

ATTACHMENT U-5
TIER 1 EXPOSURE AND RISK WORKBOOKS

TABLE OF CONTENTS

List of Tables

U.A5-1	Risk Estimates for Plants and Soil Invertebrates in Background Areas
U.A5-2	Risk Estimates for Sediment-Dwelling Invertebrates in Aquatic Background Areas
U.A5-3	Background Area Exposure Point Concentrations for Wildlife Based on 95% Upper Tolerance Level Concentrations
U.A5-4	Dose Estimates for Wildlife in Background Areas Based on 95% Upper Tolerance Level Concentration
U.A5-5	Risk Estimates for Wildlife in Background Areas Based on 95% Upper Tolerance Level Concentrations
U.A5-6	Risk Estimates for Plants and Soil Invertebrates in Sitewide Terrestrial Areas Based on Maximum Concentrations
U.A5-7	Risk Estimates for Plants and Soil Invertebrates in Terrestrial Exposure Units Based on Maximum Concentrations
U.A5-8	Risk Estimates for Sediment-Dwelling Invertebrates in Sitewide Aquatic Areas Based on Maximum Concentrations
U.A5-9	Risk Estimates for Sediment-Dwelling Invertebrates in Stormwater Impoundments Based on Maximum Concentrations
U.A5-10	Risk Estimates for Sediment-Dwelling Invertebrates in Aquatic Exposure Units Based on Maximum Concentrations
U.A5-11	Risk Estimates for Aquatic Life, Amphibians, and Aquatic Plants in Sitewide Surface Water Based on Maximum Concentrations
U.A5-12	Risk Estimates for Aquatic Life, Amphibians, and Aquatic Plants in Stormwater Impoundment Surface Water Based on Maximum Concentrations
U.A5-13	Risk Estimates for Aquatic Life, Amphibians, and Aquatic Plants in Exposure Unit Surface Water Based on Maximum Concentrations
U.A5-14	Sitewide (with Ponds A-5 and 18) Terrestrial Areas and Pondwide Exposure Point Concentrations for Wildlife Based on Maximum Concentrations
U.A5-15	Exposure Point Concentrations for Wildlife Based on Maximum Concentrations
U.A5-16	Stormwater Impoundments Exposure Point Concentrations for Wildlife Based on Maximum Concentrations
U.A5-17	Dose Estimates for Wildlife in Sitewide Terrestrial Areas Based on Maximum Concentrations
U.A5-18	Dose Estimates for Wildlife in Terrestrial Exposure Units Based on Maximum Concentrations
U.A5-19	Dose Estimates for Wildlife in Sitewide Aquatic Areas Based on Maximum Concentrations
U.A5-20	Dose Estimates for Wildlife in Stormwater Impoundments Based on Maximum Concentrations
U.A5-21	Dose Estimates for Wildlife in Aquatic Exposure Units Based on Maximum Concentrations
U.A5-22	Dose Estimates for Wildlife in Off-site Drainages Based on Maximum Concentrations
U.A5-23	Risk Estimates for Wildlife in Sitewide Terrestrial Areas Based on Maximum Concentrations
U.A5-24	Risk Estimates for Wildlife in Terrestrial Exposure Units Based on Maximum

