San Francisco, CA 94105

SUBJECT: Harbor Cogeneration Co. , Facility ID No. 106325  
Facility Location: 505 Pier B Ave., CA 90744

Dear Mr. Rios:

The South Coast Air Quality Management District (AQMD) has received a Title V application for a “minor permit revision” from Harbor Cogeneration Co. The applicant has requested that the Gas Turbine (D1) be allowed to operate as a RECLAIM intermittently operated source.

#### Applications and Descriptions

Application No.	Description
447323	Application requesting intermittently operated status of a Gas Turbine.
446548	Title V revision application.

The AQMD has evaluated the subject permit applications and made a preliminary determination that the equipment will comply with all of the applicable requirements of our Rules and Regulations. The AQMD is required under Rule 3005 (c) to provide a copy of the proposed permit to the EPA Administrator for a 45-day review. As such, a copy of the proposed revision to the existing Title V permit is attached along with our engineering analysis for your review.

If you wish to provide comments or have any questions regarding this project, please contact Mr. Hamilton A. Stoddard at (909) 396-2482/ [hstoddard@aqmd.gov](mailto:hstoddard@aqmd.gov) .

Sincerely,  
Pang Mueller

Senior Manager  
Refinery, Energy & RECLAIM Administration
