This is an existing facility applying for a renewal to their Title V permit. The facility produces polystyrene foam products for the consumer market, including disposable food service items. This facility operates four polystyrene extrusion lines and associated thermoform ovens, a screen cooker, grinders, and storage silos. Emissions from the above-described equipment are vented to six electrostatic precipitators, two filters, six storage filter vents to control the PM emissions, and one regenerative thermal oxidizer (RTO) to control the VOC emissions.

Pursuant to Title V of the federal Clean Air Act and AQMD Rule 3004(f), a Title V permit shall expire five years from the date of issuance unless such permit has been renewed. Accordingly, the above facility has submitted a Title V renewal application and requested the AQMD to renew their Title V permit. The proposed permit incorporates updates to the facility information provided in the facility's Title V renewal application and all rules and regulations that are currently applicable to the facility.

The proposed permit is available for public review at AQMD, 21865 Copley Dr.,

Diamond Bar, CA 91765 and at the La Mirada Public Library, 13800 La Mirada Blvd, La Mirada, CA 90638. Information regarding the facility owner's compliance history submitted to the AQMD pursuant to California Health & Safety Code Section 42336, or otherwise known to the AQMD based on credible information, is also available from the AQMD for public review. For more information or to review additional supporting documents, call the AQMD's Title V hotline at (909) 396-3013. Written comments should be submitted to:

The public may request AQMD to conduct a public hearing on the proposed permit by submitting a Hearing Request Form (Form 500-G) to Stephen Jiang at the above AQMD address. The AQMD will hold a public hearing if there is evidence that the proposed permit is not correct or is not adequate to ensure compliance with regulatory requirements, and a hearing will likely provide additional information that will affect the drafting and/or issuance of the permit.
