NOTICE OF PROPOSED REVISION TO THE TITLE V PERMIT

The South Coast Air Quality Management District (AQMD) is the air pollution control agency for the four county region including all of Orange County and non-desert portions of Los Angeles, Riverside and San Bernardino Counties. Rule 3006 requires that the AQMD publish this notice prior to the issuance of a revised Title V permit to the facility listed below:

Tesoro Logistics Operations LLC

820 Carrack Avenue
Carson, CA 90813
Facility ID# 172878

Facility Contact Person:

Ms. Donna DiRocco
Senior Environmental Specialist

This is an existing facility that has applied for a significant revision to their Title V permit. This is a marine terminal which stores and distributes petroleum products. The facility currently operates marine loading/unloading berths, storage tanks, a waster effluent collection system, an internal combustion engine, and a vapor control system

This revision is for the installation of an emergency electrical generator powered by a diesel fueled internal combustion engine and for the modification of a storage tank. The engine is subject to 40 CFR 60 Subpart IIII and 40 CFR 63 Subpart ZZZZ making this a "significant revision" which requires a public notice prior to permit issuance.

The AQMD has evaluated the permit application and has determined that the equipment will meet all applicable air quality Rules and Regulations.

As required by Title V of the federal Clean Air Act, the Title V permit includes all the emission limits, applicable requirements and operating conditions on the equipment. Title V facilities are required to certify compliance with the Title V permits in addition to recordkeeping and mandatory reporting of any deviation of the permit conditions.

The proposed permit is available for public review at AQMD, 21865 Copley Dr., Diamond Bar, CA 91765 and at the Long Beach Public Library, 101 Pacific Ave., Long Beach, CA 90822. The proposed permit can also be viewed at <http://www3.aqmd.gov/webappl/publicnotices2/Search.aspx> by entering the facility's ID number. Information regarding the facility owner's compliance history submitted to the AQMD pursuant to California Health & Safety Code Section 42336, or otherwise known to the AQMD based on credible information, is also available from the AQMD for public review. **Anyone**

wishing to comment on the issuance of the proposed renewal permit should submit their comments by December 29, 2015. Written comments should be submitted to:
