

South Coast Air Quality Management District

Form 400-A

Application Form for Permit or Plan Approval

List only one piece of equipment or process per form.

Mail To:
 SCAQMD
 P.O. Box 4944
 Diamond Bar, CA 91765-0944
 Tel: (909) 396-3385
 www.aqmd.gov

Section A - Operator Information

1. Facility Name (Business Name of Operator to Appear on the Permit): AIR PRODUCTS AND CHEMICALS, INC.	2. Valid AQMD Facility ID (Available On Permit Or Invoice Issued By AQMD): 101656
3. Owner's Business Name (If different from Business Name of Operator): Air Products and Chemicals, Inc.	

Section B - Equipment Location Address

4. Equipment Location is: Fixed Location Various Location
 (For equipment operated at various locations, provide address of initial site.)

700 N. Henry Ford Avenue
 Street Address

Wilmington, CA 90744
 City State Zip

Jim Reebel Sr. Enviro Engineer
 Contact Name Title

(310) 847-7300 13 (310) 847-7311
 Phone # Ext. Fax #

E-Mail: **reebeljc@airproducts.com**

Section C - Permit Mailing Address

5. Permit and Correspondence Information:
 Check here if same as equipment location address

700 N. Henry Ford Avenue
 Address

Wilmington, CA 90744

Section D - Application Type

6. The Facility is: Not In RECLAIM or Title V In RECLAIM In Title V In RECLAIM & Title V Programs

7. Reason for Submitting Application (Select only ONE):

7a. New Equipment or Process Application:	7c. Equipment or Process with an Existing/Previous Application or Permit:
<input type="radio"/> New Construction (Permit to Construct) <input type="radio"/> Equipment On-Site But Not Constructed or Operational <input type="radio"/> Equipment Operating Without A Permit * <input type="radio"/> Compliance Plan <input type="radio"/> Registration/Certification <input type="radio"/> Streamlined Standard Permit	<input type="radio"/> Administrative Change <input type="radio"/> Alteration/Modification <input type="radio"/> Alteration/Modification without Prior Approval * <input type="radio"/> Change of Condition <input type="radio"/> Change of Condition without Prior Approval * <input type="radio"/> Change of Location <input type="radio"/> Change of Location without Prior Approval * <input type="radio"/> Equipment Operating with an Expired/Inactive Permit *
7b. Facility Permits:	Existing or Previous Permit/Application
<input checked="" type="radio"/> Title V Application or Amendment (Refer to Title V Matrix) 7d <input type="radio"/> RECLAIM Facility Permit Amendment	If you checked any of the items in 7c., you MUST provide an existing Permit or Application Number: _____

* A Higher Permit Processing Fee and additional Annual Operating Fees (up to 3 full years) may apply (Rule 301(c)(1)(D)(i)).

8a. Estimated Start Date of Construction (mm/dd/yyyy): 02/01/2014	8b. Estimated End Date of Construction (mm/dd/yyyy): 02/01/2014	8c. Estimated Start Date of Operation (mm/dd/yyyy): 02/01/2014
---	---	--

9. Description of Equipment or Reason for Compliance Plan (list applicable rule): Title V Permit Renewal	10. For identical equipment, how many additional applications are being submitted with this application? (Form 400-A required for each equipment / process) _____
--	---

11. Are you a Small Business as per AQMD's Rule 102 definition? (\$500,000 or less and total gross receipts are \$500,000 or less OR a not-for-profit training center) <input checked="" type="radio"/> No <input type="radio"/> Yes	12. Has a Notice of Violation (NOV) or a Notice to Comply (NC) been issued for this equipment? <input type="radio"/> No <input checked="" type="radio"/> Yes If Yes, provide NOV/NC#: P61005
--	--

Section E - Facility Business Information

13. What type of business is being conducted at this equipment location? Industrial gas (H2) manufacturing	14. What is your business primary NAICS Code? (North American Industrial Classification System) 325120
15. Are there other facilities in the SCAQMD jurisdiction operated by the same operator? <input type="radio"/> No <input checked="" type="radio"/> Yes	16. Are there any schools (K-12) within 1000 feet of the facility property line? <input checked="" type="radio"/> No <input type="radio"/> Yes

Section F - Authorization/Signature

I hereby certify that all information contained herein and information submitted with this application are true and correct.

