Facilities Only: I am authorized to make this submission on behalf of the owners and operators of the affected source or affected units for which the submission is made. I certify under penalty of law that I have personally examined, and am familiar with, the statements and information submitted in this document and all its attachments. Based on my inquiry of those individuals with primary responsibility for obtaining the information, I certify that the statements and information are to the best of my knowledge and belief true, accurate, and complete. I am aware that there are significant penalties for submitting false statements and information or omitting required statements and information, including the possibility of fine or imprisonment.	
1. Signature of Designated Representative or Alternate:	2. Title of Designated Representative or Alternate:
3. Print Name of Designated Representative or Alternate:	4. Date:
5. Phone #:	6. Fax #:
7. Address of Designated Representative or Alternate: Street # / City / CA / State / Zip	

South Coast Air Quality Management District

Form 500-B
Title V List of Exempt Equipment

Mail To:
SCAQMD
P.O. Box 4944
Diamond Bar, CA 91765-0944
Tel: (909) 396-3385
www.aqmd.gov

Use this form for all application submittals requesting an initial Title V permit or permit renewal. If you are applying for a permit revision, you may also use this form to have your exempt equipment listing updated prior to renewing your permit.

This form is designed to summarize all of the equipment at a facility that is exempt per SCAQMD Rule 219 from SCAQMD permit requirements (e.g., I.C. Engines ≤ 50 BHP, Boilers < 2 MM BTU/hr etc.). This equipment can be listed according to category. However, if there is a specific device that is vented to control equipment, then the equipment must be listed separately. Trivial activities listed on the back of this form or the Technical Guidance Document do not have to be listed on this form. Note: If your facility is in the RECLAIM program, it is not necessary to repeat any equipment currently listed in Appendix A of the RECLAIM permit.

Section I - Operator Information

1. Facility Name (Business Name of Operator That Appears On Permit): Six Flags Magic Mountain & Hurricane Harbor

2. Valid AQMD Facility ID (Available On Permit Or Invoice Issued By AQMD): 025513

3. Check box if facility is in RECLAIM program: ☐

4. Provide Current Permit Issue Date: 07/27/2006 **5. Permit Revision No.:** 4

Section II - Summary of Equipment Exempt from Permit Requirements (Including Portable)

Exempt Equipment Description [e.g., Small Boilers (75,000 BTU/hr-2,000,000 BTU/hr)]	Venting to Control (Device# or Application#)	Control Device Description	Basis for Exemption [e.g., Rule 219 (b)(2), 05/19/00]	Source Specific Rule [e.g., Rule 1146.2]
Coating Equipment, Portable, Arch	None	None	Rule 219(l)(9)	Rule 1113,1171
Hand Wiping Operations	None	None	Rule 219(o)(4)	Rule 1171
Water Heater	None	None	Rule 219(b)(2)	407, 409,1146.2
Comfort Air Conditioning	None	None	Rule 219(d)(1)	Rule 1415
Refrigerant Units	None	None	Rule 219(d)(2)	Rule 1415
Refrigerant Recycling Equipment	None	None	Rule 219(d)(11)	Rule 1415
Abrasive Blasting Equipment	None	None	Rule 219(f)(2)	404,405,1140
Hand Lay/Brush On Resin	None	None	Rule 219(l)(10)	Rule1162,1171
11 Charbroilers & 7 Grills	None	None	Rule 219(i)(5)	Rule 1138
3 portable Light Towers w/ICE	None	None	Rule 219(b)(1)	404, 1110.2

South Coast Air Quality Management District

Form 500-C1

Title V Compliance Status Report

To provide the compliance status of your facility with applicable federally enforceable requirements and identify other local-only requirements, complete this form and attach it to a completed compliance certification Form 500-A2. As appropriate, all submittals of Form 500-C2 as appropriate should also be attached to this form.

Mail To:
SCAQMD
P.O. Box 4944
Diamond Bar, CA 91765-0944

Tel (909) 396-3385
www.aqmd.gov

Section I - Operator Information

1. Facility Name (Business Name of Operator That Appears On Permit):
Six Flags Magic Mountain & Hurricane Harbor

2. Valid AQMD Facility ID (Available On Permit Or Invoice Issued By AQMD):
025513

PROCEDURES FOR DETERMINING COMPLIANCE STATUS

1. **Equipment verification:** Review the list of pending applications, and either the preliminary Title V facility permit or the list of current permits to operate that the AQMD provided you, to determine if they completely and accurately describe all equipment operating at the facility. Attach a statement to describe any discrepancies.
2. **Identify applicable requirements*:** Use the checklist in Section II to identify all applicable and federally-enforceable local, state, and federal rules and regulations, test methods, and monitoring, recordkeeping and reporting (MRR) requirements that apply to any equipment or process (including equipment exempt from a permit by Rule 219) at your facility.
   The potential applicable requirements, test methods and MRR requirements are identified and listed adjacent to each given equipment/process description. Check off each box adjacent to the corresponding requirement as it applies to your particular equipment/process.
   Note: Even if there is only one piece of equipment that is subject to a particular requirement, the appropriate box should be checked.
3. **Identify additional applicable requirements*:** Use Section III to identify any additional requirements not found in Section II. Section II is not a complete list of all applicable requirements. It does not include recently adopted NESHAP regulations by EPA or recent amendments to AQMD rules. Do not add rules listed in Section V here.
4. **Identify any requirements that do not apply to a specific piece of equipment or process:** Also use Section III to identify any requirements that are listed in Section II but that do not apply to a specific piece of equipment or process. Fill out Section III of this form and attach a separate sheet to explain the reason(s) why the identified rules do not apply. Note: Listing any requirement that does not apply to a specific piece of equipment will not provide the facility with a permit shield unless one is specifically requested by completing Form 500-D and is approved by AQMD.
5. **Identify SIP-approved rules that are not current AQMD rules:** Use Section IV to identify older versions of current AQMD rules that are the EPA-approved versions in the State Implementation Plan (SIP), and that are still applicable requirements as defined by EPA. The facility is not required to certify compliance with the items checked in Section IV provided that the non-SIP approved rule in Section II is at least as stringent as the older SIP-approved version in Section IV. **
6. **Identify Local-Only Enforceable Regulatory Requirements:** Use Section V to identify AQMD rules that are not SIP-approved and are not federally enforceable.
7. **Determine compliance:** Determine if all equipment and processes are complying with all requirements identified in Sections II and III. If each piece of equipment complies with all applicable requirements, complete and attach Form 500-A2 to certify the compliance status of the facility. If any piece of equipment is not in compliance with any of the applicable requirements, complete and attach Form 500-C2 in addition to Form 500-A2.

