Subject: Proposed Minor Revision to Title V Facility Permit for Chevron Products Co., El Segundo Refinery (Facility ID #800030)

Dear Gerardo:

Enclosed for your 45-day review is the proposed revision to the Title V facility permit for Chevron Products Company (Chevron) located at 324 W. El Segundo Blvd, El Segundo, California. Chevron's initial Title V permit was issued on October 12, 2009. The revision proposed under application A/N 504226 is a Minor Revision and a public notice is not required.

The South Coast Air Quality Management District (AQMD) has received applications for Permits to Construct from Chevron for the equipment described in table below. The AQMD has evaluated the applications and made a preliminary determination that the equipment will operate in compliance with all of the applicable requirements of our Rules and Regulations. The revised portions of the permit and our evaluation reports are attached for your review.

Application No.	Equipment	Application for
499905	Storage Tank No. 871	Modification reducing the tank's working volume from 15,600 barrels to 11,462 barrels. To ensure structural integrity, Chevron proposes to reduce the maximum liquid height in the tank to 37 ft from 47 ft.
501185	Storage Tank No. 492	Modification replacing an existing unslotted guidepole with a slotted guidepole, which will be equipped with automatic liquid level gauge.
501186	Storage Tank No. 983	Same as above

This letter is being sent to you via email in order to facilitate your review. If you have any questions or wish to provide comments regarding this project, please contact the processing engineer, Mr. Emmanuel Ruivivar, at (909) 396-2509 or by email at eruivivar@aqmd.gov.

Sincerely,

Jay Chen