17. Signature of Responsible Official: 	18. Title of Responsible Official: Plant Manager	19. I wish to review the permit prior to issuance. (This may cause a delay in the application process.) <input type="radio"/> No <input checked="" type="radio"/> Yes
20. Print Name: Chris McWilliams	21. Date: 8/5/2012	22. Do you claim confidentiality of data? (If Yes, see instructions.) <input checked="" type="radio"/> No <input type="radio"/> Yes

23. Check List: Authorized Signature/Date **23** Form 400-CEQA Supplemental Form(s) (ie., Form 400-E-xx) Fees Enclosed

5 August 2013

Mr. Tom Lee
Air Quality Engineer
South Coast Air Quality Management District
Refinery and Waste Management Permitting
21895 Copley Drive
Diamond Bar, CA 91765

**Subject: Air Products and Chemicals, Inc, Wilmington Hydrogen Plant (Facility ID# 101656)
- Facility Title V Permit Renewal Application**

Mr. Lee:

On behalf of Air Products and Chemicals, Inc. (Air Products) Wilmington Hydrogen Plant (Facility ID# 101656), I am submitting the applicable forms and fees for a Title V renewal application. The facility's initial Title V permit was issued on February 2, 2009 and therefore has an expiration date of February 1, 2014.

In order to continue to operate past the expiration date, Air Products is required to submit a timely and complete application to renew the Title V permit. Per District Rule 3002(b)(1), a facility may operate without a Title V permit only if "A timely and complete application for ... Title V permit renewal for such facility or equipment has been filed with the Executive Officer..." As specified in Rule 3003(a)(6), a Title V renewal is considered timely if it is submitted at least 180 days prior to expiration (and as early as 545 days prior). The District will deem an application for renewal complete according to the criteria in Rule 3003, subdivisions (b) and (c) and if the facility has provided all information requested by the District pursuant to Rule 3002(d). This means that Air Products must submit this application no later than August 5, 2013 in order to qualify for the application shield provisions of Rule 3002(b).

In addition to the relevant information included on the attached applicable Title V application forms, the remaining sections of this letter will serve to provide any further explanations that are needed regarding items listed on 500-C2 forms as well as to provide supporting information for compliance assurance monitoring (CAM) non-applicability determinations.

Explanation of Form 500-C2 Items

Flare Video Camera Records

While performing maintenance on the flare camera and DVR system it was identified that the video records only were available back until November 15, 2009. Although Rule 1118(h)(1) requires only 90 days of records, condition no. 16(j) of the approved revised flare plan

included in the Wilmington plant Title V permit requires five (5) years of records. Since the initial Title V permit took effect February 2, 2009, records should be available, at a minimum, back until November 4, 2008 (90 days before to account for Rule 1118(h)(1)).

Once it was discovered that the hard drive capacity of the flame camera DVR was insufficient and that older records had been overwritten, additional hard drives were ordered and installed so that a minimum of five (5) years of data can be recorded moving forward. Unfortunately, nothing else can be done at this time other than to continue recording and keep storing the records until five (5) years is reached. This will occur on November 15, 2014 assuming no issues/changes to the current last available date.

CAM Non-Applicability Determinations

Reformer Furnace

The reformer furnace (H-101, D38) generates enough actual NO_x emissions and has a large enough firing rate to qualify as a major source for NO_x under SCAQMD's RECLAIM program. As a major source, Rule 2012(c)(2)(A) requires installation, maintenance, and operation of a direct monitoring device to continuously measure the concentration of NO_x and all other applicable variables. To satisfy this requirement a continuous emissions monitoring system (CEMS) was installed as part of the original plant construction and includes a NO_x analyzer, dry O₂ analyzer, wet O₂ analyzer, stack flow monitor (dP and temperature), as well as data management/reporting equipment (PLC, digital chart recorder, DAS, RTU, etc.).

The reformer heater's NO_x CEMS fulfills the CAM applicability exemption §64.2(b)(vi), which states the following:

Emission limitations or standards for which a part 70 or 71 permit specifies a continuous compliance determination method, as defined in §64.1. The exemption provided in this paragraph (b)(1)(vi) shall not apply if the applicable compliance method includes an assumed control device emission reduction factor that could be affected by the actual operation and maintenance of the control device (such as a surface coating line controlled by an incinerator for which continuous compliance is determined by calculating emissions on the basis of coating records and an assumed control device efficiency factor based on an initial performance test; in this example, this part would apply to the control device and capture system, but not to the remaining elements of the coating line, such as raw material usage).