* The following AQMD rules and regulations are not required to be included in Section II and do not have to be added to Section III: Regulation I, List and Criteria in Regulation II, Rule 201, Rule 201.1, Rule 202, Rule 203, Rule 205, Rule 206, Rule 207, Rule 208, Rule 209, Rule 210, Rule 212, Rule 214, Rule 215, Rule 216, Rule 217, Rule 219, Rule 220, Rule 221, Regulation III, Regulation V, Regulation VIII, Regulation XII, Regulation XV, Regulation XVI, Regulation XIX, Regulation XXI, Regulation XXII, and Regulation XXX.

** Emission units adversely affected by the gap between current and SIP-approved versions of rules may initially be placed in a non-Title V portion of the permit

KEY ABBREVIATIONS: **Reg.** = AQMD Regulation; **Rule** = AQMD Rule; **App.** = Appendix; **AQMD TM** = AQMD Test Method; **CFR** = Code of Federal Regulations; **CCR** = California Code of Regulations

Section III - Supplemental Identification of Specific Requirements

Complete this section only if there is a specific requirement (i.e., rule reference, test method, or MRR requirement) that is:

1. Listed for a specific type of equipment or process in Section II of this form & **DOES NOT** pertain to a specific device at your facility*; OR,
2. Is **NOT** Listed for a specific type of equipment or process in Section II of this form but it **IS** applicable to a specific device at your facility.

NOTES:

1. For any specific requirement, test method, or MRR requirement that is identified as "Remove," attach additional sheets to explain the reasons why the specific requirement does not pertain to the device listed.
2. All boxes that are checked in Section II and any additional requirements identified in this section as "Add" will be used to determine the facility's compliance status. This information will be used to verify the certification statements made on Form 500-A2.
3. Do not use this section to identify equipment that is exempt from specific rule requirements. Your equipment is automatically considered to be in compliance with the rule that specifically exempts the equipment from those requirements.
4. Listing any requirement that does not apply to a specific piece of equipment in this section will not provide the facility with a permit shield unless one is specifically requested by completing Form 500-D and approved by the AQMD.

* If this section is completed as part of the initial Title V application & there is no device number assigned, refer to the existing permit or application number in this column.

South Coast Air Quality Management District

Form 500-H
Title V - Compliance Assurance Monitoring (CAM) Applicability Determination for Initial, Renewal, & Significant Permit Revision

This form is required as part of an initial, significant permit revision, or renewal Title V application. If your Title V facility has control devices in use, the CAM rule may apply. Follow the instructions on the reverse side of this form to determine whether your facility is subject to CAM requirements.

Mail To:
SCAQMD
P.O Box 4944
Diamond Bar, CA 91765-0944

Tel: (909) 396-3385
www.aqmd.gov

Section I - Operator Information

1. Facility Name (Business Name of Operator That Appears On Permit):
Six Flags Magic Mountain & Hurricane Harbor

2. Valid AQMD Facility ID (Available On Permit Or Invoice Issued By AQMD)
025513

Section II - CAM Status Summary for Emission Units

3. Based on the criteria in the Instructions (check one and attach additional pages as necessary):

a. ☐ The emission units identified below are subject to the CAM rule[1] and a CAM plan[2] is attached for each affected emissions unit.

b. ☑ There are no emission units with control devices at this Title V facility that are subject to the CAM rule.

Emission Unit[3] (Application, Permit or Device No.)	Equipment Description[4]	Uncontrolled Emissions		Connected to Control Unit[3] (Application, Permit or Device No.)	Equipment Description[4]	Controlled Emissions	
		Pollutant	PTE[5] (tons/year)			Pollutant	PTE[5] (tons/year)

1 For more detailed information regarding the CAM rule applicability, refer to Title 40, Chapter I, Part 64, Section 64.1 of the Code of Federal Regulations (40 CFR Part 64, Section 64.1). This also can be accessed via the Internet at: http://www.access.gpo.gov/nara/cfr/waisidx_99/40cfr64_99.html.

2 Only one CAM plan is required for a control device that is common to more than one emissions unit, or if an emissions unit is controlled by more than one control device similar in design and operation. If the control devices are not similar in design and operation, one plan is required for each control device.

3 List all new and existing emission units and the connected control devices either by AQMD application, permit or device number. When the emission unit is new and has not yet been assigned an application number, leave this column blank.

4 Provide a brief equipment description of the emission units and control devices by indicating equipment type, make, and model and serial numbers as appropriate.

