Subject: Approval of Amendments to South Coast Air Quality Management District Test Method 10.1

Dear Mr. Eden:

The South Coast Air Quality Management District (SCAQMD) amended the following document to remove a reference to a non-existent test method.

*Method 10.1 Carbon Monoxide and Carbon Dioxide by Gas Chromatograph/non-dispersive infrared detector (GC/NDIR) – Oxygen by Gas Chromatograph – Thermal Conductivity (GC/TCD), September 24, 2008.*

EPA Region 9 has reviewed the amendments to Method 10.1 and approves its use in State Implementation Plan (SIP) rules. Method 10.1 has not been reviewed for use to determine compliance with Federal New Source Performance Standards (NSPS) or with National Emission Standards for Hazardous Air Pollutants (NESHAPS).

If you have any questions, please do not hesitate contact Stanley Tong at (415) 947-4122.

Sincerely,

A handwritten signature in black ink, appearing to read "Andrew Steckel".

Andrew Steckel