Because the aforementioned NO_x CEMS is required by a Part 70 permit (i.e. Air Products Wilmington's Title V permit, where the heater is tagged as a NO_x major source which is required to install a CEMS per Rule 2012), it meets the conditions in this exemption and therefore a CAM plan is not required since the existing monitoring is assumed to already provide a reasonable assurance of compliance.

Clean-Service Flare

The clean-service flare (X-113, C46) is utilized to safely combust refinery fuel gas and fixed-composition gases (syngas, pressure swing adsorber (PSA) purge gas, and hydrogen) sent to the flare during significant process upsets, startups/shutdowns, and emergency scenarios.

Flare emissions are required to be in compliance with the SCAQMD Rule 407 carbon monoxide (CO) limit of 2,000 ppmv and, as such, the flare is considered a control device to meet this limit for the streams directed to the flare. Since the first two elements of the three-part CAM rule applicability criteria were met, further evaluation of the pre-control CO potential-to-emit (PTE) was necessary to determine if the 50 tons of CO threshold is met.

The gas streams mentioned above are directed to the flare during two types of events: unplanned flaring events that are the result of emergencies/breakdowns/upsets that are unforeseen and planned flaring events that are the result of planned startups/shutdowns typically associated with required, periodic maintenance activities. Rule 407(b)(3) exempts emergency venting due to equipment failure or process upset so the item that needs to be evaluated is only planned startups/shutdowns. Planned startups/shutdowns normally occur every 2-3 years as part of a scheduled facility turnaround to conduct maintenance/projects that cannot be done with the plant online. For purposes of evaluation it is assumed that there would be a maximum of one (1) planned shutdown and subsequent startup in a year. Air Products process engineers reviewed actual data from the last planned shutdown/startup at Wilmington (January/February 2012) to come up with very conservative estimates of CO to the flare during planned shutdowns and startups:

- During the planned shutdown on 1/14/2012, syngas was vented for 2.5 hours. Based on the amount of feed into the plant at that time, the equivalent total amount of CO in the syngas that would be directed to the flare was calculated to be 5.50 tons. PSA purge gas was flowing for 4 minutes while the vents to the flare were open. The purge gas flow rates equated to a plant rate of 10 MMSCFD. The additional CO from any purge gas that would have been going to the flare is estimated at 0.55 tons. Also based off of the cycle time and the syngas flow rate at the time of shutdown, the amount of CO that would have been left in the PSA beds, and later swept/cleaned to the flare using nitrogen, was estimated at 0.43 tons. Based on this most recent planned shutdown, the total amount of CO that would be directed to the flare during a planned shutdown is conservatively calculated/estimated to be **6.48 tons**.
- During planned startup on 2/15/2012, syngas was vented for 17.7 hours. Based on the amount of feed into the plant at that time, the equivalent total amount of CO in the syngas that would be directed to the flare was calculated to be 24.66 tons. **Please note that in this instance a steam valve became stuck which resulted in an extended startup time and unusually long startup flaring; typical/ideal planned startups would be much shorter and have significantly less CO directed to flare.** During a planned start up the PSA beds are brought online by importing product hydrogen from the medium-pressure pipeline. When the PSA is started up the vent valve to the flare is shut and the gases in the PSA return to their normal operational flow paths; some hydrogen may also be released through the atmospheric hydrogen vent (as needed) at this time. Based on this most recent occurrence, the total amount of CO that would be directed to the flare during a planned startup is conservatively calculated/estimated to be **24.66 tons**.

So the total pre-control CO PTE directed to the flare during a planned shutdown/startup is approximately 31 tons per year which is well within the 50 ton threshold. Therefore the third element of the CAM rule applicability criteria is not satisfied and CAM does not apply for the clean-service flare.

The following fees/forms have been included with this application:

- A check in the amount of **\$2,072.50** for Title V renewal initial processing fee.
- Form 400-A
- Form 400-CEQA
- Form 500-A2
- Form 500-B
- Form 500-C1
- Form 500-C2 (x1)
- Form 500-H

Please feel free to contact me at (310) 847-7300 x13 if you have any questions or require any additional information. Thank you.