5 Potential to Emit

Facility ID: 25513
Regarding: Penalty Payments

To whom it may concern,

Enclosed are two checks for facility ID 25513. Please reference the AR transaction printout that is attached. Check number 273807, in the amount of $10.09, is for a penalty fee from the enclosed invoice 2075699. Check number 273808, in the amount of $12.11, is for unpaid fees. Also we are returning our Title V permit application, tracking number 518155, for processing. Please feel free to contact me if there are any further questions.

Cordially,

Tom Edgar
Director of Administration
Six Flags Magic Mountain

RE: Application Tracking Number(s) 518155

Facility ID: 25513

Thank you for filing your permit application(s) with the South Coast Air Quality Management District. Your application(s) and processing fee payment (if any) are being returned because of delinquent fees pursuant to Rule 301 - Permit Fees (c)(1)(A), (c)(2)(C), (c)(3), (o)(5), (o)(6), (o)(7), or (p)(2). Rule 301 - Permit Fees requires that all delinquent fees associated with a facility be paid before any application can be accepted.

The South Coast Air Quality Management cannot accept your application(s) until you:

1) Call our **Customer Service Section** to determine the nature of the fees that must be paid prior to accepting your application(s). The toll free number is (866) 888-8838. Outside California, call (909) 396-2900. Please reference Facility ID Number 25513. Then,

2) Return the application(s), the permit processing fee for the application(s), and [a] **separate payment for all outstanding fees to:**

South Coast AQMD
P.O. Box 4944
Diamond Bar, CA 91765

In addition, please submit the requested information listed below:

Other Reasons:

Application and check returned due to unpaid fees. See attached copy of A/R print-out. Should you have questions regarding this fee, contact Billing Services at 909-396-2900. Resubmit the appliction folder with original check for the filing fee and a separate payment for the unpaid fees. Thank you.

Following these instructions is the fastest, most efficient way to get your application(s) accepted by South Coast AQMD.

Subject: Title V Permit Renewal Application
Facility ID Number: 0025513
Title V Permit Issued: July 27, 2006
Title V Permit Expiration Date: July 26, 2011

Dear Hamid:

Enclosed are Six Flags Magic Mountain, LLC's Title V Permit Renewal Application and our check No.272950 in the amount of $1,956.84. The Title V Permit Renewal Application contains all of the forms identified on the Title V Renewal Checklist as well as supporting information for the renewal application. If you have any questions about this submittal please contact our consultant Mr. Raymond E. Ouellette, CPP #B6015 at (949) 261-1577 or me at ((661) 255-4850.

Very truly yours,

Six Flags Magic Mountain and Hurricane Harbor

Thomas F. Edgar,
Director of Administration

Section 1: Overview

Six Flags Themes Parks Inc, Six Flags Magic Mountain (SFMM) has a Title V permit. In 2010, the company reorganized and was restructured. The resulting company name is Magic Mountain LLC and they are the legal owner of Six Flags Magic Mountain and Hurricane Harbor located at 26101 Magic Mountain Parkway, Valencia, California 91355-1095. The facility's Title V permit, which was issued on 27 July 2006, will expire on 26 July 2011. This application is for renewal of the SFMM Title V permit.

Kennedy/Jenks Consultants (Kennedy/Jenks) as a consultant to SFMM has been commissioned to prepare this Title V permit Renewal application.

A general description of the existing facility follows.

1.1 Project Location and Facility Description

The project is located at 26101 Magic Mountain Parkway, Valencia, CA 91355-1095. See Figure 1 for a location map.

1.2 General Process Description

SFMM is a Theme Park. SFMM provides entertainment and food services to its customers. It maintains the operating equipment and uses a number of processes to maintain and enhance the appearance of its facilities.

1.3 Background Information

1.3.1 Business Name and Mailing Address

Facility Owner	Permitting Consultant
Magic Mountain LLC P.O. Box 5500 Valencia, CA 91385	Kennedy/Jenks Consultants 2355 Main Street, Suite 140 Irvine, CA 92614-4290

1.3.2 Equipment and Facility Address

26101 Magic Mountain Parkway
Valencia, CA 91355-1095

1.3.3 SCAQMD Facility ID Number

The Facility ID number is 025513

1.3.4 Application Type

The facility is in the Title V program.

1.3.5 Reason for Application

The facility is renewing its existing Title V permit.

1.3.6 Estimated Start of Operation

The facility is currently in operation.

1.3.7 Type of Corporation

The facility is not considered a small business.

1.3.8 Identical Equipment

There is no identical equipment being submitted for permitting with this application.

1.3.9 Notice of Violation or Notice to Comply

The facility has not received a Notice of Violation. A Notice to Comply, #D 29043, was issued on 21 April 2010. A letter indicating the facility was in compliance and responding to the Notice to Comply was submitted to the SCAQMD on 3 May 2010. Copies of the NTC and letter are located in Appendix A, Miscellaneous Supporting Information.

1.3.10 Type of Business

The facility is a Theme Park.

1.3.11 NAICS Code

The facility NAICS Code is 713110

1.3.12 Person to Contact Regarding this Application

Responsible Official
Timothy Burkhart, Director of Maintenance
(661) 255-4710
(661) 255-4895 (fax)
tburkhar@sftp.com

Technical Contact
Thomas F. Edgar, Director of Administration
(661) 255-4850
(661) 255-4119 (fax)
tedgar@sftp.com

Permitting Consultant
Raymond E. Ouellette, CPP
Sr. Environmental Scientist
(949) 261-1577
(949) 261-2134 (fax)
rayouellette@kennedyjenks.com

1.3.13 Review of Permit

SFMM requests that the permit be reviewed prior to issuance.

