Dear Ms Wang:

Enclosed is your NO<sub>x</sub> RECLAIM/Title V Facility Permit effective April 1, 2013.

Your NO<sub>x</sub> RECLAIM/Title V facility permit now includes the applicable requirements of the NO<sub>x</sub> RECLAIM program under Regulation XX.

Please review the enclosed facility permit carefully, and discard the earlier versions. The enclosed sections of the Facility Permit contain changes as follows:

1. The revision number and dates of the Title Page and the Table of Contents have been updated to reflect the re-issuance of the enclosed facility permit.
2. Section A has been updated to indicate inclusion in the NO<sub>x</sub> RECLAIM program, Cycle 1, and Inland Zone.
3. Section B has been initiated to reflect your new Nox Allocation for compliance year 2013 and beyond.
4. Sections D and H, have been converted to the RECLAIM facility permit format.
5. Sections E, F, G, I, J, and K, have been updated to include the new conditions required to comply with Regulation XX.

If you determine that certain changes or clarifications need to be made to any sections of the enclosed Facility Permit, you may appeal the terms and conditions by petitioning the Hearing Board within thirty days of receipt of the enclosed sections. If you determine there are administrative errors in the Facility Permit, please notify AQMD staff within thirty days of receipt of your Facility Permit. Your facility is still bound by the requirements of your entire Facility Permit while your appeal is under consideration by AQMD staff and/or Hearing Board.

A copy of the proposed draft permit was sent to EPA on November 1, 2012, and we did not receive any comments from the EPA.
