Mr. Gerardo Rios
Chief – Permits Office
U. S. EPA, Region IX
75 Hawthorne Street, Air 3
San Francisco, CA 94105

Dear Mr. Rios:

The Boeing Company – C17 Program (formerly Douglas Products Division; ID 800038) has proposed to revise their Title V permit by replacing two emergency diesel powered engines: one fire pump and one emergency electrical generator. This is an aircraft manufacturing facility (SIC 3721) located at 2401 E. Wardlow Road, Long Beach, CA 90807. This proposed permit revision under Application No. 534307 is considered as a “significant permit revision” to their Title V permit. Attached for your review are the permit evaluation and draft permit for the proposed permit revision. With your receipt of the proposed Title V permit revision today, we will note that the EPA 45-day review period will begin on August 29, 2012.

If you have any questions or need additional information regarding the proposed permit revision, please call Ed Muehlbacher at (909) 396-2703.

Very truly yours,

A handwritten signature in black ink that reads "Ed Muehlbacher for".