1.3.14 Claim of Confidentiality of Data

SFMM does not claim that the information contained in this application is confidential.

1.3.15 Operating Schedule

The paint shop equipment at SFMM operates 5 days/week, 8 hrs/day and 52 weeks/year for the equipment permitted in the Title V.

The park, however, is open to the public for amusement purposes on a different schedule based on likely attendance, e.g. holiday schedules, spring break, and summer vacation. A schedule of the park operating times is located in Appendix A, Miscellaneous Supporting Information.

1.4 Forms Attached in Renewal Application

SFMM has provided the following SCAQMD forms in Appendix B:

- Form 400-A for Title V renewal
- Form 400-CEQA for the facility
- Form 500-A2, Title V Application Certification
- Form 500-B, Title V List of Exempt Equipment
- Form 500-C1, Title V Compliance Status Report
- Form 500-H, Title V Compliance Assurance Monitoring.

Section 2: Title V Equipment

SFMM operates the following equipment at their facility:

2.1 Title V Equipment

Application number	Permit to Operate Number	Equipment Description
201996	D18619	ICE (50-500 HP) Emergency Electrical Generator-Diesel
201997	D18620	ICE (50-500 HP) Emergency Electrical Generator-Diesel
201998	D21797	ICE (50-500 HP) Non-Emergency Portable Generator-Gasoline
214059	D25817	Spray equipment Open Architectural
214060	D25814	Spray equipment Open Architectural
214061	D17653	Abrasive Blasting (Open)
214062	D17700	Abrasive Blasting (Open)
313815	F3015	Spray Machine – Coating
339026	F15239	Storage Tank Hydrochloric Acid
339027	F15238	Storage Tank Hydrochloric Acid
349981	F34852	Service Station Storage & Dispensing Gasoline
379958	F44380	ICE (50-500 HP) Emergency Electrical Generator-Gasoline
420728	F64644	ICE (50-500 HP) Emergency Electrical Generator-Propane Gas
444980	N17810	Service Station Storage & Dispensing Gasoline
C29692	M12064	Spray Booth Paint and Solvent
C29693	M12063	Spray Booth Paint and Solvent
C29694	M12702	Spray Booth Paint and Solvent
C29695	M12704	Oven, Baking

No new permitted equipment is being added for this Title V renewal application.

However, Application Number 201997; Permit No.D18620 for one ICE, Cummins, Diesel-fueled Generator will be moved approximately 363 feet south of its current location. This change in location is completely within the facility. There is only a small agricultural area that is within the 1,000 foot perimeter of the unit. There are no schools or other sensitive receptors located within that zone. A drawing showing the current and proposed locations as well as the 1,000 foot buffer zone is shown in Figure 2.

2.2 Rule 219 Exempt Equipment

The following Rule 219 Exempt equipment is operated at the facility. This list is also contained on Form 500-B in Appendix B.

Exempt Equipment Description	Venting to Control	Control Device Description	Basis for Exemption	Source Specific Rule
Coating Equipment, Portable, Architectural	None	None	Rule 219(l)(9)	Rule 1113, Rule 1171
Hand Wiping operations	None	None	Rule 219(o)(4)	Rule 1171
Water Heater	None	None	Rule 219(b)(2)	Rule 409, Rule 1146.2, Rule 407
Comfort Air conditioning	None	None	Rule 219(d)(1)	Rule 1415
Refrigerant Units	None	None	Rule 219(d)(2)	Rule 1415
Refrigerant Recycling Equipment	None	None	Rule 219(d)(11)	Rule 1415
Abrasive Blasting Equipment, Glove Box Type	None	None	Rule 219(f)(2)	Rule 404, Rule 405, Rule 1140
Hand Lay/Brush on Resin	None	None	Rule 219(l)(10)	Rule 1162, Rule 1171
11 Charbroilers and 7 Grills	None	None	Rule 219(i)(5)	Rule 1138

Note 1: The existing Title V permit lists Halon Fire Extinguishing Equipment as Rule 219 exempt equipment. This equipment has been taken out of service and is in the process of being removed from the premises. As such, it is no longer functional or operational and is not being renewed as part of this permit renewal application.

Note 2: The existing Title V permit lists a 1.4 MMBTU/HR boiler as Rule 219 exempt equipment. This boiler was removed from the premises on 13 December 2006. A copy of the service invoice is provided in Appendix A, Miscellaneous Supporting Information. This equipment is no longer on the premises and is not being renewed as part of this permit renewal application.

Note 3: Three portable Light Towers powered by emergency ICE diesel-fueled generators will be added. Each of these generators is 19.5 HP and therefore a written permit is not required under Rule 219.

3 Portable Light Towers powered by emergency ICE diesel-fueled generators	None	None	Rule 219(b)(1)	Rule 404, Rule 1110.2

Section 3: Estimated Emissions

This section discusses the estimated emissions associated with operations at the facility.

3.1 Criteria Pollutants

SFMM submits Annual Emission Reports (AER) to SCAQMD. Based on the information presented in their AER reports, the following emissions occurred in 2008 and 2009.

