[Amended Date]

06-xxxE CAB  
File No. 0045

**CERTIFIED MAIL**  
**RETURN RECEIPT REQUESTED**

Mr. Jay Obrey  
Director, Asphalt Plant/Quarry  
Grace Pacific Corporation  
P. O. Box 78  
Honolulu, Hawaii 96810

Dear Mr. Obrey:

**Subject: Amendment of Covered Source Permit (CSP) No. 0045-01-C  
Minor Modification Application No. 0045-21  
Grace Pacific Corporation  
400 TPH Non-Portable Plant, 150 TPH Screening Plant,  
600 TPH Screening Plant and 600 TPH Recycled Aggregate Plant  
with 1,000 kW Diesel Engine Generator  
Located at: 91-920 Farrington Highway, Kapolei, Oahu  
Date of Expiration: [Five-Year Period from Issuance Date]**

The subject covered source permit is amended in accordance with Hawaii Administrative Rules, Chapter 11-60.1. The issuance of this permit amendment is based on the plans, specifications, and information that you submitted as part of your application for modification received on March 14, 2006, and addendums dated April 18 and May 23, 2006. The amendment allows re-configuration of and equipment added to the 600 TPH Recycled Aggregate Plant. A receipt for the minor modification fee of \$200.00 is enclosed.

The amendment does not relax any permit conditions.

Special Condition No. A.1.c. in Attachment II, issued with CSP No. 0045-01-C dated September 20, 2005 is amended as follows:

- c. 600 TPH Recycled Aggregate Plant (RAP Plant)
  - i. AMI 5020VGF Grizzly Feeder, serial no. 2152-03, manufactured 2002;
  - ii. 600 TPH Cedarapids JPR 3054 Jaw Crusher, serial no. 51636, manufactured 2002;
  - iii. 400 TPH Cedarapids 5064 HSI Impact Crusher, serial no. 51687, manufactured 2002;

## PROPOSED

Mr. Jay Obrey  
[Amended Date]  
Page 2

- iv. Cedarapids TSH 6203-32 Screen, serial no. 51455, manufactured 2002;
- v. Thunderbird 6162 re-screening station, serial no. 2153-03;
- vi. Assorted conveyor belts and stackers;
- vii. AMI Thunderbird II, model no. 8282-C6-D04682 re-screening station, serial no. 2437-06;
- viii. Thunderbird II, model no. 3613BFH-D4153 Grizzly Bin Feeder, serial no. 2438-06;
- ix. 1,000 kW Cummins QST30-G5 Diesel Engine Generator (DEG), 63.3gph, fired with diesel #2; and
- x. Watersprays.

Special Condition No. C.1.c. in Attachment II, issued with CSP No. 0045-01-C dated September 20, 2005 is amended as follows:

The 600 TPH Recycled Aggregate Plant and associated diesel engine generator shall not operate in excess of 6,750 hours, as measured by the hours of operation of the 1,000 kW diesel engine generator, in any rolling twelve (12) month period.

All other permit conditions issued with CSP No. 0045-01-C dated September 20, 2005, shall not be affected and shall remain valid.

Sincerely,

THOMAS E. ARIZUMI, P.E., CHIEF  
Environmental Management Division
