### TITLE V PERMIT (REV 05) EVALUATION

**Applicant's Name** Eastern Municipal Water District  
Moreno Valley Regional Water Reclamation Facility

**Mailing Address** 2270 Trumble Road  
P.O. Box 8300  
Perris, CA 92572

**Equipment Location** 1301 Case Road  
Perris, CA 92570

**FACILITY ID 007417**  
**APPLICATION 508904- Title V De Minimis Significant Permit Revision**

**Background**

Eastern Municipal Water District (EMWD) Perris Valley Regional Water Reclamation Facility (PVRWRF) filed A/N 508904 for Title V permit revision No. 05 on March 10, 2010. The Title V permit revision includes permit applications 513835 and 514066. A/N 513835 was filed for a Permit to Construct for a digester gas flare. A/N 514066 was filed for the alteration of a sewage treatment plant (> 5 MGD) anaerobic to update the equipment description.

Title V revision No. 05 is considered a de minimis significant permit revision, because the cumulative emission increases of non-RECLAIM pollutants or HAPs do not exceed the applicable thresholds and the project does not result in new or additional NSPS or NESHAP requirements.

Public notice is not required. For additional information and permit evaluation please refer to the attached evaluation prepared for the EPA review.

Note: Initial Title V (A/N 412175) was issued October 31, 2008. Title V Revision No. 01 (A/N 493910) was issued July 31, 2009. Title V Revision No. 02 (A/N 496806) was issued January 1, 2010. Title V Revision No. 3 (A/N 499898) was issued September 9, 2010.

**Rules Evaluation**

Compliance with applicable rules and regulations is expected.

**Conclusions and Recommendations**

A Permit to Construct is recommended for A/Ns 513835 and 514066. A revised Title V permit is recommended after EPA review.