	2008		2009	
Pollutant	Lbs/yr	Tons/yr	Lbs/yr	Tons/yr
CO	1372	0.686	1020	0.51
NOx	4456	2.228	3160	1.58
ROG	3988	1.994	4080	2.04
SOx	224	0.112	260	0.13
TSP	372	0.186	320	0.15

The TSP and ROG in the above calculations were based on emissions from fuel combustion and spray booths. The TSP and ROG emissions did not include emissions from Charbroilers or grills. Based on the amount of meat cooked, these emissions for 2009 were:

	2009	
Pollutant	Lbs/yr	Tons/yr
TSP	85.2	0.043
ROG	21.2	0.011

3.2 Toxic Pollutants

SFMM only generated deminimis quantities of toxic pollutants – primarily the result of combustion operations. The following data was obtained from the 2009 AER Report:

Pollutant ID	Pollutant Description	Annual Emissions Lb/yr
106990	1,3- Butadiene	0.108
7664417	Ammonia	342.816
7440382	Arsenic	<0.001
71432	Benzene	0.423
7440439	Cadmium	<0.001
56235	Carbon tetrachloride	<0.001
18540299	Chromium (VI)	<0.001

Pollutant ID	Pollutant Description	Annual Emissions Lb/yr
106934	Ethylene dibromide	<0.001
107062	Ethylene dichloride	<0.001
50000	Formaldehyde	1.105
7439921	Lead (inorganic)	0.002
75092	Methylene Chloride	<0.001
91203	Naphthalene	0.019
7440020	Nickel	0.001
1151	PAH, total, with components not reported	0.012
75014	Vinyl Chloride	<0.001

Using the above toxics data on the SCAQMD Air Toxics Screening Model resulted in the following calculations:

Parameter	Residential Exposure	Commercial Exposure
MICR	6.6 E -07 Pass	1.4 E -06 Pass
Acute HIA	Pass	Pass
Chronic HIA	Pass	Pass

The Air Toxics Screening Model calculation sheets are contained in Appendix C.

3.3 Conclusion

The levels of criteria pollutants and toxic pollutants identified above are not expected to be a concern regarding the renewal of this Title V permit.

Section 4: Regulatory Analysis

The following rules are applicable to the facility:

4.1 Regulation I – General Provisions

4.1.1 Rule 102, Definitions

Rule 102 provides the definitions that are applicable to the Rules enforced by the SCAQMD.

Analysis: SFMM is subject to the definitions found in this Rule.

4.1.2 Rule 109, Recordkeeping for VOC Emissions

Rule 109 provides for a method to organize recordkeeping for Volatile Organic Compound (VOC) emissions generated at the facility. Options are provided to the permittee for compliance with the required recordkeeping.

Analysis: SFMM is complying with Rule 109 regarding any necessary recordkeeping for VOC emissions generated as a result of the renewal of this Title V permit.

4.1.3 Rule 118, Emergencies

Rule 118 provides that the Executive Office may suspend any rule requirements in the case of a State or Federal Declaration of an emergency.

Analysis: The renewal of SFMM's Title V permit will not be affected by such an action if it should be invoked.

4.2 Regulation II - Permits

4.2.1 Rule 201, Permit to Construct

Rule 201 specifies that equipment which may emit air contaminants or that may control air contaminants may not be constructed without an Authority to Construct (ATC).

Analysis: SFMM is renewing its existing Title V permit and is not constructing or adding new equipment that requires an ATC.

4.2.2 Rule 202, Permit to Operate

Rule 202 provides that a Permit to Construct may be used as a temporary Permit to Operate (PTO) until a PTO is issued or denied.

Analysis: This application is for the renewal of an existing Title V permit. Rule 202 is applicable to SFMM along with other conditions imposed by the Title V program contained in Regulation XXX but is not constructing or adding new equipment.

4.2.3 Rule 204, Permit Conditions

Rule 204 specifies that the Executive Officer may impose permit conditions on the permittee provided the Executive Officer follows certain procedures.

Analysis: SFMM is subject to such permit conditions along with other conditions imposed by the Title V program contained in Regulation XXX.

4.2.4 Rule 212, Standards for Approving Permits and Issuing Public Notice

Rule 212 specifies the conditions required for approving permits and issuing public notices.

Analysis: SFMM equipment subject to the Title V program is not located within 1,000 feet of the outer boundary of a school or other sensitive receptor. Notification under this rule will not be required.

4.2.5 Rule 217, Facilities for Sampling and Testing

Rule 217 requires the permittee to make facilities available for sampling and testing to the SCAQMD, if requested.

Analysis: SFMM will make facilities available for sampling and testing, if requested.

4.2.6 Rule 219, Equipment Not Requiring a Written Permit Pursuant to Regulation 2

Rule 219 identifies equipment that is not required to obtain a written permit pursuant to Regulation II. Any equipment granted this exemption must otherwise comply with any requirement contained in a Rule specific to the type of equipment granted an exemption.

Analysis: SFMM is renewing its existing Title V permit. Section 2.2 of this report identifies the equipment subject to this rule that is included in the existing Title V permit. SFMM is adding three Light Towers powered by emergency diesel-fueled generators.

4.2.7 Rule 222, Filing Requirements for Specific Emission Sources Not Requiring a Written Permit Pursuant to Regulation II

Rule 222 provides an alternative to permits for emission sources that are exempt by Rule 219.

Analysis: At the SFMM facility, this rule potentially applies to its chain-driven Charbroilers. SFMM currently follows the requirements of Rule 1138 regarding its exempt Charbroilers regulated by this rule. The renewal of the SFMM Title V permit will not be affected by Rule 222.

4.3 Regulation III – Fees

4.3.1 Rule 301, Permit Fees

Rule 301 specifies the fees for permit processing.

Analysis: According to the online Fee Calculator, the fee associated with the renewal of an existing Title V permit is $1,956.84. See Appendix D for a calculation of the permit fee. A check in the amount of $1,956.84 is attached for the renewal fee.