Sincerely,

Jim Reebel
Sr. Environmental Engineer

South Coast Air Quality Management District

Form 400-CEQA

California Environmental Quality Act (CEQA) Applicability

Mail To: SCAQMD, P.O. Box 4944, Diamond Bar, CA 91765-0944. Tel: (909) 396-3385 www.aqmd.gov

The SCAQMD is required by state law, the California Environmental Quality Act (CEQA), to review discretionary permit project applications for potential air quality and other environmental impacts. This form is a screening tool to assist the SCAQMD in clarifying whether or not the project has the potential to generate significant adverse environmental impacts that might require preparation of a CEQA document [CEQA Guidelines §15060(a)]. Refer to the attached instructions for guidance in completing this form. For each Form 400-A application, also complete and submit one Form 400-CEQA. If submitting multiple Form 400-A applications for the same project at the same time, only one 400-CEQA form is necessary for the entire project. If you need assistance completing this form, contact Permit Services at (909) 396-3385 or (909) 396-2668.

Section A - Facility Information
1. Facility Name (Business Name of Operator To Appear On The Permit): AIR PRODUCTS AND CHEMICALS, INC.
2. Valid AQMD Facility ID (Available On Permit Or Invoice Issued By AQMD): 101656
3. Project Description: Title V Permit Renewal

Section B - Review For Exemption From Further CEQA Action

Table with 3 columns: Yes, No, Is this application for:
1. A CEQA and/or NEPA document previously or currently prepared that specifically evaluates this project?
2. A request for a change of permittee only (without equipment modifications)?
3. A functionally identical permit unit replacement with no increase in rating or emissions?
4. A change of daily VOC permit limit to a monthly VOC permit limit?
5. Equipment damaged as a result of a disaster during state of emergency?
6. A Title V (i.e., Regulation XXX) permit renewal (without equipment modifications)?
7. A Title V administrative permit revision?
8. The conversion of an existing permit into an initial Title V permit?

If "Yes" is checked for any question in Section B, your application does not require additional evaluation for CEQA applicability. Skip to Section D - Signatures on page 2 and sign and date this form.

Section C - Review of Impacts Which May Trigger CEQA

Complete Parts I-VI by checking "Yes" or "No" as applicable. To avoid delays in processing your application(s), explain all "Yes" responses on a separate sheet and attach it to this form.

Table with 3 columns: Yes, No, Part I - General
1. Has this project generated any known public controversy regarding potential adverse impacts that may be generated by the project?
2. Is this project part of a larger project?
Part II - Air Quality
3. Will there be any demolition, excavating, and/or grading construction activities that encompass an area exceeding 20,000 square feet?
4. Does this project include the open outdoor storage of dry bulk solid materials that could generate dust?

1 A "project" means the whole of an action which has a potential for resulting in physical change to the environment, including construction activities, clearing or grading of land, improvements to existing structures, and activities or equipment involving the issuance of a permit. For example, a project might include installation of a new, or modification of an existing internal combustion engine, dry-cleaning facility, boiler, gas turbine, spray coating booth, solvent cleaning tank, etc.
2 To download the CEQA guidelines, visit http://ceres.ca.gov/env_law/state.html.
3 To download this form and the instructions, visit http://www.aqmd.gov/ceqa or http://www.aqmd.gov/permit

Section C - Review of Impacts Which May Trigger CEQA (cont.)

