The District did not add 40 CFR Part 60, Subpart A, Section 60.18 requirement to Table IV - Generally Applicable Requirements. This had not been previously identified as an applicable requirement. EPA commented that if it applies, the requirement should also be included in source-specific tables. The facility and an industry association commented and explained why this requirement should not apply, and the District agrees with this position.

SOLANO COUNTY
James Spering

The initial Title V permit for this facility was issued on December 1, 2003. Details of the previous revisions can be found in Section X of the permit "Revision History". All changes to the most recent version of the permit are clearly shown in strikeout/underline format.

SONOMA COUNTY