-
- Concentrations
- U.A5-25 Risk Estimates for Wildlife in Sitewide Aquatic Areas Based on Maximum Concentrations
 - U.A5-26 Risk Estimates for Wildlife in Stormwater Impoundments Based on Maximum Concentrations
 - U.A5-27 Risk Estimates for Wildlife in Aquatic Exposure Units Based on Maximum Concentrations
 - U.A5-28 Risk Estimates for Wildlife in Offsite Drainages Based on Maximum Concentrations
 - U.A5-29 Risk Estimates for Plants and Soil Invertebrates in Sitewide Terrestrial Areas Based on Non-spatial Exposure Point Concentrations
 - U.A5-30 Risk Estimates for Plants and Soil Invertebrates in Terrestrial Exposure Units Based on Non-spatial Exposure Point Concentrations
 - U.A5-31 Risk Estimates for Sediment-Dwelling Invertebrates in Sitewide Aquatic Areas Based on Non-spatial Exposure Point Concentrations
 - U.A5-32 Risk Estimates for Sediment-Dwelling Invertebrates in Stormwater Impoundments Based on Non-spatial Exposure Point Concentrations
 - U.A5-33 Risk Estimates for Sediment-Dwelling Invertebrates in Aquatic Exposure Units Based on Non-spatial Exposure Point Concentrations
 - U.A5-34 Risk Estimates for Aquatic Life, Amphibians, and Aquatic Plants in Sitewide Surface Water Based on Non-spatial Exposure Point Concentrations
 - U.A5-35 Risk Estimates for Aquatic Life, Amphibians, and Aquatic Plants in Stormwater Impoundment Surface Water Based on Non-spatial Exposure Point Concentrations
 - U.A5-36 Risk Estimates for Aquatic Life, Amphibians, and Aquatic Plants in Exposure Unit Surface Water Based on Non-spatial Exposure Point Concentrations
 - U.A5-37 Sitewide (with Ponds A-5 and 18) Terrestrial Areas and Pondwise Exposure Point Concentrations for Wildlife Based on Non-spatial Exposure Point Concentrations
 - U.A5-38 Exposure Point Concentrations for Wildlife Based on Non-spatial Exposure Point Concentrations
 - U.A5-39 Stormwater Impoundments Exposure Point Concentrations for Wildlife Based on Non-spatial Exposure Point Concentrations
 - U.A5-40 Dose Estimates for Wildlife in Sitewide Terrestrial Areas Based on Non-spatial Exposure Point Concentrations
 - U.A5-41 Dose Estimates for Wildlife in Terrestrial Exposure Units Based on Non-spatial Exposure Point Concentrations
 - U.A5-42 Dose Estimates for Wildlife in Sitewide Aquatic Areas Based on Non-spatial Exposure Point Concentrations
 - U.A5-43 Dose Estimates for Wildlife in Stormwater Impoundments Based on Non-spatial Exposure Point Concentrations
 - U.A5-44 Dose Estimates for Wildlife in Aquatic Exposure Units Based on Non-spatial Exposure Point Concentrations
 - U.A5-45 Dose Estimates for Wildlife in Off-site Drainages Based on Non-spatial Exposure Point Concentrations
 - U.A5-46 Risk Estimates for Wildlife in Sitewide Terrestrial Areas Based on Non-spatial Exposure Point Concentrations
 - U.A5-47 Risk Estimates for Wildlife in Terrestrial Exposure Units Based on Non-spatial Exposure Point Concentrations
 - U.A5-48 Risk Estimates for Wildlife in Sitewide Aquatic Areas Based on Non-spatial Exposure Point Concentrations
 - U.A5-49 Risk Estimates for Wildlife in Stormwater Impoundments Based on Non-spatial

	Exposure Point Concentrations
U.A5-50	Risk Estimates for Wildlife in Aquatic Exposure Units Based on Non-spatial Exposure Point Concentrations
U.A5-51	Risk Estimates for Wildlife in Offsite Drainages Based on Non-spatial Exposure Point Concentrations
U.A5-52	Risk Estimates for the Ecological Community in Sitewide Terrestrial Areas Based on Spatial Exposure Point Concentrations
U.A5-53	Risk Estimates for the Ecological Community in Terrestrial Exposure Units Based on Spatial Exposure Point Concentrations
U.A5-54	Sitewide (without Ponds) Terrestrial Areas Spatial Exposure Point Concentrations for Wildlife
U.A5-55	Terrestrial Exposure Units Spatial Exposure Point Concentrations for Wildlife
U.A5-56	Dose Estimates for Wildlife in Sitewide Terrestrial Areas Based on Spatial Exposure Point Concentration
U.A5-57	Dose Estimates for Wildlife in Terrestrial Exposure Units Based on Spatial Exposure Point Concentrations
U.A5-58	Risk Estimates for Wildlife in Sitewide Terrestrial Areas Based on Spatial Exposure Point Concentrations
U.A5-59	Risk Estimates for Wildlife in Terrestrial Exposure Units Based on Spatial Exposure Point Concentrations
U.A5-60	Area Terrestrial Exposure Point Concentrations for Badger Based on Maximum Concentrations
U.A5-61	Area Terrestrial Intakes for the Badger Deep Soil (0-10 ft) Based on Maximum Concentrations
U.A5-62	Area Terrestrial Risks for the Badger Deep Soil (0-10 ft) Based on Maximum Concentrations
U.A5-63	Comparison of Background Risk Estimates using ERA and BTAG TRVs for Wildlife Based on Upper Tolerance Limit Concentrations
U.A5-64	Comparison of Risk Estimates for Terrestrial Mammals using ERA and BTAG TRVs Based on Non-Spatial Exposure Point Concentrations
U.A5-65	Comparison of Risk Estimates using BERA and BTAG TRVs for Terrestrial Birds Based on Non-Spatial Exposure Point Concentrations
U.A5-66	Comparison of Risk Estimates using BERA and BTAG TRVs for American Badger Based on Maximum Concentrations in Deep Soil
U.A5-67	Comparison of Risk Estimates using BERA and BTAG TRVs for Aquatic Wildlife Based on Non-Spatial Exposure Point Concentrations
U.A5-68	Wildlife Risk Comparison Footnotes
U.A5-69	Mixed and Single Source Dietary Comparison
U.A5-70	Wildlife Risk Comparison for Terrestrial Mammals Based on Non-spatial and Spatial Exposure Point Concentrations
U.A5-71	Wildlife Risk Comparison for Terrestrial Birds Based on Non-spatial and Spatial Exposure Point Concentrations
U.A5-72	Ecological Risk Comparison for Terrestrial Plants and Soil Invertebrates Based on Non-spatial and Spatial Exposure Point Concentrations
U.A5-73	Spatial and Non-spatial Exposure Point Concentration Risk Comparison Footnotes
