NOTICE OF INTENT TO APPROVE FLARE MINIMIZATION PLAN PURSUANT TO RULE 1118

This notice is to inform you that the South Coast Air Quality Management District (SCAQMD) has received Flare Minimization Plan applications for Rule 1118 - Control of Emissions from Refinery Flares and intends to approve the plan submitted. The SCAQMD is the air pollution control agency for all of Orange County and portions of Los Angeles, Riverside and San Bernardino Counties. Rule 1118 sets refinery specific annual Sulfur Dioxide (SO₂) performance targets that decreased with time from years 2006 to 2012. Exceedance of the annual performance target by a subject facility would trigger the submittal of a Flare Minimization Plan or Revised Flare Minimization Plan to the SCAQMD for approval.

The SCAQMD has evaluated the Flare Minimization Plan and determined that the plan meets applicable requirements of the subject rule. Prior to approval of the Flare Minimization Plan, this public notice is being published in accordance with Rule 1118 of the SCAQMD Rules and Regulations.

APPLICANTS: Phillips 66 Company, Los Angeles Refinery, Wilmington Plant;
and Phillips 66 Company, Los Angeles Refinery, Carson Plant

FACILITY ID NOS.: 171107 and 171109

PLAN APPLICATION NOS.: 549151 and 555297

FACILITY LOCATIONS: 1660 W. Anaheim St, Wilmington, CA 90744
and 1520 E. Sepulveda Blvd, Carson, CA 90745

The two facilities constitute a petroleum refinery which processes crude oil into products such as gasoline, diesel, jet fuel and petroleum coke. The refinery operates six flares to dispose of combustible gases resulting from emergency relief, overpressure, process upsets, startups, shutdowns, and other operational and safety reasons to minimize release of toxic and/or odorous substances to the atmosphere.

In accordance with Rule 1118, the Flare Minimization Plan and the SCAQMD's analysis are available for public review during normal business hours at the SCAQMD, 21865 Copley Drive, Diamond Bar, CA. The proposed plan can also be viewed at <http://www.aqmd.gov/webappl/publicnotices> by entering either facility ID number 171107 or 171109.

Anyone wishing to comment on the proposed issuance of the revised permit must submit their comments in writing to the SCAQMD by **September 30, 2014**, at:
