City of Industry, CA 91746

**Subject:** Transmittal of Final Title V Permit (Renewal & Minor Revision)

Facility ID	Facility Name	Address
008547	Quemetco, Inc.	720 S. 7th Ave. City of Industry, CA 91746

Dear Mr. Bevans:

Enclosed is the final Title V permit renewal, for the facility listed above, that has been issued by the South Coast Air Quality Management District (AQMD). This Title V permit supercedes the previous Title V Permit issued by the AQMD to Quemetco, Inc. (Facility ID 008547).

The draft copy of this permit was submitted to EPA Region IX for a 45-day review period (December 20, 2011 to February 3, 2012) and made available for a 30-day public comment period (December 23, 2011 to January 24, 2012). The AQMD did not receive any comments on the draft permit from the EPA, but did receive comments and two requests for Public Hearing from the public. AQMD decided to hold a public hearing on March 29, 2012 and received additional comments. All comments received as a result of the public notice and public hearing have been addressed, and no changes to the draft permit resulted from the comments.

In addition, we are incorporating a minor revision that has been duly noticed to the EPA. The EPA had no comments. This revision is for the following:

Section H (Permits to Construct)

Appl. No.	Description	Device(s)	Process	System
533021	Replacement of the rotary dryer furnace drum with a new drum.	D3	1	2

This Title V minor permit revision is covered under Application No. 533001.

May 4, 2012

The following administrative changes have also been incorporated into the Title V permit:

Section A

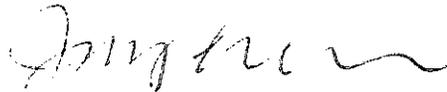

Updated contact person name, title, and phone number. Inserted new permit issue and expiration date.

Section K

Added Rule 301 to the table of rules that are applicable to the facility.

Please review this facility permit carefully. If you determine that there are administrative errors in the permit, have any questions, or need additional information concerning this permit, please contact Charles Tupac of the Refinery and Waste Management Team at (909) 396-2684 within 30 days of the receipt of your permit.

Sincerely,

Jay Chen, P.E.  
Senior Engineering Manager
