Mr. Gerardo Rios  
Chief - Permits Office  
U. S. EPA, Region IX  
75 Hawthorne Street, Air 3  
San Francisco, California 94105

Dear Mr. Rios:

Enclosed is a proposed initial Title V permit for Extreme Custom Trailers, a Division of Lippert Corp. Inc. (ID 152895) along with the facility's permit applications, permit summary and public notice. This is a boat trailer manufacturing facility (SIC 3799) located at 5490 Via Ricardo, Riverside, CA 92509. With your receipt of this proposed Title V permit today, we will note that the EPA 45-day review period will begin on May 16<sup>th</sup>.

The South Coast Air Quality Management District (AQMD) has received nine applications for Permits to Construct and Operate from Extreme Custom Trailers for the equipment described in the enclosed notice. Pursuant to AQMD Rule 212 - Standards for Approving Permits, subdivision (g), new or modified sources exceeding any of the specified daily maximums are subject to the public notification and comment provisions of 40 CFR Part 51, Section 51.161(b), and 40 CFR Part 124, Section 124.10. In addition, pursuant to AQMD Rule 3006, Public Participation, a public notice is required prior to the issuance of an initial Title V permit. The public notice requirements for Rule 212 and Rule 3006 have been combined into one notice to be conducted simultaneously.

The AQMD has evaluated these applications and made a preliminary determination that the equipment will operate in compliance with all of the applicable requirements of our Rules and Regulations. Therefore, the AQMD is proposing to issue permits to Extreme Custom Trailers for the equipment described in the enclosed notice.

Please find enclosed a public notice for Extreme Custom Trailers issued in accordance with Rule 212(c)(2) and (g). The public notice provides for a 30-day comment period (which ends June 22, 2008) prior to making a final decision on the issuance of the permits, and is also being published in a newspaper of general circulation in the vicinity of this facility. This notice is being distributed to each address within a ¼ mile radius of the property line of the facility. This notice is also being sent to the California Air Resources Board, the Southern California Association of Governments (SCAG), the County of Riverside, the City of Riverside, and the State and Federal Land Managers.

If you have any questions or need additional information regarding the proposed permit, please call Mrs. Stacey Ebner at (909) 396-2504.

Very truly yours,
