Mr. Gerardo Rios
Chief – Permits Office
U. S. EPA, Region IX
75 Hawthorne Street, Air 3
San Francisco, CA 94105

Dear Mr. Rios:

Arlon, Materials for Electronics Division (I.D. 046646) has proposed to revise their Title V permit by modifying an existing air pollution control device and a impregnating coating line by replacing old burners with low NOx burners to comply with the Rule 1147 requirements. This is an electronic materials lamination facility (SIC 3083) located at 9433 Hyssop Drive, Rancho Cucamonga, CA 91730. This proposed permit revision as requested under Application Number 550673 is considered as a “de minimis significant permit revision” to their Title V permit. Attached for your review are the permit evaluation and draft permit for the proposed permit revision. With your receipt of the proposed Title V permit revision today, we will note that the EPA 45-day review period will begin on August 30th.

If you have any questions or need additional information regarding the proposed permit revision, please call Ed Muehlbacher at (909) 396-2703.

Very truly yours,

A handwritten signature in black ink, appearing to read "Amir Dejbakhsh", is written over a light blue circular stamp.