	Yes	No	Part II - Air Quality (cont.)
5.	<input type="radio"/>	<input type="radio"/>	Would this project result in noticeable off-site odors from activities that may not be subject to SCAQMD permit requirements? For example, compost materials or other types of greenwaste (i.e., lawn clippings, tree trimmings, etc.) have the potential to generate odor complaints subject to Rule 402 - Nuisance.
6.	<input type="radio"/>	<input type="radio"/>	Does this project cause an increase of emissions from marine vessels, trains and/or airplanes?
7.	<input type="radio"/>	<input type="radio"/>	Will the proposed project increase the QUANTITY of hazardous materials stored aboveground onsite or transported by mobile vehicle to or from the site by greater than or equal to the amounts associated with each compound on the attached Table 1? ⁴
Part III - Water Resources			
8.	<input type="radio"/>	<input type="radio"/>	Will the project increase demand for water at the facility by more than 5,000,000 gallons per day? The following examples identify some, but not all, types of projects that may result in a "yes" answer to this question: 1) projects that generate steam; 2) projects that use water as part of the air pollution control equipment; 3) projects that require water as part of the production process; 4) projects that require new or expansion of existing sewage treatment facilities; 5) projects where water demand exceeds the capacity of the local water purveyor to supply sufficient water for the project; and 6) projects that require new or expansion of existing water supply facilities.
9.	<input type="radio"/>	<input type="radio"/>	Will the project require construction of new water conveyance infrastructure? Examples of such projects are when water demands exceed the capacity of the local water purveyor to supply sufficient water for the project, or require new or modified sewage treatment facilities such that the project requires new water lines, sewage lines, sewage hook-ups, etc.
Part IV - Transportation/Circulation			
10.	Will the project result in (Check all that apply):		
	<input type="radio"/>	<input type="radio"/>	a. the need for more than 350 new employees?
	<input type="radio"/>	<input type="radio"/>	b. an increase in heavy-duty transport truck traffic to and/or from the facility by more than 350 truck round-trips per day?
	<input type="radio"/>	<input type="radio"/>	c. increase customer traffic by more than 700 visits per day?
Part V - Noise			
11.	<input type="radio"/>	<input type="radio"/>	Will the project include equipment that will generate noise GREATER THAN 90 decibels (dB) at the property line?
Part VI - Public Services			
12.	Will the project create a permanent need for new or additional public services in any of the following areas (Check all that apply):		
	<input type="radio"/>	<input type="radio"/>	a. Solid waste disposal? Check "No" if the projected potential amount of wastes generated by the project is less than five tons per day.
	<input type="radio"/>	<input type="radio"/>	b. Hazardous waste disposal? Check "No" if the projected potential amount of hazardous wastes generated by the project is less than 42 cubic yards per day (or equivalent in pounds).

****REMINDER: For each "Yes" response in Section C, attach all pertinent information including but not limited to estimated quantities, volumes, weights, etc.****

Section D - Signatures

I HEREBY CERTIFY THAT ALL INFORMATION CONTAINED HEREIN AND INFORMATION SUBMITTED WITH THIS APPLICATION IS TRUE AND CORRECT TO THE BEST OF MY KNOWLEDGE. I UNDERSTAND THAT THIS FORM IS A SCREENING TOOL AND THAT THE SCAQMD RESERVES THE RIGHT TO CONSIDER OTHER PERTINENT INFORMATION IN DETERMINING CEQA APPLICABILITY.

Section I - Operator Information

1. Facility Name (Business Name of Operator That Appears On Permit):
 AIR PRODUCTS AND CHEMICALS, INC.

2. Valid AQMD Facility ID (Available On Permit Or Invoice Issued By AQMD):
 101656

3. This Certification is submitted with a (Check one):
 a. Title V Application (Initial, Revision or Renewal)
 b. Supplement/Correction to a Title V Application
 c. MACT Part 1

4. Is Form 500-C2 included with this Certification? Yes No

Section II - Responsible Official Certification Statement

Read each statement carefully and check each that applies - You must check 3a or 3b.

1. For Initial, Permit Renewal, and Administrative Application Certifications:
 a. The facility, including equipment that are exempt from written permit per Rule 219, is currently operating and will continue to operate in compliance with all applicable requirement(s) identified in Section II and Section III of Form 500-C1,
 i. except for those requirements that do not specifically pertain to such devices or equipment and that have been identified as "Remove" on Section III of Form 500-C1.
 ii. except for those devices or equipment that have been identified on the completed and attached Form 500-C2 that will not be operating in compliance with the specified applicable requirement(s).
 b. The facility, including equipment that are exempt from written permit per Rule 219, will meet in a timely manner, all applicable requirements with future effective dates.

2. For Permit Revision Application Certifications:
 a. The equipment or devices to which this permit revision applies, will in a timely manner comply with all applicable requirements identified in Section II and Section III of Form 500-C1.

3. For MACT Hammer Certifications:
 a. The facility is subject to Section 112(j) of the Clean Air Act (Subpart B of 40 CFR part 63), also known as the MACT "hammer." The following information is submitted with a Title V application to comply with the Part 1 requirements of Section 112(j).
 b. The facility is not subject to Section 112(j) of the Clean Air Act (Subpart B of 40 CFR part 63).

Section III - Authorization/Signature

I certify under penalty of law that I am the responsible official for this facility as defined in AQMD Regulation XXX and that based on information and belief formed after reasonable inquiry, the statement and information in this document and in all attached application forms and other materials are true, accurate, and complete.

