This is an existing facility applying for a Title V permit renewal that is engaged in bath tub manufacturing. This facility operates eleven spray booths, two storage tanks, three blending tanks, and other supporting equipment. Emissions from the eleven spray booths, two storage tanks, and three blending tanks are controlled by an air pollution control system consisting of post spray booths exhaust filters and bag filters to control the PM emissions, and a zeolite rotor concentrator and a regenerative thermal oxidizer to control the VOC emissions.

Pursuant to Title V of the federal Clean Air Act and AQMD Rule 3004(f), a Title V permit shall expire five years from the date of issuance unless such permit has been renewed. Accordingly, the above facility has submitted a Title V renewal application and requested the AQMD to renew their Title V permit. The proposed permit incorporates updates to the facility information provided in the facility's Title V renewal application and all rules and regulations that are currently applicable to the facility.

The proposed permit is available for public review at AQMD, 21865 Copley Dr.,

Diamond Bar, CA 91765 and at the Chino Public Library, 13180 Central Avenue, Chino, CA 91710. Information regarding the facility owner's compliance history submitted to the AQMD pursuant to California Health & Safety Code Section 42336, or otherwise known to the AQMD based on credible information, is also available from the AQMD for public review. For more information or to review additional supporting documents, call the AQMD's Title V hotline at (909) 396-3013. Written comments should be submitted to:

The public may request AQMD to conduct a public hearing on the proposed permit by submitting a Hearing Request Form (Form 500-G) to Brian Yeh at the above AQMD address. The AQMD will hold a public hearing if there is evidence that the proposed permit is not correct or is not adequate to ensure compliance with regulatory requirements, and a hearing will likely provide additional information that will affect the drafting and/or issuance of the permit.
