Dear Mr. Rios:

Northrop Grumman Space & Mission Systems Corp. (I.D. 800408) has proposed to revise their Title V permit by modifying an air pollution control system and adding a plasma etcher. This is a space and electronics manufacturing facility (SIC 3679) located at 3301 Aviation Blvd., Manhattan Beach, CA 90266. This proposed permit revision is considered as a “de minimis significant permit revision” to their Title V permit. Attached for your review are the permit evaluation and draft permit for the proposed permit revision. With your receipt of the proposed Title V permit revision today, we will note that the EPA 45-day review period will begin on December 11, 2007.

If you have any questions or need additional information regarding the proposed permit revision, please call Brian Yeh at (909) 396-2584 or Hamed Mandilawi at (909) 396-3275.