1. Signature of Responsible Official: 	2. Title of Responsible Official: Plant Manager
3. Print Name: Chris McWilliams	4. Date: 8/5/2011
5. Phone #: (310) 952-9172	6. Fax #: (310) 952-9713

PROCEDURES FOR DETERMINING COMPLIANCE STATUS

- Equipment verification:** Review the list of pending applications, and either the preliminary Title V facility permit or the list of current permits to operate that the AQMD provided you, to determine if they completely and accurately describe all equipment operating at the facility. Attach a statement to describe any discrepancies.
- Identify applicable requirements*:** Use the checklist in Section II to identify all applicable and federally-enforceable local, state, and federal rules and regulations, test methods, and monitoring, recordkeeping and reporting (MRR) requirements that apply to any equipment or process (including equipment exempt from a permit by Rule 219) at your facility. The potential applicable requirements, test methods and MRR requirements are identified and listed adjacent to each given equipment/process description. Check off each box adjacent to the corresponding requirement as it applies to your particular equipment/process.
Note: Even if there is only one piece of equipment that is subject to a particular requirement, the appropriate box should be checked.
- Identify additional applicable requirements*:** Use Section III to identify any additional requirements not found in Section II. Section II is not a complete list of all applicable requirements. It does not include recently adopted NESHAP regulations by EPA or recent amendments to AQMD rules. Do not add rules listed in Section V here.
- Identify any requirements that do not apply to a specific piece of equipment or process:** Also use Section III to identify any requirements that are listed in Section II but that do not apply to a specific piece of equipment or process. Fill out Section III of this form and attach a separate sheet to explain the reason(s) why the identified rules do not apply. Note: Listing any requirement that does not apply to a specific piece of equipment will not provide the facility with a permit shield unless one is specifically requested by completing Form 500-D and is approved by AQMD.
- Identify SIP-approved rules that are not current AQMD rules:** Use Section IV to identify older versions of current AQMD rules that are the EPA-approved versions in the State Implementation Plan (SIP), and that are still applicable requirements as defined by EPA. The facility is not required to certify compliance with the items checked in Section IV provided that the non-SIP approved rule in Section II is at least as stringent as the older SIP-approved version in Section IV. **
- Identify Local-Only Enforceable Regulatory Requirements:** Use Section V to identify AQMD rules that are not SIP-approved and are not federally enforceable.
- Determine compliance:** Determine if all equipment and processes are complying with all requirements identified in Sections II and III. If each piece of equipment complies with all applicable requirements, complete and attach Form 500-A2 to certify the compliance status of the facility. If any piece of equipment is not in compliance with any of the applicable requirements, complete and attach Form 500-C2 in addition to Form 500-A2.

* The following AQMD rules and regulations are not required to be included in Section II and do not have to be added to Section III: Regulation I, List and Criteria in Regulation II, Rule 201, Rule 201.1, Rule 202, Rule 203, Rule 205, Rule 206, Rule 207, Rule 208, Rule 209, Rule 210, Rule 212, Rule 214, Rule 215, Rule 216, Rule 217, Rule 219, Rule 220, Rule 221, Regulation III, Regulation V, Regulation VIII, Regulation XII, Regulation XV, Regulation XVI, Regulation XIX, Regulation XXI, Regulation XXII, and Regulation XXX.

** Emission units adversely affected by the gap between current and SIP-approved versions of rules may initially be placed in a non-Title V portion of the permit

South Coast Air Quality Management District

Form 500-C2

Title V Non-Compliant Operations Report and Part 70 Compliance Schedule/Plan and Quality Improvement Plan - QIP

Mail To:
 SCAQMD
 P.O. Box 4941
 Diamond Bar, CA 91765-0941

Tel: (909) 396-3385
 www.aqmd.gov

Section I - Operator Information

1. Facility Name (Business Name of Operator That Appears On Permit): AIR PRODUCTS AND CHEMICALS, INC. 2. Date: (mo/day/yr) 02/28/2013 3. Revision? 4. Valid AQMD Facility ID (Available On Permit Or Invoice Issued By AQMD): 101656

Section II - Non-Compliant Operations Report

1. Facility applying for initial Title V permit: This facility has not been issued an initial Title V permit. The table below describes the non-compliant operations and the applicable requirements. The variance case number is also noted.
2. Facility has been issued an initial Title V permit:
- a. This facility has experienced non-compliant operations as described below but achieved compliance with the applicable requirements on _____ (mo/day/yr).
- b. This facility continues to experience non-compliant with the applicable requirements as described below. The Case Number for the approved Alternative Operating Conditions (AOC) is noted.

