South Gate, CA 90280

SUBJECT: ARCO Terminal Services Corporation, Vinvale Terminal
Title V Facility Permit, Section H – Revision No.1 -- (Facility ID: 800396)

Dear Ms. Walker:

Attached are the revised Title Page, Table of Contents, and Section H of your Title V Facility Permit for the petroleum product bulk loading terminal located at 8601 South Gate, CA 90280. The proposed significant permit revision was submitted to EPA for 45-day review on June 13, 2012, and a public notice was published on June 19, 2012. EPA submitted one comment requesting to “tag” a permit condition with a reference to 40 CFR 60 Subpart IIII which was incorporated in the permit. No public comments were received during the public comment period which ended on July 19, 2002. The revised Facility Permit reflects the inclusion of the following application that has been approved for Permit to Construct:

SECTION H: PERMIT TO CONSTRUCT

<i>New Application No.</i>	<i>Previous Application No.</i>	<i>Equipment Description</i>
530257	None	Installation of a 205 BHP 6-cylinder Cummins diesel-powered emergency internal combustion engine

This proposed revision is covered under application no. 530258.

Please review the attached Sections carefully. Insert the enclosed sections into you Title V Facility Permit and discard the earlier versions. Questions concerning the changes to your permit should be directed to Ms. Belinda Wan at (909) 396-2532 or by email at bwan@aqmd.gov.

Sincerely,

Jay Chen, P.E.
