SUBJECT: RECLAIM/Title V Facility Permit Revision (Facility ID: 800003)

Dear Mr. Sramek:

Please find attached the revised Title Page, Table of Contents, and Section H of your RECLAIM/Title V Facility Permit. The revised sections reflect the approval of the permit revision requested in your Application No. 475870. The proposed permit revision was submitted to EPA for 45-day review on September 25, 2008. This permit revision includes the addition of a new portable plasma arc cutter and a nitric acid cleaning tank, and the modification of a stationary plasma arc cutter and five engine test cells as described in Attachment 1.

Please review the attached sections carefully. Insert the enclosed sections into your Title V Facility Permit and discard the earlier versions. Questions concerning changes to your permit should be directed to Mr. Gopinath Shah at (909) 396-2513.

Sincerely,