Device or Application Number	Applicable Requirement* (Rule or Permit Condition Number)	Federally Enforceable Requirement?	(Including any Notices of Violation Issued) Describe Non-Compliant Operations (Attach additional sheets as needed.)	Variance or AOC Case Number (Attach copy of document.)
C46 (293123)	Rule 1118(h)(1)	<input checked="" type="radio"/> Yes <input type="radio"/> No	While performing maintenance on the flare camera and DVR system it was identified that the video records only go back to 11/15/09. Title V permit requires 5 years of records; should have records back until 11/4/08 (90 days before the effective date of initial Title V permit which is 2/2/09).	None
		<input type="radio"/> Yes <input type="radio"/> No		
		<input type="radio"/> Yes <input type="radio"/> No		
		<input type="radio"/> Yes <input type="radio"/> No		
		<input type="radio"/> Yes <input type="radio"/> No		

*Only list the applicable requirement with which the operation is not in compliance.

Section III - Part 70 Compliance Schedule/Plan and QIP

Describe How Compliance Was or Will Be Achieved	Compliance Schedule	
	Date (mo/day/yr)	Remedial Measures & Milestones
Unfortunately, nothing can be done other than to continue recording and keep the records until 5 years is reached. This will occur on 11/15/14 assuming no issues/changes to the current last available date of 11/15/09.	11/15/2014	Once it was discovered that there was not enough hard drive capacity for the flare camera DVR and older records had been written over, additional hard drives were ordered and installed so that a minimum of 5 years of data can be recorded moving forward. [January 2013]

Section IV - Progress Report Schedule

1. Certified progress reports will be submitted according to the following schedule (Check a or b and complete c.):

a. Semi-annually b. More frequently as specified c. Submittal dates: 1) _____ 2) _____ 3) _____ 4) _____ (mo/day/yr)

South Coast Air Quality Management District

Form 500-H

Title V - Compliance Assurance Monitoring (CAM) Applicability Determination for Initial, Renewal, & Significant Permit Revision

This form is required as part of an initial, significant permit revision, or renewal Title V application. If your Title V facility has control devices in use, the CAM rule may apply. Follow the instructions on the reverse side of this form to determine whether your facility is subject to CAM requirements.

Mail To:
SCAQMD
P.O. Box 4944
Diamond Bar, CA 91765-0944

Tel: (909) 396-3385
www.aqmd.gov

Section I - Operator Information

1. Facility Name (Business Name of Operator That Appears On Permit):

AIR PRODUCTS AND CHEMICALS, INC.

2. Valid AQMD Facility ID (Available On Permit Or Invoice Issued By AQMD):

101656

Section II - CAM Status Summary for Emission Units

3. Based on the criteria in the instructions (check one and attach additional pages as necessary):

a. The emission units identified below are subject to the CAM rule¹ and a CAM plan² is attached for each affected emissions unit:

b. There are no emission units with control devices at this Title V facility that are subject to the CAM rule.

Emission Unit ³ (Application, Permit or Device No.)	Equipment Description ⁴	Uncontrolled Emissions		Connected to Control Unit ³ (Application, Permit or Device No.)	Equipment Description ⁴	Controlled Emissions	
		Pollutant	PTE ⁵ (tons/year)			Pollutant	PTE ⁵ (tons/year)

¹ For more detailed information regarding the CAM rule applicability, refer to Title 40, Chapter I, Part 64, Section 64.1 of the Code of Federal Regulations (40 CFR Part 64, Section 64.1). This also can be accessed via the internet at: http://www.access.gpo.gov/nara/cfr/waisidx_99/40cfr64_99.html.

² Only one CAM plan is required for a control device that is common to more than one emissions unit, or if an emissions unit is controlled by more than one control device similar in design and operation. If the control devices are not similar in design and operation, one plan is required for each control device.

³ Only one CAM plan is required for a control device that is common to more than one emissions unit, or if an emissions unit is controlled by more than one control device similar in design and operation. If the control devices are not similar in design and operation, one plan is required for each control device.

⁴ List all new and existing emission units and the connected control devices either by AQMD application, permit or device number. When the emission unit is new and has not yet been assigned an application number, leave this column blank.

⁵ Provide a brief equipment description of the emission units and control devices by indicating equipment type, make, and model and serial numbers as appropriate.

⁵ Potential to Emit
