Mr. Gerardo Rios
Chief – Permits Office
U. S. EPA, Region IX
75 Hawthorne Street, Air 3
San Francisco, CA 94105

Dear Mr. Rios:

Henkel Corp., dba Ablestik Laboratories (I.D. 157359) has proposed to revise their Title V permit by installing two dust collectors (C43 & C44) and replacing a direct flame afterburner (C19) with a new regenerative thermal oxidizer (C45). This is an adhesive manufacturing facility (SIC 2891) located at 20021 Susana Road, Rancho Dominguez, CA 90221. This proposed permit revision as requested under Application Number 497060 is considered as a “minor permit revision” to their Title V permit. Attached for your review are the permit evaluation and draft permit for the proposed permit revision. With your receipt of the proposed Title V permit revision today, we will note that the EPA 45-day review period will begin on September 18th.

If you have any questions or need additional information regarding the proposed permit revision, please call Ed Muehlbacher at (909) 396-2703.

Very truly yours,

A handwritten signature in black ink that reads "Ed Muehlbacher for".

Fred Lettice
Senior Manager
Coating, Printing, Aerospace &
Metal Finishing Operations