4.3.2 Rule 304, Lab Testing Requirements and Fees

Rule 304 provides that the Executive Officer may require source tests of facilities that may be in violation of permit conditions and/or a threat to public health and safety. Under this rule, the Executive Officer can authorize either the District's staff or a third party lab to conduct these tests and to subsequently bill the permittee the fees for conducting the tests, if the results show that the permittee is not in compliance with the District's regulations.

Analysis: The renewal of this facility's Title V permit will not be affected by such an action if it should be invoked.

4.4 Regulation IV – Prohibitions

4.4.1 Rule 401, Visible Emissions

Rule 401 provides that visible emissions must be limited to no more than a Ringlemann No. 1 for a period of 3 minutes in any one hour and no more than a 20% opacity reading in the same time period.

Analysis: SFMM is complying with the requirements of this Rule.

4.4.2 Rule 402, Nuisance

Rule 402 provides that the permittee shall not discharge quantities of air contaminants to cause injury, detriment, nuisance, or annoyance. .

Analysis: SFMM is complying with the requirements of this Rule.

4.4.3 Rule 404, Particulate Matter – Concentration

Rule 404 provides that the permittee shall not discharge from any source, particulate matter in excess of 450 milligrams per cubic meter (0.196 grain per cubic foot) in discharged gas calculated as dry gas at standard conditions.

Analysis: SFMM is complying with the requirements of this Rule for its IC engines, spray booths and curing oven.

4.4.4 Rule 405, Solid Particulate Matter - Weight

Rule 405 provides that the permittee shall not discharge solid particulate matter from any source in excess of 0.23 kilogram (0.5 pound) per 907 kilograms (2000 pounds) of process weight.

Analysis: SFMM is complying with the requirements of this Rule for its Open Abrasive Blasting System operations and its glove-box Abrasive Blasting Unit.

4.4.5 Rule 407, Liquid and Gaseous Air Contaminants

Rule 407 provides that the permittee shall not discharge into the atmosphere from any equipment: (1) Carbon monoxide (CO) exceeding 2,000 ppm by volume measured on a dry basis, averaged over 15 consecutive minutes or (2) Sulfur compounds which would exist as liquid or gas at standard conditions, calculated as sulfur dioxide (SO_2) and averaged over 15 consecutive minutes, exceeding 500 ppm by volume.

Analysis: SFMM is complying with the requirements of this Rule for its water heater and boiler.

4.4.6 Rule 408, Circumvention

Rule 408 provides that the permittee shall not build, erect, install, or use any equipment to reduce or conceal any emission which would otherwise be a violation of these Rules.

Analysis: SFMM is complying with the requirements of this Rule.

4.4.7 Rule 409, Combustion Contaminants

Rule 409 provides that the permittee shall not burn fuels generating combustion contaminants exceeding 0.23 grams/cubic meter.

Analysis: SFMM is complying with the requirements of this Rule for its water heater.

4.4.8 Rule 430, Breakdown Provisions

Rule 430 provides steps to be taken in the event of a breakdown which results in a violation of a Rule or permit condition. This includes telephone notification, follow-up written notification and compliance with the regulations until repairs are completed.

Analysis: SFMM will comply with the requirements of this Rule.

4.4.9 Rule 431.1, Sulfur Content of Gaseous Fuels

Rule 431.1 provides that the burning of gaseous fuels such as natural gas in stationary sources shall contain no more than 16 ppm of sulfur.

Analysis: SFMM is complying with the requirements of this Rule.

4.4.10 Rule 431.2, Sulfur Content of Liquid Fuels

Rule 431.2 provides that liquid fuels such as diesel and other liquid fuels shall contain no more than 15 ppm of sulfur by weight.

Analysis: SFMM is complying with the requirements of this Rule regarding liquid fuels used in its IC Engines.

4.4.11 Rule 442, Usage of Solvents

Rule 442 applies to any person using VOC-containing materials or equipment that emit VOCs, and are not subject to VOC limits contained in any other Regulation XI rule.

Analysis: SFMM is complying with the requirements of this Rule.

4.4.12 Rule 461, Gasoline Transfer and Dispensing

Rule 461 applies to the transfer of gasoline from any tank truck or trailer into any stationary storage tank and from any stationary storage tank into any motor vehicle fuel tank.

Analysis: SFMM is complying with the requirements of this Rule.

4.4.13 Rule 481, Spray Coating Operations

Rule 481 applies to all spray painting and spray coating operations and equipment.

Analysis: SFMM is complying with the requirements of this Rule.

4.5 Regulation VII – Emergencies

4.5.1 Rule 701, Air Pollution Emergency Contingency Action

Rule 701 is written to: (1) define air pollution episode criteria; (2) provide for episode notification to the public; (3) recommend precautionary actions to be taken during episodes; and (4) prevent or reduce the severity of episodes.

Analysis: SFMM is complying with the requirements of this Rule.

4.6 Regulation XI – Source Specific Standards

4.6.1 Rule 1106.1, Pleasure Craft Coatings

Rule 1106.1 is applicable to all coating operations to pleasure crafts or their parts and components, for the purpose of refinishing, repairing, or modification. Pleasure crafts are defined as vessels which are manufactured or operated primarily for recreational purposes. Pleasure craft coating is any marine coating, except unsaturated polyester resin (fiberglass) coatings, applied by brush, spray, roller, or other means to a pleasure craft. The rule limits the VOC content of products used in Pleasure craft Coatings.

Analysis: SFMM is complying with the requirements of this Rule regarding VOC content of the Pleasure Craft Coating and recordkeeping.

4.6.2 Rule 1107, Coating of Metal Parts and Products

Rule 1107 applies to all metal coatings operations. Metal parts and products are any components or complete units fabricated from metal, except those subject to the coating provisions of other source specific rules of Regulation XI. A person shall not apply VOC-containing coatings to metal parts and products subject to the provisions of this rule unless the coating is applied with equipment operated according to the equipment manufacturer specifications, and by the use of one of the following methods: (A) Electrostatic application, or (B) Flow coat, or (C) Dip coat, or (D) Roll coat, or (E) High-Volume, Low-Pressure (HVLP) Spray, or (F) Hand Application Methods, or (G) Such other coating application methods approved by the Executive Officer. The rule limits the VOC content of products used in Metal Parts and Products Coating operations.

Analysis: SFMM is complying with the requirements of this Rule regarding the methods used to apply coatings to Metal Parts, the VOC content of the coating and recordkeeping.

4.6.3 Rule 1110.2, Emission from Gaseous and Liquid Fueled Engines

Rule 1110.2 applies to stationary and portable engines rated at greater than 50 brake horsepower (BHP). The Rule limits the NOx, VOC and CO concentrations.

Analysis: SFMM is complying with the requirements of this Rule regarding its five internal combustion engines regulated by this Rule.

4.6.4 Rule 1113, Architectural Coatings

Rule 1113 applies to persons applying any architectural coatings to stationary structures. The Rule limits the VOC content of products used in Architectural Coatings operations.

Analysis: SFMM is complying with the requirements of this Rule regarding the VOC content of Architectural Coatings and recordkeeping.

4.6.5 Rule 1136, Wood Products Coatings

Rule 1136 applies to persons applying coatings or strippers to any wood products. The Rule limits the VOC content of products used in Wood Products Coating operations.

Analysis: SFMM is complying with the requirements of this Rule regarding the VOC content of Wood Products Coatings and recordkeeping.

4.6.6 Rule 1138, Control of Emissions from Restaurant Operations

Rule 1138 applies to persons operating commercial cooking equipment for human consumption. The Rule only applies to chain-driven charbroilers used to cook meat. Other cooking equipment such as under-fired charbroilers is currently not regulated but may be subject to future regulations.

Analysis: SFMM is complying with the requirements of this Rule regarding chain-driven charbroilers and recordkeeping.

4.6.7 Rule 1140, Abrasive Blasting

Rule 1140 applies to persons using abrasive blasting and requires any air contaminant not to exceed opacity limits for a period or periods aggregating more than three minutes in any one hour.

Analysis: SFMM is complying with the requirements of this Rule.

4.6.8 Rule 1145, Plastic, Rubber, Leather and Glass Coatings

Rule 1145 applies to persons applying coatings to plastic, rubber, leather and glass products. The Rule limits the VOC content of products used in any of these applications.

Analysis: SFMM is complying with the requirements of this Rule regarding the VOC content of coatings applied to these materials and recordkeeping.

4.6.9 Rule 1146.2, Emission of Oxides of Nitrogen from Large Water Heaters and Small Boilers and Process Heaters

Rule 1146.2 applies to units that have a rated heat input capacity less than or equal to 2,000,000 Btu per hour. The purpose of this rule is to reduce NOx emissions from natural gas-fired water heaters, boilers, and process heaters as defined in this rule

Analysis: SFMM is complying with the requirements of this Rule regarding its water heater.

4.6.10 Rule 1151, Motor Vehicle and Mobile Equipment Non-Assembly Line Coating Operations

Rule 1151 applies to persons who use or apply automotive coatings or associated solvents. The purpose of this rule is to limit VOC, stratospheric ozone-depleting compound, and global-warming compound emissions from coatings operations associated with the coating of motor vehicles and mobile equipment.

Analysis: SFMM is complying with the requirements of this Rule regarding the VOC content of coatings applied to motor vehicles and mobile equipment and recordkeeping.

4.6.11 Rule 1162, Polyester Resin Operations

Rule 1162 applies to all polyester resin operations that fabricate, rework, repair, or touch-up products for industrial use.

Analysis: SFMM is complying with the requirements of this Rule regarding application methods and recordkeeping.

4.6.12 Rule 1168, Adhesive and Sealant Applications

Rule 1168 applies to all applications of adhesives, adhesive bonding primers, adhesive primers, sealants, sealant primers, or any other primers. The purpose of this Rule is to reduce emissions of VOCs and to eliminate emissions of chloroform, ethylene dichloride, methylene chloride, perchloroethylene, and trichloroethylene from the application of adhesives, adhesive bonding primers, adhesive primers, sealants, sealant primers, or any other primers.

Analysis: SFMM is complying with the requirements of this Rule regarding the application of adhesives and sealants and recordkeeping.

4.6.13 Rule 1170, Methanol Compatible Fuel Storage and transfer

Rule 1170 requires at least one tank to be compatible with methanol, when one or more underground motor vehicle fuel storage tank(s) are installed or replaced.

Analysis: SFMM does not have any underground motor vehicle fuel storage tanks. However it is complying with the requirements of this Rule with its current AST tank.

4.6.14 Rule 1171, Solvent Cleaning Operations

Rule 1171 applies to all persons who use solvent materials in solvent cleaning operations during the repair, maintenance, or servicing of parts, products, tools, machinery, equipment, or general work areas. The Rule also applies to all persons who store and dispose of the solvent materials used in solvent cleaning operations. The purpose of this rule is to reduce emissions of VOCs, toxic air contaminants, and stratospheric ozone-depleting or global warming compounds from the use, storage and disposal of solvent cleaning materials in solvent cleaning operations and activities. A solvent cleaning operation is solvent cleaning conducted as part of a business.

Analysis: SFMM is complying with the requirements of this Rule regarding solvent materials and recordkeeping.

4.7 Regulations XIII – New Source Review

4.7.1 Rule 1303, Requirements

Rule 1303 requires any new source or modification to an existing source to use Best Available Control Technology (BACT) whenever the new source or modification results in an emission increase of any non-attainment air contaminant, ozone depleting compound, or ammonia. An emission increase shall be offset by Emission Reduction Credits approved pursuant to Rule 1309. The offset ratios shall be 1.2-to-1.0 for Emission Reduction Credits

Analysis: SFMM is complying with the requirements of this Rule. The three new Light Towers powered by diesel-fueled generators will use BACT.

4.8 Regulation XIV – Toxics and Other Non-Criteria Pollutants

4.8.1 Rule 1401, New Source Review of Toxic Air Contaminants

Rule 1401 establishes allowable risks for facilities requiring new permits pursuant to Rules 201 or 203. The Rule specifies limits for maximum individual cancer risk (MICR), cancer burden, and noncancer acute and chronic hazard index (HI) from new permit units, relocations, or modifications to existing permit units which emit toxic air contaminants.

Analysis: SFMM is renewing its existing Title V permit and is adding three light towers powered by diesel-fueled generators. As indicated in Section 3, SFMM only generates a deminimis level of air toxics and these additional units should not cause any thresholds to be exceeded.

4.8.2 Rule 1415, Reduction of Refrigerant Emissions from Stationary Refrigeration and Air Conditioning Systems

Rule 1411 is applicable to any person who owns or operates a refrigeration system, as defined in this Rule. The Rule is also applicable to any person who services, disposes, or relocates a refrigeration system, and to any person who services or maintains recycling and recovery equipment, and to any person who recycles, recovers, or reclaims, or sells refrigerant. The purpose of this Rule is to reduce emissions of Class I and Class II refrigerants from stationary refrigeration and air conditioning systems by requiring persons subject to this rule to reclaim, recover, or recycle refrigerant and to minimize refrigerant leakage.

Analysis: SFMM is complying with the requirements of this Rule regarding its refrigeration systems and recordkeeping.

4.8.3 Rule 1470, Requirements for Stationary Diesel-fueled Internal Combustion and Other Compression Ignition Engines

Rule 1470 applies to any person who owns or operates a stationary Compression Ignition (CI) Engine with a rated brake horsepower greater than 50 (>50 bhp).

Analysis: SFMM is complying with the requirements of this Rule regarding its CI engines and recordkeeping.

4.9 Regulation XXII – On-Road Motor Vehicle Mitigation

4.9.1 Rule 2202, On-Road Motor Vehicle Mitigation Options

Rule 2202 applies to any employer who employs 250 or more employees on a full or part-time basis at a worksite for a consecutive six month period calculated as a monthly average. The purpose of this Rule is to provide employers with a menu of options to reduce mobile source emissions generated from employee commutes, to comply with federal and state Clean Air Act requirements, Health & Safety Code Section 40458, and Section 182(d)(1)(B) of the federal Clean Air Act.

Analysis: SFMM is complying with the requirements of this Rule.

4.10 Regulation XXX – Title V Permits

4.10.1 Rule 3002, Requirements

Rule 3002 requires a Title V permit before a person shall construct, modify, relocate, or operate a Title V facility, or equipment located at a Title V facility.

Analysis: SFMM is complying with the requirements of this Rule. This permit renewal application is part of meeting this Rule requirement.

4.10.2 Rule 3003, Applications

Rule 3003 requires Title V facilities to submit a timely and complete Title V Permit Application.

Analysis: SFMM is making a timely and complete Title V Permit Application. Information contained in this package meets the requirements specified in this Rule.

4.10.3 Rule 3005, Permit Revisions

Rule 3005 provides information on the requirements for different types of permit revisions.

Analysis: SFMM is complying with the requirements in this Rule.

4.10.4 Rule 3007, Effect of Permit

Rule 3007 identifies the various effects of having a Title V permit.

Analysis: SFMM is complying with the requirements in this Rule.

Appendix B: SCAQMD Application Forms

- Title V Application Forms – Decision Matrix for Form Submittal Determination
- Form 400-A
- Form 400-CEQA
- Form 500-A2 Title V Application Certification
- Form 500-B Title V List of Exempt Equipment
- Form 500-C1 Title V Compliance Status Report
- Form 500-H Title V Compliance Assurance Monitoring (CAM) Applicability Determination for Initial, Renewal & Significant Permit Revision

Instruction/Information:

- For each minor violation cited compliance shall be achieved by the due date specified above for that particular violation.
- Within 5 working days of achieving compliance for each respective violation, the owner/responsible officer of the cited facility must complete and return a signed copy of this Notice to the South Coast Air Quality Management District at the address listed above. Please copy this Notice as many times as necessary to provide the required information. On each copy, include a written statement describing when and how compliance was achieved. Send all completed copies to the attention of the inspector named above.
- Failure to respond or a false statement that compliance has been achieved is a violation subject to further legal action pursuant to the California Health and Safety Code.
- **The facility cited in this Notice is subject to re-inspection at any time to ensure compliance.**

Re: Notice to comply
Facility #: 25513

Dear Mr. Ramos:

In response to the Notice to Comply we received on April 21, 2010, this letter is to inform you that we are in compliance. The Annual Compliance Certification report was re-submitted with the correct dates for 2009. It was sent certified mail on April 26, 2010. An hour meter was installed on the portable generator. I have attached pictures of the new hour meter for your reference. In addition the operating logs are in place for the portable generator.

If you have any questions please feel free to contact me at (661)255-4180.
